

WASH. CO. POTATOES LEAD IN THE MARKET

Shipped to All Parts of the Coast and Southwest

ONE FIRM SHIPS 25 CAR LOADS Buyers say Product Beat They Have Seen

Schulmerich Bros have shipped altogether thus far, 25 loads of Washington county potatoes to various parts of the Coast and Southwest, as far as Oklahoma, and buyers are unanimous in crediting the shipments as the finest they have ever seen from any part of the Coast. This ought to be highly pleasing to raisers here, and at the same time stimulate the industry. Ed. Schulmerich says now, that the reputation of Washington county potatoes is established, and markets provided, the industry will be better paid in the future, and the output correspondingly increased. It has long been known that this county produced the finest potatoes raised in the Willamette valley, and now that we do not have to depend upon the Portland produce dealers, a better price will be paid, than in the past. Mr. Schulmerich says that every shipment he made was more than satisfactory to the buyers. Much, however, depends upon the farmers as to the quality of spuds offered for sale, as they should be uniform in size, and of the best quality for shipment, in order to maintain their reputation for quality.

SENATOR FULTON'S SPEECH

United States Senator C. W. Fulton addressed a good-sized crowd last Thursday afternoon, at the Crescent Theatre, this city. His speech was practically a repetition of his letter, published some time ago, in which he denied the accusations made against him by Mr. Henry, denouncing that person as "a liar." His friends here were pleased with his speech, and predict that he will get a big vote in this county. The band furnished music on the street and at the theatre.

A week ago last night, a crowd of boys aggregating nearly fifty persons called at the ranch of Perry Stream, and proceeded to charivari him, using various implements of torture to the sensitive ear. Finally, Perry went down stairs, and opened the door, and informed the crowd that it was no previous, as he was still a lone bachelor. The boys were not convinced until a search of the house failed to disclose any garments worn by the fair sex, when they retreated, evidently much disappointed. Bachelor Stream is still chuckling to himself.

BUXTON APPRECIATES BUT DECLINES HONOR

Forest Grove Grange Official Protests

WILL NOT CONSIDER STATE SENATE Believes in the Provisions of the Primary Law

The following letter from the Master of the Oregon State Grange, A. T. Buxton, of Forest Grove, anent the State senatorial candidacy, explains itself:

To the Voters of Washington Co. The undersigned has frequently been importuned, during the past two months, to become a candidate for the State Senate. I certainly have not failed to feel a deep appreciation of this entirely unsought honor and these expressions of confidence on the part of my fellow citizens.

For a number of reasons, however, I have felt it to be for the best real interests of the county, as well as duty which I have owed to other interests with which I am associated, to decline the honor. Hence I have sought, through my friends and whenever an opportunity has been presented, in a quiet way, to discourage the idea.

I would not feel justified in referring to the matter in a public way at this time, but for the fact that it has been intimated to me, from reliable sources, that there is a move on foot to call a mass convention, as soon as the primaries are over, and put into the field a ticket in opposition to the one that may be nominated at the primaries, and that an attempt is to be made to use the writer's name as a candidate for the Senate, in this convention.

As to the general plan of such a movement, I have nothing to say at this time, but against the use of my own name in such a way, I most earnestly protest. We have upon the statute books of this state a method prescribed for the nomination of candidates for all political offices. If I had thought best to become a candidate for the State Senate, or for any other office, I certainly would have felt it incumbent on me to have complied with the provisions of this law, and have sought to obtain the nomination in the regular way. Not having deemed it wise to do this, I certainly could not and would not consent to accept a nomination made in contravention to the provisions of this law, even were such a nomination tendered me.

While again expressing my keen appreciation of the honor, I must, therefore, respectfully request that if such a movement really exists, my name be given no further consideration in connection therewith. Respectfully, A. T. Buxton, Forest Grove, Ore., April 14, 1908.

MONEY IN DAIRYING

Six years ago, F. Schomberg bought a farm near Mountindale, paying \$2200 for same. There was at that time about ten acres cleared on the ranch; today he has 50 acres in cultivation. From the proceeds of an average of 30 cows, during the year which ended this month, he has received a total of \$3,016.91. After paying expenses of hauling the milk to the condenser at Hillsboro, he has a profit of \$2,789.91 for the year. The milk has netted him at the rate of \$148.3 per hundred pounds. During the year Mr. Schomberg has fattened and sold \$227 worth of veal, while his cows have averaged him more than \$100 per head, per year. His March check from the condenser amounted to \$358.24. It will be seen that from the proceeds of an average of 30 cows, Mr. Schomberg has much more than paid the original cost of his farm, in one year. This shows what may be done in the dairy business in the Willamette Valley, under right conditions.

FAVORS PLANK ROADS

Certain of the dairymen out north, notably in the vicinity of Mountindale, who have long hauls to the condenser, are considering the matter of a plank road from Mountindale to Hillsboro. The distance is nine miles, and the total cost of such a road would be cheap compared with what it would cost for a rock road. A good plank road would last about ten years, and would pay for itself many times over in that length of time. As it now is, the roads are rough, and it takes up a great deal of time in hauling. With a plank road, the trips would be made quicker, thereby lessening the cost of transportation to the dairymen, and giving them additional profit. Mr. F. Schomberg, of Mountindale, is an advocate of plank roads, and stands ready to give \$500 toward such a road, provided others will take hold of the matter, in proportion to the benefits which would accrue to them. The matter is certainly worthy of consideration.
