HILLSBORO, OREGON, NOV. 25, 1909

NO. 37

## HON. WILLIS HAWLEY IN TOWN MONDAY

Representative of Oregon's  
First District

TALKED TO CROWD IN COURT HOUSE

Says he favors Cutting Down Forest  
Reserve

Hon. Willis Hawley, Oregon's representative in Congress, from the first district, arrived in the city Monday, and addressed about 100 people in the court house, Benton Bowman, presiding, and introducing the speaker. Mr. Hawley remarked on the marvelous growth of the state, saying that he expected the state to have at least 750,000 at the coming census, and an increase of wealth that will be surprising. He dwelt upon the great immigration coming this way, and said that in the East, as never before, all eyes are turning to Oregon.

Mr. Hawley gave it out that the forest reserves should be reduced and the acreage of lands open to settlement enlarged. He says in the reserves are thousands of acres which should be open to settlers, and that their presence in the reserve would be beneficial, not only as a matter of increased production, but as a protection, as well. He says Mr. Pinchot has agreed with him as to this presentation of the case, and he hopes in time to force the matter through and get surveys made and have those lands fit for farming or horticulture thrown open and restored to the eminent domain.

He says that the Oregon & California lands, given in the railroad grants with the right to sell at \$2.50 per acre, are now in the courts, and predicts that they will be returned to the people, eventually, and be forced into sale.

Mr. Hawley urged that his constituents ask of him and he will act as rapidly as possible. He reviewed some of his work the past two years and said he was willing to stand on his record.

ROBERT W. KIRKWOOD

The funeral of Robert Willis Kirkwood, a resident of Oregon since 1885, who died at his home in Forest Grove November 18, 1909, was held from the family home Sunday.

The deceased was one of the most highly respected citizens of Washington County, and is survived by his widow and six children. The children are: Professor J. E. Kirkwood, University of Montana, Miss. Mrs. C. D. Ferguson, San Jose, Cal.; Gertrude, Bertha and Albert A. Kirkwood, Forest Grove, and Robert J. Kirkwood, Portland.

R. W. Kirkwood was born at Edinburgh, Scotland, October 5, 1833, and came to the United States with his parents, who settled in Indiana in 1835. At the outbreak of the Civil War, he enlisted in the Thirtieth Iowa Volunteers, and served throughout the war. On February 12, 1871, he was married to Phoebe Hough, at Cedar Rapids, Ia. In 1885, he moved his family to Oregon. A son, Prof. J. E. Kirkwood, is wedded to Ella, a daughter of W. R. Hoyt and wife, Hillsboro.

GRABEL BREAKS LEG

Jasper N. Grabel, who has lived here for many years, suffered a fall while putting up a ceiling last Thursday, and broke his right leg at the knee. He was working at the home of his daughter-in-law, Mrs. J. H. Grabel, near Newton.

He slipped and fell and his knee struck between some two-by-fours. He was brought to his home in Hillsboro and Dr. A. B. Bailey attended the injured member. It is more than likely that he will suffer considerable inconvenience as it is the same knee injured many years ago.

Two houses to rent—Inquire at Greer's store.

Hon. C. F. Tigardville, was in the city Monday.

Perry L. Abbott and wife, of Portland, were Sunday guests at the E. L. Abbott home.

W. W. Williams, of Mountaindale, was down to the county seat Monday, greeting his friends of olden days.

Miss Marie Tunst, a student-nurse at the North Pacific Hospital, Portland, was in the city Saturday, greeting friends.

C. R. Adams, of Scholls, and who for some years was in the general merchandise business, was in the county seat Monday morning.

Trained nurse, Address, Margaret Brown, at Mrs. Susie Morgan's, Second and Baseline. Will take town or country cases. 37-8

John Oppenlander, of near Cornelius, was in the city Monday. He resides in the Subbauer section, northwest of that place. While in town Mr. Oppenlander called on the Argus.

We now have a good supply of good hard burned brick, and building blocks for cellars and foundations. Try our building blocks for your home foundations. Cheaper than cement or brick and better protection against frost. We have finished our run of large tile and are again running on smaller sizes, and have a fair supply at the yard. Parties wanting tile delivered should place their orders now so we can haul them before bad weather. There is always a rush of hauling orders in the Fall when roads are almost impassable. We have a good supply of rough and dressed lumber at our mill, and a quantity of common lumber at the Hare spur, below Newton, the latter to sell at a sacrifice—2x12, 2x8, 2x6, 2x4, 1x10, 1x8, 1x6 and 1x4, of various lengths. This is all good dry stock, and it will pay you to investigate should you want any of these dimensions—Grener & Rowell Co., Scholls, Hillsboro, R. 2.

Jacob Milne has a Shorthorn-Jersey cow that gave him \$19.31 net for the month of October—that is to say, that much net under hauling. Jake does not know just what it cost to feed the animal, but at the most it must leave him a handsome profit. The milk test on the animal run 4.04 and 4.05 right along. This is the kind of dairy cow that pays, and the sooner dairymen realize that the scrub cow is not putting the balance on the credit side of the ledger just that soon will be get the proper producing animal and then smile at the income. Mr. Milne says that outside of two pans of "farm chop" per day the cow has had but ordinary rations.

