Bridge Beach & Co. Superior Stoves and Ranges and Great Western Stove Works

If you buy a good heater, it will save enough in fuel to pay for itself in some season. Many people have been deceived in believing that stoves were cheap because of a low price, when experience proves them the most evpensive. A small price may be paid for a stove which looks attractive, which has been described as "perfect," but it is liable to prove a very expensive purchase; for, ten chances to one, trouble will arise from this stove in a month's time. You never get something for nothing in this world, and when you pay a small price for a stove, that price must cover the cost of material and labor, and include a reasonable profit; consequently, inferior castiron and steel, and the cheapest and most inexperienced labor must go into this seemingly low-priced stove.
