Wept When Stranger Left.

How Judge Goldhammer Beat the Major at His Own Game of Soft and Beguiling Ways-Very Much Downcast Over Outcome.

By M. QUAD. [Copyright, 1909, by Associated Literary Press.]

AJOR CROFOOT, grand promoter of twenty-six different thought when there came a rap on the | do you tumble?" door. The person outside who wanted to be inside might be his landlady. who had that morning hinted that she would like his room; it might be his laundress, who had threatened to hold on to his last shirt; it might be his in one last horrible threat.

When a man has arrived at that period where he has only 7 cents and a dream. They must be varied accord-

must take chances. The grand promoter drew a long breath and bade the unknown enter. In response to his call a stranger entered. He was a man of middle age. His face betrayed the fact that he was ofly and unctuous and effusive. He made himself at home in ten seconds, and in another ten he was saying:

"Major Crofoot, permit me to introduce myself as Judge Goldhammer, banker, broker, capitalist and promoter, and to say that I should not have come to take up your valuable time except for a matter of business-strict

"I am glad to see you, sir," replied the major as he extended his hand and sighed a sigh of relief that it wasn't the sheriff.

"Major," continued the caller as he became seated, "you are known to the general public as a grand promoter of great enterprises. To the few of us inside the ring the fact has become known that you are not always successful for the want of capital. You have the head to organize, but not always the capital to carry out. I am one who has watched your career very closely, sir. For the last three months I have watched you more closely than ever, having a distinct object in view."

The major bowed and blushed and didn't know whether to be pleased or uneasy. He hadn't decided which when the caller went on:

"You need a capital of ten millions to carry out your enterprises, and I don't suppose you have over a million. You can't push anything with a mere million in such times as these. You can simply make a stab at it, and you have done so repeatedly and thereby excited the admiration of myself and others." The major felt a warm glow of

pleasure stealing over him and wondered if he hadn't died and been transported to paradise. A mere million! He hadn't had \$10 at once in the last five years. His head was going round and round, when Judge Goldhammer touched him on the shoulder and said:

"Give it up, major-give it up until you can swing at least \$5,000,000 as capital. Give it up and come with me. I need you in my business. I want a right hand man, and you are the one. I have been thinking of coming to see you for the last fortnight."

"What-what is it?" gasped the major as he thrust his hand into his pocket to see if the 7 cents had got

\$20,000,000 Profits First Year.

"The greatest scheme on earth, my boy-positively the greatest. It will return \$20,000,000 profits the very first year. You shall be vice president of the company at a salary of haif a million per annum. That shows you how badly you are wanted. It's something the public must have and can't do without. Will sell just as readily in Asia and Africa as here in America. I wouldn't part with the idea for \$1,000,000,000 in United States bonds. All I wanted was a right hand financier, and now I've found him."

The major closed his eyes and felt himself sailing along on a cloud of purple and gold, and nightingales with tongues of silver seemed to be singing to him. In a faraway voice he heard the judge asking:

"Major, you have dreamed, of course. Every one has dreamed. At certain times you have dreamed of alligators, serpents and roaring lions; at other times you have dreamed of angels, cupids and broiled lobster. When you have dreamed of the one you awake in the morning unrefreshed and morbid; when you have dreamed of the other you awake feeling yourself a jim-dandy, and you go at it and fight luck and make \$100,000. Am I not right, major?"

The major bowed his head, but he

couldn't speak. His beart was too full. "My new scheme, which is my fortyseventh good thing, is the corker of all. I have discovered that dreams are a subtle but tangible thing, the same as ozone. After making this discovery I Promoter of Gigantic Enterprises asked myself, Why not preserve the good dreams and dream them over again-a score, a hundred, a thousand times? After two weeks I hit on the WAS FAKER LIKE HIMSELF, way to do it simple as A B C. I onnect a copper wire from the brain to a storage battery. If the dream is good store it up; if it is bad let it ooze away next day. One good dream warranted to last a year at least. Then you dream something else for a change. Have tried it on myself and dreamed of angels counting gold pieces and rich widows wanting to marry me. All perfected and in working order, major, and yesterday I organized the Great Worldwide Pleasant Dream company. Shares to be sold at gigantic enterprises, with not less than par; dividends will start three or four others ready to at 100 per cent. Good dreams wanted launch on the public as soon as funds all over the world. Machines can be become a little easier, had made a | made for \$3 and sell at \$10. One batlight breakfast, gone without lunch | tery answers for a whole family and and was seated in his office in serious | will last a life time. Major Crofoot,

The major did. The perspiration was rolling off him from 10,000 pores, and he felt that he must soon tumble off his chair.

Duties as Vice President.

"As vice president," continued the cobbler or his clothes cleaner, or it judge, "your duties will be extremely might be his landlord come to indulge light. We shall want to send out a dream with every battery as a sendoff. It will be for you to dream that receipt for hair dye in his pockets he | ing to locality and sex. For instance, we cannot expect that the same dream will do for an African chief and a New England old maid. We shall ask nothing of you but to dream. You can do it, major, and you may consider your fortune made. Would you like an advance of \$25,000 on your salary?" The poor major swallowed and gulp-

ed, but could not even nod his head. "Well, you can answer when I come in tomorrow. Meanwhile select your bank and order your auto and your new clothes. We'll look for offices tomerrow and also see an architect about a ten story building of our own. Might get you a diamond for your tie, as we want everybody around us to look prosperous. If you prefer horses to autos then get horses. I think this is all. Ta-ta.

The major couldn't bow him out. He sat there for ten minutes and thought it over, and then it came to him that the judge was the same sort of promoter he was and had used the same soft soap and beguiling ways, and he laid his head down on the desk and wept. He had been taken for a skate, and he wasn't even consoled by knowing that his 7 cents still remained in his pocket.

RENOWN Steel Ranges

The largest part of a woman's duties are performed in the kitchen. If this room is well appointed her work becomes a source of enjoyment.

The selection of a right range is an all important point. A Steel Range will complete the arrangements of an other-wise "up-to-date" kitchen, and be a comfort and a joy to the user.

"Something Different and Something Better."

is our claim. That Renown Steel Ranges have all the features of other ranges is easily proven.

These special features are too numerous to be all mentioned.

Let us explain all the merit points of Renown Steel Ranges to you. We will be glad to see you at any time. Ask about our exchange plans.

The Oregon Electric is coming in for considerable grilling because it runs its cars at so high a rate of speed across Second Street. This is one of the main thoroughfares leading into the city, and drivers coming down Second can not hear the cars as they are passing either way-particularly is this the case when they come from the west Unless there is some speed abatement one of these days an eastbound car is liable to scatter a vehicle and its occupants and some one may be killed. Wouldn't it be a peach of a game everybody umpired? Let's try it, just once, and see what kind of a peace conference we would have.
