## UNITED RAILWAYS MAY CUT CUT HILLSBORO

### Portland Paper Says This Town Will be Left off Line

#### WILL BE BUILT TO TILLAMOOK

Many People Believe Hillsboro will be Honored With Stub Line

A Portland paper states on the authority of T. L. Greenough, President of the United Railways, that the road will be built to Tillamook as fast as the work can be done, and that within the next 10 days active construction will be started. President Greenough is further credited with the statement that Hillsboro will be left six miles to the south of the main line, and that the company will not build to the Washington county capital. It is well known that Hillsboro citizens have twice secured right of way for the United Railways to this place, and individuals have spent considerable money in the work, and that Hillsboro people are largely responsible for the Portland franchise granted the United, and a stipulation of the franchise was that the Company should build to Hillsboro. It is now known that the United is seeking to have the terms of the franchise modified, with the idea of eliminating the Hillsboro provision. Many people here, however, believe that Hillsboro will get a stub from the main line. In any event, Hillsboro is pretty well supplied with railroads, as it now is, and it may be that the United is working some sort of a right of way scheme. The Board of Trade recently appointed a committee to go before the Portland city council, and insist upon the maintenance of the provision in the franchise to the United, which makes it obligatory on that road to build to Hillsboro.

Among the matter of the United coming to Hillsboro, Secretary Rushlow, of the Board of Trade, this week received a letter from City Attorney Kvanavugh, of Portland, in which the latter states that so far as he is concerned, the United will be forced to live up to the terms of the franchise granted, which compels that road to build into Hillsboro.

The Washington County Grange held a convention in this city, Saturday, to elect delegates to the State Grange, which meets at Mc Minnville, Tuesday, May 11, 1909. A big dinner, prepared by the ladies of the Grange, was a feature of the meeting, and several matters of public interest were discussed. The following delegates were chosen: A. B. Findley, Cedar Mill; J. H. Henry, Tualatin, and H. O. Hays, of Sherwood. The alternates are Robert Thompson, Cedar Mill; Charles G. Berger, Tualatin, and Sol Weckert, Middleton. The meeting was largely attended.

Those who love flowers will be pleased to learn that for the first and possibly the last time during the life of Mr. Luther Burbank, the great plant wizard of California, the people of Hillsboro will have, for one month only, an opportunity to purchase a few of Mr. Burbank's improved flower seeds. This opportunity until recently was beyond all expectations, and were it not for the persistent efforts on the part of Mr. Burbank's intimate friends this offer would not be made at this time. The Delta Drug Store has been fortunate enough to secure a few of these seeds, and now offers them to the public. Among the seeds which The Delta has received are Giant Double Orchid Flowered Sweet Peas, with blossoms over 2 inches in diameter; Monster Carnations, which bloom the first season from the seed; "Golden Cup" Eschscholtzias, very rare, very choice, just produced; the Shasta Daisy, with blossoms 6 inches in diameter; and others equally as desirable. As a guarantee of their genuineness, each packet bears Mr. Burbank's signature.

## SYKES STILL AFTER ELECTRIC PLANT

### Inform Mayor Council he has Secured Portland Power

#### WILL MAKE CASH BID FOR PLANT

#### Hopes to Make Offer at Next Meeting of City Council

F. G. Sykes, of Portland, who last winter made an offer to the City Council to buy the Hillsboro electric light and water plant, contingent on the part of the council to give him a 25 year franchise, he to pay \$25,000 for the plant and franchise, was in town Monday, conferring with Mayor Council. Sykes' offer was not acted upon at that time, for the reason that the council did not then have the power to give a franchise for 25 years, which power was later given it by the people. Sykes informed Mayor Council that he would be in Hillsboro at the next meeting of the city council, when he would submit a cash bid for the city's plant.

A farmer by name of Smith, living north of town, complained to the city marshal last Saturday night, that he had been held up on Second street and robbed of a sum of money. He had given 50 cents to a stranger, early in the night, whom he suspected of being the hold up. A man answering to the description of the man accused was later arrested by Sheriff Hancock and the Marshal, and taken to the county jail. The fellow claimed to be from Forest Grove, and said he was a painter. When searched he had only 15c on his person, and was later discharged. Sheriff Hancock said Smith later accounted for all of the money alleged to have been lost, but \$8.

The Black Coach Stallion, Sampson, will stand this season, 4 1/2 miles northwest of Hillsboro and 2 1/2 miles south of Glencoe, at the Wm. Jolly place. Best all-round horse in this county, good action and a sure foot gaiter. Weight, 1400 lbs.—F. W. Delsman, Owner. 1-4

The Board of Trade is agitating the matter of a sewer system for Hillsboro. No one doubts for a moment the value of such a system, and no doubt a large number of our citizens favor it. Of course, there will be a difference of opinion as to the means to be employed to get such a system; whether it should be built at the expense of the individual property owners, or whether the city should be bonded to provide the improvement. And after all is said upon the subject, the question arises—where are we to get adequate water supply to flush the sewage, once we get the system? The whole thing comes back to the question of getting enough water for the purpose. We have not enough for general purposes in the summer, as the supply now stands. Would it not be the wise thing to first get the water, and then get the sewage system? The Argus is in favor of both propositions. The question is how and where are we to get the water?

All tin and wooden ware and other utensils used about any dairy shall be kept in a clean and sanitary condition.

When cows are kept by any person or persons for dairy purposes, whether for butter, cheese, or for the production of milk or cream for sale, in addition to provisions already made by law, and now enforced, the stables or barns where such cows are kept shall be thoroughly cleaned every day, and kept in a sanitary condition. The cow's udder shall be cleaned immediately before each milking, and when the udder is soiled by mud or other filth it must be thoroughly washed with water and wiped with a clean, dry cloth.

It shall be unlawful for any creamery, agent or employe thereof to receive or accept such delivered cream unless so tagged.

Every creamery must take cream samples of all cream purchased by it and must keep such samples for a period of two days, subject to the inspection of the state dairy and food commissioner or his deputies.

The law provides for the appointment of three deputies to the dairy commissioner who shall have power to do inspection work among the dairies and creameries, each to receive a salary of \$1200 a year and \$200 for expenses; appointment to be made by Food and Dairy Commissioner Bailey.
