HILLSBORO, OREGON, NOV. 19, 1908.

NO. 36

UNITED TRAINS TO LINTON IN 60 DAYS

Will Invade Tualatin Plains Early Next Spring

BOUND FOR TILLAMOOK COUNTRY

Equipment Already Ordered for the Linton Extension

It is stated that the United Railway will have its road from Portland to Linton, in operation by the first of the coming year. The line has been graded and the bridges built to that point, and the steel is now being laid at a rapid rate. The road may even be finished as far as Holbrook by that time. Once the Cornelius pass is surmounted, the Company will descend upon the fertile plains of Washington county, which will be the scene of great activity next summer. Hillsboro and Forest Grove are both on the line of the survey, and Hillsboro at least will be connected up with Portland on that line next summer. One of the most interesting features of the proposed road is the fact that it is to be extended to the Coast, thus giving Hillsboro two outlets to the Tillamook country. It is now pretty certain, that the United Railway is to be an extension of the North Bank road to the Oregon Coast. The North Bank road is now completed to Portland, and as Mr. Hill recently stated that he would not build from Astoria to Tillamook, it is likely he intends to go to the coast by the United Railway route. There is every reason to believe that the road will be pushed toward the coast as fast as men and money can accomplish it. Hillsboro, in the meantime, will prepare to welcome another electric road to its rapidly growing precincts.

MISS PEARL GREER

Died, of tuberculosis, at the family home in Hillsboro, Oregon, Friday, November 13, 1908, Miss Pearl Greer, only daughter of J. M. Greer and wife. Deceased was born in Bellevue, Texas, June 7, 1887, and came to Oregon with her parents in 1889. She graduated from the Hillsboro Public school, and later from the Tualatin Academy, Forest Grove. After graduation at Forest Grove, Miss Greer went to La Mesa, California, for her health, which for a time seemed to improve. Last spring she returned to Hillsboro, and steadily grew worse, until death claimed her. Deceased was a member of the Methodist church, and for some time was the church organist. She had many friends who regret her untimely death. Of her immediate family her parents and three brothers, J. Claude, Roy L. and Harold, survive. Funeral services were held last Sunday at the family home. Rev. L. F. Belknap officiating. Interment was in the Odd Fellows' Cemetery.

Time to Plant Fruit Trees

Persons who have not placed their fall orders for fruit trees, will find Leon Girod, the company's agent at the Nursery Grounds, near Oregon, ready to help them make a selection. This is the time to do planting. 35-f

JUDD ON DAIRYING

Ed. T. Judd, a prominent dairyman and fine stock breeder of Oregon, in a recent interview, had the following to say about dairying in Washington county:

"I would advise the Washington county dairymen to sow kale seed at once, if he has not already done so, and have plants ready to set out in March, or as soon as the ground would do to work. This would give him food for the middle of July and would last until pumpkins and corn was ready for use followed by second crop of kale.

While Washington county is a great cream and milk producer, the output could be largely increased with the present number of cows on the same acres that are already in cultivation by merely giving more attention to raising green feed for the time it is most needed.

Another vital point your dairymen are overlooking is the raising of heifer calves. Many of your cows are old and in a very short time will become unprofitable. There are not enough heifer calves raised to take their place; cows at present bring to five their place; cows at present bring to five their place; cows at present bring to five their place.

Tom Goodin, who lives 3 miles north of town, has had his front yard converted into a beautiful landscaped garden, with gravelled walks, ornamental trees, shrubs, etc., at a cost of nearly \$250. There is no reason why the farmer should not have an attractive and beautiful place, as well as his city cousin, and it all goes to create a favorable impression in the minds of the newcomer, as well as the ordinary passer by.

The Northwest Fruit Growers Association will meet in Portland, Dec. 1st to 5th inclusive, and the Association will offer a number of cash prizes, cups, etc., to the exhibitors of the best fruit raised in this state. Washington county is naturally one of the best fruit counties in the state, and should be well represented. This county took two prizes last year.

