The Columbia River has been the gateway to the entire Pacific Coast the past ten days, storms having put all other railway lines out of commission.

These Spring days should be a sure cure for the growth microbe, and the warm sunbath should be taken up to the narrow water level.

CONNELL & COMPANY Where You Always Do Better

Her Dowry

A waiter in a coffee shop in Vienna was arranging the tables, seeing that the ware that is usually kept on them was in order, when the door opened, and a gentleman walked in and asked for a cup of chocolate.

"You are too early," said the waiter. "Do you suppose we can serve guests till 2 o'clock in the morning and be up at 4 to begin another day? You'll get nothing here till 9 o'clock. Be off with you!"

The stranger made no reply, but left the shop. Walking across the street, the waiter watching him the while, he entered another coffee shop and made the same request.

"Sit down, sir," said the landlord cheerily. "The chocolate will be ready in a moment."

While the guest was waiting for his chocolate he conversed with the landlord. He did not take the proffered seat, but walked back and forth. He asked many questions about what was going on in the neighborhood—whether the people were satisfied with their condition, how the city government suited them and if the inspectors troubled them much.

While they were talking the landlord's daughter, Rosina, a very pretty girl, came in with the chocolate. The stranger wished her good day and made some very pretty speeches to her. When she went out, pouring the chocolate, he said to her father:

"She is a nice girl. But I warn you that flowers are not always in bud nor even in bloom. She should be married before she fades."

You will please take notice that the undersigned has filed with the Recorder of the City of Hillsboro, Oregon, his petition praying that the following described portion of Maple Street in Simmons Addition to Hillsboro, Oregon, to-wit: Beginning at the intersection of the south line of Maple Street with the west line of Fourth Street in Hillsboro, Ore., and running thence west on the south line of Maple Street, forty-five feet; thence north parallel with the west line of Fourth Street, sixty feet, more or less, to the north line of Maple Street; thence east forty-five feet to the west line of Fourth Street; thence south to the place of beginning, being a strip of land forty-five by sixty feet, be vacated, and alleging that the only persons to be affected by such vacation are the petitioner, Clarence R. Boyd, and Benjamin Birdsall, abutting property owners.

Now therefore, all persons interested, are hereby notified that said petition will be heard by the City Council of the City of Hillsboro, on Tuesday, the 5th day of April, 1910. Rubber Plants.

The trees and shrubs which produce rubber grow in a narrow belt of the world, within 5 degrees north and south of the equator.

Microscopic Life.

The first organized living forms are extremely minute and can only be recognized by powerful microscopes. A filtered infusion of hay, allowed to stand for two or three days, will literally swarm with living things, many of them not exceeding the forty-thousandth part of an inch in diameter.

Red Hair.

Red hair is, says a scientific authority, of that color because it has in its composition a larger proportion of sulphur than black hair.

History on a Tombstone.

At Riverhead, N. Y., the stone marking the resting place of Captain James Fanning is noted for the length of its inscription, which contains 1,900 words. It recites the history of the Fanning family back to 1649.

The original "greenroom" seems to have been painted green in order to relieve the eyes of actors dazzled by the glare of the footlights.
