ROAD SUPERVISORS HOLD A MEETING

Decide That Earth Roads Cannot be Made Good Enough

EXCHANGE IDEAS AS TO METHODS

Rack Roads is the Problem to be Worked Out

Last Saturday was the day set for the Supervisors' meeting, and while the stormy weather no doubt kept many persons away, quite a number of our county road makers were present. Frank Kelsey, of this city, presided as chairman. The forenoon was largely taken up with the experience of road supervisors, in making and maintaining earth roads, but the consensus of opinion was that such roads could not be made perfect for winter travel.

Hon. G. W. Marsh, of Centerville, discussed proposed road legislation. He favored rock roads, but thought it would be a long time getting them, if we built but a few miles each year, under the present method. What we lack is money to build good roads. The speaker thought it would be better for the people to vote an amendment giving counties the power to vote long time bonds at a low rate of interest, and then build one or more continuous stretches of good rock road through the county, and allow the next generation to help pay for it. He said, however, that this idea is not popular at present, but thought the people would have to come to it. The present method of building improved sections of rock road in the county, created jealousies, and the people were unwilling to tax themselves heavy enough to build a continuous line of road through the county. Judge Goodin gave a talk, which he illustrated with specially prepared maps, showing proper and improper methods of building earth roads. In the afternoon, there was a general discussion of road making, in which many supervisors took part. It was brought out that the split log drag was used in nearly every district in the county. Most of the supervisors appeared to be in favor of an increase of the road fund, but a majority of the speakers wanted the money raised in each district to be spent at home. One supervisor wanted the per diem of his class raised from \$2.50 to \$3 per day, to equal the per diem of the jurors. Mr. Marsh replied that he for one did not want to be placed on an equality with jurymen, explaining that road supervisors were selected with reference to their intelligence, while jurymen were selected because they didn't read the newspapers. One supervisor present said that the should replace the old wooden culverts on earth roads as they lasted indefinitely, while the wooden culverts soon rotted and had to be replaced. The meeting lasted until late in the afternoon. The following supervisors were present:

E. G. Hagey, Sherwood; F. M. Kelsey, Hillsboro; John Borwick, Hillsboro; J. J. Shelving, Beaverton; John Gibson, Portland; R. W. Lewis, Seegher; James Churchill, Gales Creek; N. S. Pickett, Banks; Thos. Murphy, Mountaineer; W. Hines, Banks; C. Christensen, Beaverton; Ed. Kelly, Beaverton; J. A. Johnson, Portland; R. E. Dickson, Cornelius; R. J. John Beyer, Forest Grove; Chas. Meacham, Cornelius; R. A. Hermens, Albion.

CIRCUIT COURT IS NOW IN SESSION

Grand Jury Selected From Regular Panel

TRIAL JURORS EXCUSED ONE WEEK

Indications That Present Term of Court Will be a Long One

Judge T. A. McBride opened the November term of court for Washington county last Monday. One of the first duties of the court was to see to the selection of a grand jury, with the result that the following named persons were drawn from the regular panel: Aden Keen, J. W. Raynard, Chas. E. Marre, John C. Callahan, W. L. Parsons, B. F. Catching and A. H. Salzedel. Aden Keen was chosen foreman, and H. H. Clark was appointed grand jury bailiff. The jury will have several cases to consider, prominent among which is that of Walter Johnson, charged with the murder of Perdue. A large number of witnesses are in town, subpoenaed in the several cases. A number of attorneys are present from outside points, and everything points to a long session of court at this place. The trial jurors were discharged until next Monday, when it is believed the grand jury will have returned enough business into court to keep them busy for some time, together with the civil cases which will naturally come up for trial.

These jurors were excused:

It is not known upon what basis the case was settled, but it was wiped off the calendar.

Passengers on the Oregon Electric road to Portland, one day last week, saw an argument for rock roads, down in the eastern part of the county. It consisted of a man wearing gum boots, who was trying to wade through the mud of a newly made road. He had trouble in keeping the boots on his feet, and the passengers on the car, quick to take in the ludicrous phase of the situation, greeted the poor fellow with jeers, instead of giving him advice how to get out.

STRANGER GETS AWAY WITH HORSE & BUGGY

Main Street Livery Barn Loses About \$250 by the Theft

POOR DESCRIPTION OF THE MAN

Indications Point to Organized Gang of Thieves

Last Thursday evening about dusk, a stranger came into the Main St. livery barn, and asked for a horse and buggy, stating that he likely would return within a couple of hours, but might be detained until 7 o'clock the next morning. Failing to return the next morning, the livery men became suspicious, but it was not until Friday night that they became convinced that the man had stolen the animal and buggy. They then notified Sheriff Hancock, and authorized a reward of \$25 for the return of the horse and buggy, and an additional reward of \$25 for the arrest and conviction of the thief. The horse weighs about 1,000 pounds, and is branded "S. S." on left stifle, and the buggy has red gears and black body. The horse was valued at \$150, and the buggy and harness at about \$100. Sheriff Hancock has sent a description of the horse and buggy to different parts of the state, and will make every effort to apprehend the thief. The Sheriff has for some time been of the opinion, as have others, that there exists in this Valley a band of horse thieves, who, sooner or later, must be broken up and punished, whatever the cost. Eight or ten horses have been stolen from this county during the past year, and the matter is becoming serious. Unfortunately, the livery men were unable to get a good description of the man.

Chas. Adkins, of Wilson river, added another cougar killed to his long list last Friday. The cougar was a large one and measured nine and one-half feet in length, and had killed fourteen goats for one of the neighbors the night before. He also killed a wildcat and an otter the same day. Mr. Adkins advocates paying a bounty for cougar as they no doubt kill more deer than do hunters.—Forest Grove News.

H. H. Stuart, formerly manager of the Forest Grove condenser, and who has gone to Seattle to accept a position with the Pacific Coast Condensed Milk Company, just before his departure from Forest Grove, was presented with a fine rocking chair by the employees of the condenser, as a testimonial of their regard.

John Stribich, of Forest Grove, this fall gathered 150 pounds of fine French walnuts from his orchard, which are exceptionally large and well flavored. In time to come, Washington county will be a great producer of walnuts.

Fall grain is well up, and looks fine in this county. The late rains have caused the grass to spring up as if by magic in the dairy pastures, and dairymen and farmers note a substantial increase of milk.
