

# THE HILLSBORO ARGUS.

DL. XVI.

HILLSBORO, OREGON, JULY 29, 1909

NO. 20

## BANKS BATTER AGAIN IN THE CARDINALS

### Out by Decisive Score of Five to Two

## CROWD MAKES EXCURSION

### Unbraten Had the Hoopoe as the Visitors

Only 300 people went to Banks today, and witnessed the Cardinals get their second defeat this season—and Banks did it without any overtime. The first inning drew a 0 for both teams, but in the second Hillsboro scored. In the second Wilkes singled to first and advanced to third by a base hit, and scored on Chaffin's error. It began to rain as though there would be a shower, but Ingram went out and Buxton went out to a steal to second. All were out until the fourth, although Buxton should have scored in the third—Betch was on third when he hit a daisy out to left field, which Parrott handled for home before waiting for the ball was fielded, and thrown out before he got back to the fourth. Phelps got a hit and scored on Reiben's error, and scored on Wilkes' single, and here the old cat died. In the fifth Banks scored twice. In the fifth, Gardner, the Cardinal pitcher, blew up walking Wilson, and Chaffin, when Parrott batted and Wilson and Brown scored on a squeeze play. Chaffin pitched on Aron Parrott's out. In the sixth there were no hits; no runs; and yet three runs were scored—and that's going some. Buxton went in the box for the Cardinals in the sixth and after there were no more scores, Buxton has now pitched 24 innings without allowing a score. Reiben pitched for the Bankers, and put up a good game. Chas Stevens umpired.

## STATE GRANGE MASTER APPOINTS CO. DEPUTIES

### Appointment Goes to B. G. Leedy, of Tigardville

## PROMINENT IN GRANGE CIRCLES

### Buxton Appoints one for Each County in State

State Master of the Oregon Grange, Austin Buxton, has just sent out his appointments for State Deputies, and each county gets an appointee. Heretofore the deputies have handled more than one county, and there have been times when it was impossible for them to meet important appointments. The Grange is growing rapidly over the state, and the organization is leaving an impress on our state and county legislation.

The appointment for Washington county goes to B. G. Leedy, ex-state master, and who has represented the State of Oregon in the National Grange body. Mr. Leedy is a practical man, and has always given eminent satisfaction in his work. He has a farm near Tigardville, and is universally known in every precinct in the county.

## THOSE FLATHEAD LANDS

L. E. Wilkes, U. S. Examiner of Surveys, with headquarters in Montana, was home this week, visiting his family, and departed for his party, Wednesday. Speaking of the Flathead Lands, now being filed on at Missoula and Kalispel, Mr. Wilkes says:

"Thousands upon thousands have filed on these lands. But a small percentage can get an allotment, and a Washington county man would have to pay his fare to Missoula and return, and for his expenses and 25 cents filing fee might get a piece of land—and again, might not get a big chance, and only a few thousand will get property and many thousands will not. The claims are represented by four figures, while over a hundred thousand have filed and applicants are still coming by train loads. Again, the Indians have taken by allotment all of the best land. However, there are innumerable homesteads yet in Montana that are open to 320-acre filings, and based upon my six years' experience, I would say that many of these will make good. Six years ago, when I first went up there, homesteaders filed on what I thought were worthless lands. Today many of these claims are worth \$3000 aside from the improvements. But it will take hard digging, and hard living, and if a man expects to 'make good' on a homestead filing he must go through all this."

## THINKS GAME LAW SHOULD BE CHANGED

### H. W. Scott, of Forest Grove, Has Ideas on Subject

## WANTS COUNTY TO HAVE MONEY

### Says That Outsiders Should pay Bigger License

H. W. Scott, who is somewhat of a deer slayer himself, and who knows the hills of West Washington County like the average boy does his own swimming hole, has decided ideas on the present game law. In talking over the present license system, Mr. Scott says:

"I think that the present game law should be so changed that the county will get the money for all sportsmen licenses, and the money should then be used for local purposes, like payment of bounties on wild animals, that are both destructive of wild game, as well as domestic animals. The law should also be amended that a man might kill a deer on his own place—particularly if the place is fenced. If a man outside of a county should want to hunt here, he should be made to pay more than the man who lives here; pay taxes here, and spends his money in keeping up the community. All fines should also be paid into a fund that could be handled by the county administration. As it is now our forests support the wild game and the outsider can come in and pay his little old dollar and go out and kill to the limit. This should be changed. As for myself, I think that when Portland sportsmen come out and kill deer they should pay extra. The lands which feed the venison pay taxes here—while the Portlander does not. There are many other amendments that could well be made, but these are the not unimportant ones."

## A PAIR OF JACKS

Cal. Jack, Thos. Bailey and Chas. Lamkin started Friday for a trip over in the Salmonberry region. Emmett Quick took them up to the head of the good roads section, and from there they packed in, with the aid of a "burro." The first morning out with the pack train they loaded the burro, commonly called a "jack," and Lamkin, Cal. and Bailey, all provided with a pack—the four of them—but the four legged "jack" balked, and would not move on. After Lamkin and Bailey coaxed a while they gave up in despair, until Cal. was forced to argue with the animal. The genial assistant cashier then said: "I'll tell you what's the matter—he wants a lead. I'll start out first and he'll follow. All he wants is a ball." So Cal. put a tiny bell on, brayed a trifle, and the other Jack followed with a swinging stride. Thus it was, with two Jacks at the head of the procession, that a tired quartet tramped into the mountain fastnesses of the Salmonberry last Saturday evening, and Cal. now repeats, daily, "you can't fool a Jack."
