ACCIDENTAL SHOOTING KILLS BUXTON, FRIDAY

McGloin, aged Fifteen,
Kills Brother

ENDING OF VACATION TRIP

McGloin, 13 Years Old, Killed by
Shot in Heart

A vacation trip out of Portland; brothers out for recreation; an accidental killing the first of the story of Chas. McGloin, aged 15, and John McGloin, brother, aged 13, the latter having shot through the heart by accidental discharge of a gun, Friday. The boys left Portland in the morning, and at this time took the P. R. & N. train to Astoria. That afternoon the boys Buxton and started for the Buxton ranch, where they expected to camp and have a week of sport. The boys had been shooting squirrels all afternoon, and on Saturday a squirrel, and company with a third lad, Fred Pellich, seated themselves on a log. Chas. saw a squirrel and at it, the cartridge missing. He opened the weapon and the missile, which was rim fired in closing the breech, the edge exploded, the ball entering the brother's right side, penetrating through the lung, and penetrating the heart. Death was instantaneous. Hugh Rogers telephoned to the coroner and sheriff, and Coroner E. C. Brown, in company with Edward McGloin, a brother of the boys, went out Saturday morning and had the remains taken to the Donelson undertaking parlors, where the body was prepared for shipment and taken to Portland on the electric line. McGloin has been residing with his mother, at 746 North Washington, and the dead had lived with his mother, at 45 Morris street. All the lads were attending school, and they were known as worthy young fellows. The boy who came out after the body, being a responsible position with the Buxton ranch, Chas. McGloin, who is heartbroken over the accident, cannot be consoled. His mother is a widow, her husband having died two years ago. The family is well known to the McGloin family, the father having died for him at the O. R. & N. car. McGloin, a number of years ago, the McGloin boy and young Buxton, in telling the event to Coroner Brown, as to the details of the shooting. When the cartridge was being fired, the little boy ran around in front of the older, and his eyes were on the trigger. He did not notice the little lad until from the discharge of the weapon.

She was born in Huron County, Canada, February 25, 1854, and was married to J. Hankins, September 25, 1877, husband dying in 1895. Two children survive, Mrs. Olive Ethel of Cashmere, Wash., and Alvin Hankins, of Seattle Wash. Her grandchildren survive. Of immediate family she leaves brothers, C. A. Hanley and J. M. WALL AND FAMILY

WE NOW HAVE A GOOD SUPPLY OF

good hard burned brick, and building blocks for cellars and foundations. Try our building blocks for your home foundations. Cheaper than cement or brick and better protection against frost. We have finished our run of large tile and are again running on smaller sizes, and have a fair supply at the yard. Parties wanting tile delivered should place their orders now so we can haul them before bad weather. There is always a rush of hauling orders in the Fall when roads are almost impassable. We have a good supply of rough and dressed lumber at our mill, and a quantity of common lumber at the Hare spur, below Newton, the latter to sell at a sacrifice—2x12, 2x8, 2x6, 2x4, 1x10, 1x8, 1x6 and 1x4, of various lengths. This is all good dry stock, and it will pay you to investigate should you want any of these dimensions—Groner & Rowell Co., Scholls, Hillsboro, R. 2.

E. H. Rotermund, of Newton, was in town Friday, and says that there is considerable agitation for a good big boulevard running from Bertha clear through to Hillsboro and Forest Grove. The Ladd tract near Bertha is now putting in a stretch of road and if the Shaw-Fear people, between Reedville and Beaverton, and the Ladd & Reed people this side, will aid, together with what the county could aid, we may get a fine thoroughfare clear through to the metropolis. It is a cinch that the road tax of two or three districts, for a year or two years, for instance, together with a little county as well as private aid, would make the proposition easy.

CITY VOTES TO AMEND CHARTER

This Ratifies the Sale of Power Plant

Very Little Interest Taken in the Election

The city election Monday was absolutely devoid of interest, and but 75 votes were cast. Sixty five voted for amendment of the charter to permit the council to give a 25 year franchise to the present owners of the water and light plant. There were but five votes against the amendment to post notices of passage of ordinances, or publish, as the council decided.

Judge Rood, John Milne and A. C. Archbold were judges, and W. D. Smith and Edmond Cornelius acted as clerks. It was a dull day and their visitors were not over-numerous.

This will give the council power to ratify the sale of the plant and give the purchasers a clear title. The new company will now be in a position to further their mill proposition, and there will be something doing in that line before many months.

Mr. Eddy was once editor of the Forest Grove Times and was in Washington County when there were hot times in newspaper circles. RETURN TO OLD DAYS BY AN OLDTIME BOY

Man Soon Eighty Years of Age Cradles Grain

Cuts and Binds Like Fifty-Two

Kenyon Crandall Cradles Grain Crop for D. B. Reasoner

Speaking of olden times; of modern improvements; of binders, combined harvesters—and all that—and of what the Oregon climate does in tearing down constitutions of its pioneers—here is an example. Recently Kenyon Crandall and D. B. Reasoner were talking about harvesting and Reasoner v. n. ured the opinion that Mr. Crandall, who is a pioneer of 1852, and who was 79 years of age July 21, might like to swing a grain cradle again, as he did nearly sixty years ago. The "old boy" told him he wasn't courting that kind of work, but that he wouldn't mind limbering up his muscles if he just had a good cradle. A bargain was made and Crandall procured a cradle and went out to the Reasoner ranch, two miles southwest of town, and in a day and a half cradled and bound nearly two acres of grain, feeling no ill effects of the work.

Mr. Crandall was born near Grafton, New York, in 1830, and came to Oregon in 1852, crossing the plains as far as Salt Lake with Hon. H. W. Scott, now the venerable editor of the Oregonian. He has made his home in Washington County, excepting a trip or two East, and a year or so in Portland and Ashland, ever since he came over the Portland Mountain in December, 1852. He makes his home with the reporter of the Argus, and is widely known among all the old pioneers.

BOY TO REFORM SCHOOL

Homer Warner, aged 16 years, and a son of a Buxton blacksmith, and Robt. Simpson, a 13 year old lad, were brought down from Buxton the last of the week, charged with entering the J. H. Rinck merchandise store. Deputy District Attorney Tongue permitted the Simpson lad to return home, as it was shown that he was under the influence of the elder. Warner was taken before Judge Goodin and sentenced to the Reform School.

It is said that the Warner boy has been in the habit of watching Rinck depart from the store and then entering it and helping himself to whatever his fancy dictated. The lad's mother is dead and his father alleges that he can do nothing with the son. The boy is rather bright, and it is too bad that he is a wayward. Had the lad not been an old offender it is possible that he might have been paroled, but it was thought best to have him in charge of the state authorities.

Ferd Groner, of Scholls, and who has owned an auto since the county had its first primer class in choo choo cars, had his first "tow-in" the other day, since he commenced his career as a chauffeur. He was brought in from near Glenoco, and it is supposed he was out to see how the United is getting along.