FAIR ASSOCIATION WILL INCORPORATE

Committee Recommends Purchase of old Fair Grounds

WHICH CAN BE HAD FOR \$15,000

Association Will Incorporate in sum of \$25,000

At a meeting held in the court house, last Saturday afternoon, in furtherance of the County Fair matter, the committee appointed at a previous meeting reported that it recommended incorporation be had in the sum of \$25,000, and that the Tongue tract, known as the Old Fair grounds, be purchased for \$15,000, and that the society be known as the Washington County Fair Association. The report of the committee was adopted, and articles of incorporation will be signed at once. Wm. Schulerich, Dr. F. A. Bailey, J. E. Reeves, L. A. Long and John Dennis were authorized to open stock books. Practically one sixth of the incorporation sum has already been pledged. The old fair grounds, recommended to be purchased, are one-half mile west of Hillsboro, and within a few years the town will be built up to the tract. A mile track is already made and in good condition. There are also a number of stables and sheds, which can be repaired and made serviceable. The Southern Pacific Railway passes along the southern boundary of the tract, which will embrace about 53 acres, and the new electric line will pass within a short distance on the north side of the grounds, making them easily accessible to travel. The matter of a county fair is as good as settled, and it is altogether likely that the Association will hold a week's fair, next Fall.

While Sam O. Mr. Hogue saved his own life by jumping out of the rig over the seat in the rear, sustaining but slight injuries about the face from the limbs of the tree.

Hillsboro Grange held a session last Saturday, at their hall in this city. The ladies of the grange prepared a good dinner, to which the grangers and their families, and a few invited guests did justice. After dinner, upon invitation, Judge J. W. Goodin gave a talk on the road question, which he illustrated with road maps. He talked about the amount of tax it will be necessary to raise for the current expenses of the county, including state tax, for school purposes, library and indigent soldier's fund, and attempted to show that for all the above purposes, the county board is required by law to raise a certain specific amount, based on the requirements of those funds. He stated that the only fund upon which the court may use its discretion is the road fund. He pointed out, on a system of charts, the proper and improper cross-sections of earth roads, and recommended the use of the road drag, as the best means of maintaining properly graded earth roads. He also explained the method of building macadam roads, and gave figures on the cost of same.

ELMER PERDUE WAS IN IOWA TOWN IN 1880

Marshal of Morenci, Mich., Gives Some Information

SAYS PERDUE HAD A FAMILY

Allerton (Iowa) People may Unravel The Mystery

While a woman in Alleghany county, North Carolina, thinks the Perdue, who was murdered in this county last summer, may have been her husband, a letter recently received by a party in this city, from Morenci, Michigan, sheds additional light upon the identity of the murdered man. Frank Swan, marshal of the above named town, states that Elmer Perdue lived in Allerton, Iowa, in 1880. He had a wife and family, at the time, and was running a drug store. Henry Perdue, one of Perdue's Michigan cousins, visited him in Iowa, in 1880, and has never heard of him since. The Alleghany county, North Carolina woman asked Sheriff Hancock to send her any money belonging to Perdue, as she had been left in poor circumstances, and needed it. She did not appear to dwell on the loss of her alleged husband in a way that would indicate that she had any particular sympathy for him, but was extremely anxious that the money, if any, be sent her. The authorities here are not inclined to take a great deal of stock in the woman's story. It is believed that the Michigan cousins can also throw some light on the identity of their cousin, Elmer Perdue. The latter live in a lumber district, and as Perdue was looking for timber out here, it is thought that he may have been in that business in Michigan, or, at least raised in the lumbering regions of that state.

New passenger equipment for the Oregon Electric Railway passed Omaha last Saturday on its way to Portland. It is expected to reach that city within the coming week and consists of six passenger and two baggage cars. Freight equipment ordered by General Manager Talbot some weeks ago has arrived at intervals during the past week. The passenger cars enroute are uniform with the present equipment on the line with the exception that they have no mail compartments and are without motors. They are designed to attach to the motor cars in trains of two and three cars each. The interior finishing is richer and more artistic than the cars now in service.
