Edward Abner Thompson, of Boston, at Crescent

APPEARS TUESDAY NIGHT, JAN. 25

Blind Man in Readings and Song. Rest Room Benefit

Edward Abner Thompson, of Boston, the blind reader and base ballist, will appear at the Crescent Theatre, Tuesday evening, Jan. 25, in his character sketches, readings and songs, the proceeds to go to the blind man in readings and song, rest room benefit.

The "Light That Failed," Kipling's pathetic story, came vividly back to one last night while listening to Edward Thompson's recital given before a circle of invited guests at the Mansion, on Sixth and Jefferson streets. Here was a man in the prime of life, vigorous, capable of strong intellectual work, and a man of strong character and winning personality, who suddenly became blind and helpless, and who, as a result, was actually blind, or else would be actually blind, or else would be actually blind, or else would be actually blind.

A few days ago some Cornelius farmer took home some of the apple leavings after the cider mill was through with making a barrel of the juice that is so coveted by all. He fed it to his cow as an experiment and that evening when he went to milk the bovine stood up on her hind legs and expostulated with her owner two ribs' worth. He fed some to his horse and the animal ran away before night—and when he gave the balance of the load to his hogs there was a row all night in the pigsty. The farmer is now a temperance advocate.

C. C. James, who lives east of town, came out with flying colors in the case of cruelty to animals brought against him by Portland officers. The team in question was never driven by James, and James was home on the day the alleged mistreatment of the horses took place. The true history of the case is this: James hired a man to go to the Hawthorne stable to get a team and bring out his household goods. The man did this, and in getting James' furniture signed the owner's name. He brought the household goods to Hillsboro, and returned to James \$250 out of the \$10 advanced. The livery stable got nothing—but this was not known to Mr. James at the time. When it came to trial Mr. James was promptly acquitted upon the evidence of himself and wife. James feels the humiliation of standing trial keenly, but since he had nothing to do with the team he was exculpated from all blame.

There has been some discussion as to the right of the state to condemn and kill cows afflicted with tuberculosis. As a matter of fact the last legislature passed a law providing for the examination of cows so affected, and also says that where the symptoms are visible the animal can be killed. The law goes on to state, however, that the payment shall be made by the state to the owner, and Attorney Geo. R. Bagley gives it as his opinion, and he is sustained by many Supreme court decisions, that the law is unconstitutional on the grounds of lack of compensation. The constitution says that a man's property cannot be taken away from him without due process of law, and without the compensation being adjudicated. The present law on tuberculosis gives no man a chance to have his day in court and Mr. Bagley therefore thinks the statute is void. The Argus publishes this because many have claimed that there is no law wherein a tuberculous animal can be killed, while others claim that such an animal can be killed, but the state must pay its worth at the time of death.

John Lippert, of Buxton, and who has built more houses than any other man in North Washington County, was in town today. GERMAN INS. CO. MET HERE MONDAY

Has Over a Half Million of Policies Written

FRED BERGER ELECTED PRESIDENT

Erwin Ritter Elected Secretary—Grosses Held 12 Years

The members of the German Fire Insurance Co. of Washington County met in Hillsboro, Monday, Jan. 10, at the Grange Hall, in annual meeting. About 100 were present and the session was pleasant and profitable. Many came a long distance to be in attendance. This association now has risks outstanding in the sum of \$611,405 and a fund of \$4000 from which to draw on this year's losses and meet obligations. The association collects 50 cents per \$100 of the policy, when a member enters and takes out a policy, and thereafter the charge is 25 cents per year on each \$100 of insurance. They have been doing business in this county for 27 years, and during this time have paid over \$11,000 in fire losses. The following officers were elected to serve two years:

Fred Berger, President—this is his third term.

Erwin Ritter, secretary, succeeded Fred Grossen, who has served 12 consecutive years.

Henry Kamms and Leon Girod, auditors.

John Meier, treasurer.

Geo. Krebe and Sam Graf, appraisers.

The affairs of the association are conducted in a very praiseworthy and economical manner and it offers fire protection, in a mutual way, at rates that compare more than favorably with other fire insurance.

It was a representative body of men, and the meeting excited favorable comment from visitors to the city. One gentleman was much taken with the meeting, and said that if this was the way people did business in this section he believed he would become a resident of this county.

The leaders of the annexation movement are the following property owners of Washington County, all of whom live in the district which it is proposed to add to Multnomah: James A. Mott, Louis Hodler, F. W. Cady, B. K. Denny, A. W. Pike, W. O. Crockett, T. Wilson, John T. Williams, N. I. Pelson, Dr. F. M. Robinson and T. J. Allen. Messrs. As the Eastern man had been pointed to this place as a safe field for investment, he felt some disappointment.