Andrew Westberg, of near Farmington, was in Saturday with some fine apples of the King and Baldwin variety. He has one of the finest and cleanest little orchards in that section, and says that he will plant three or four acres of an addition, next year. "Andy" is one of the boys who makes apple culture pay, and there is no reason why others can't follow the same channel.

J. A. Kirkwood, of Reedville, was in town Friday. He says he recently received a letter from J. Miller, who is visiting near Montreal—at South Durham, Canada—and he says that he is now "better satisfied with Oregon, than ever" after seeing a big scope of country. Mr. Miller is spending the winter back in his boyhood home.

Wm. McQuillan, who recently sold his farm to Ferd Greener, and who has retired from the "simple life," has bought the Dr. F. J. Bailey home and contents, on Second and Oak Streets. He has taken possession, and now has one of the neatest little homes in the city. The consideration is said to be between four and five thousand.

Owing to the fact that several cases of scarlet fever are reported in the city the school board had school adjourned Monday morning, and it will be closed all week. Janitor Gheen has been fumigating the school rooms with sulphur and other disinfectants and more than likely the school will again open next Monday.

John McCallen, of Cedar Mill, and A. L. and Chas. Holcomb, of Bethany, were in Saturday. Mr. McCallen is in the market for a small farm, at a bargain, near town, and Chas. Holcomb wants to sell his larger one, and get down into Southern Oregon, where he can run stock.

Do not be deceived—we have the exclusively agency for Hillsboro for the only genuine—Napatan—shoe—best—waterproof—shoe—made—high and low top, black—and—tan made. Always look at the trade mark (Nap-a-tan) before you buy.—H. Wehrung & Sons.

Binger Hermann's handbake has been the subject of much merriment for years, but Brother Hawley, who succeeded him, is also an apt student. He can hold to your hand just as long as Binger, and is developing into a campaigner that is hard to beat.

I will sell at public auction, to the highest bidder, for cash, one cow in milk, and one pony, on Main Street, opposite the Main Street Livery, at 1:30 p. m., on Saturday, Nov. 27, 1909.—B. P. Cornelius, Auctioneer.

A carload of genuine newly manufactured Hercules stumping powder, made by the E. I. Dupont de Nemours Co., of San Francisco, just received. Both telephones.—J. E. Borwick, Reedville, Ore.

J. C. Smith and wife, of Greenville, were in town Monday. Mr. Smith states that the star route out of Forest Grove to Greenville, has been restored by order of the postal department.

Chris Grand, of West Union, was in town Saturday, and called on the Argus.

## REEDVILLE HEAVY IN WOOD BUSINESS

Section Furnishes Thousands  
of Cords for Portland

BIGGEST SHIPMENTS ALONG LINE

Four Thousand Cords in one Contract  
Alone

Reedville and vicinity—embracing Dare's Spur and Wheeler Station—ships more cordwood to Portland than any other locality on the West Side, thousands of cords having been shipped out to the metropolis this year. Practically all of this is billed out of Reedville, as there is no agent at either of the other points. One contract alone, on the tract below Wheeler, calls for four thousand cords.

While it cannot be ascertained to a certainty, it is supposed that dealers pay in the neighborhood of three dollars per cord, which will mean \$30,000 for the district, net. There are yet thousands upon thousands of cords to be cut adjacent to the Southern Pacific, and the industry means more cleared land each year. With the advent of the Oregon Electric a mile or so to the north, a great deal of shipping will follow in the cordwood line along the trolley system and great development will obtain in the east of Hillsboro.

A. Groes, who has been back to New York ordering stock for his new store in the Tamielie concrete block, arrived in the city Saturday, and is hustling to get his business opened about Dec. 1. He has an announcement—display in another column.

The news that the condenser is to start up December 1 is received with satisfaction by townsmen and farmers alike, and the price for milk is to be the best ever paid in Washington county, if the last half of the November price is to prevail—and most likely it will. This means a big factor in price; and one more agency of competition. Besides the fact that it means another avenue for the milk product it will make another payroll for Hillsboro—and that is what is wanted.

## ROAD MEETING AT FOREST GROVE

Citizens Take up Question of  
Rock Supply

JUDGE GOODIN MAKES PROPOSITION

All Appear to be Unanimous for Special  
Tax

Forest Grove held a rock road meeting, last Saturday, and although the crowd was not large, owing to the storm, those there were enthusiastic over the probability of adding more good rock road to their section. Judge Goodin stated that he was satisfied that he could deliver rock at the Grove at a rate of \$1.00 per cubic yard—which is considerably under the present cost, where crushers have to be moved here and there. From the general expressions of favor heard it is more than likely that several districts up that way will levy special taxes to apply to the permanent road proposal.

Those who addressed the meeting, after Judge Goodin concluded, were: President Ferrin, Pacific University; Judge Hollis, E. W. Haines, J. A. Thornburgh, Ira E. Purdin, C. N. Johnson, Jetha Garrigus, G. W. Marsh and H. L. Russell.
