Colonist Rates to Oregon and the Great Northwest

The management of the Southern Pacific Co. (Lines in Oregon) takes great pleasure in announcing that the low rates from Eastern cities, which have done so much in the past seasons to stimulate travel to and settlement in Oregon, will prevail again this Spring Daily from March 1 to April 15 inclusive

PEOPLE OF OREGON

The railroads have done their part; now it's up to you. The colonist rate is the greatest of all home builders. Do all you can to let eastern people know about it, and encourage them to come here, where land is cheap and home building easy and attractive.

Fares Can Be Prepaid

At home if desired. Any agent of the road named is authorized to receive the required deposit and telegraph ticket to any point in the East.

Remember the Rates

From Chicago \$13, from St. Louis, \$12, from Omaha and Kansas City, \$25. This reduction is proportionate from all other cities.

Ex-Sheriff Connell is perhaps more conversant with the needs of travel over Washington county roads than the average man, because for years he had occasion to make many hurried trips over bad roads. Realizing the necessity for a strong vehicle he made arrangements with a Michigan firm for a special manufacture of buggies, designed for Oregon use. The best of hickory, the best of steel, and the best of workmanship—all reinforced above the average make, was the order given, and the carload of special manufacture arrived this week. Call in and see this Michigan buggy at Connell & Co.'s big store.

CORNELIUS HELD HER ELECTION ON MONDAY

Peoples' Ticket, Favoring Saloon License, Elected

MOST SPIRITED ELECTION IN HISTORY

Battle of Ballots Shows Small Majority for the Wets

Every year the thriving little city of Cornelius has an exciting municipal election, and for a number of years, there has been a fight between the "wets" and the "drys." This year it looked as though the "drys" were going to win out, but when the votes were counted the "wets" had a small majority—about the same that has prevailed in the past. There were good men on both tickets, but the adherents of either side stuck closer to their tickets than a brother. The result of the election means that for at least another year, so far as the city fathers of the little town without debt is concerned, saloons will be granted license to sell under stringent restrictions. The result of the voting:

Peoples' Ticket—Mayor Henry Challacombe, 58; councilmen—Geo. Holscher, 66; H. A. Lytle, 63; A. Benson, 68; J. B. Merrill, 60; recorder, F. L. Geiger, 63; treasurer, A. S. Hendricks, 71. This was the wet ticket.

Citizens Ticket—M. H. Henderson, 52; councilmen—F. A. Thomas, 56; W. E. Ness, 60; L. L. Hollinger, 58; S. A. Kilgore, 57; recorder, D. E. Phelps, 57; treasurer, L. A. Duncan, 30. Mr. Duncan was not nominated, and his name was written in place of C. C. Hancock, who had been named, but who had withdrawn. This confusion doubtless caused the small vote for this candidate.

Mother Knows! Olympic Flour makes good pastry, too. —Mother. The plump, hard grains, selected from the entire Northwest wheat crop and thoroughly cleaned and secured—just fill the bill for a perfect pastry flour—besides it is the flour for good bread and cakes and biscuits. Olympic Flour—always the same, always clean, pure, wholesome and nutritious—is an aid to rather than a test of a young housewife's ability. If your grocer can't supply you we'll tell you who can—but insist upon Olympic demand it—"there isn't any just as good."

- Whist Hands. There are 635,913,550,000 different whist hands in a pack of cards.
- Pleasant For the Lover. In Mexico the young men can show great attention to young ladies and at very little expense. They are therefore quite eager to invite them to theaters, parties, etc. And no wonder for it is the custom in that country for the lady's father to pay for the board and furnish the carriage, supper, etc.
- Deep Water. There is one place in the Atlantic ocean near the Virgin Islands where the bottom is four and a half miles beneath the surface. Near the Ludrone islands, in the Pacific, the depth is 20,820 feet, or about five miles.
- An Old Moon Idea. Some of the ancients believed that the soul of the good who died on earth went to the side of the moon far away from earth, while sinners were to sojourn on the side of the moon visible to mortals, thus being obliged to spend eternity in full view of the scene of their crimes.
- Italian Peasants. In some parts of Italy a peasant during the busy season will drink from twenty to twenty-five tumblers of wine a day.
- Skinning a Beel. An easy way to skin a beel without bleeding it and causing it to lose color is to put it in cold water as soon as it is cooked. Then draw the hand gently down each one and the skin will drop off without trouble.
- Save the Eyes. Do not go from a dark room into a brilliantly lighted one. Try to make the change gradually by lingering for a moment near the open door of the lighted room.
- The Chinese Cue. The cue was introduced into China by the Manchu dynasty. It is said to have been originally suggested to the Manchus by their sense of gratitude to the horse, that animal having played a great part in the Tartar conquests. In short, the "pignat" was a method of establishing a relationship between human beings and horses.
- A Notable House. A brick house erected 100 years ago in Skowhegan, Me., has been in three different towns and two states, though it has never been moved.
- Gold Leaf. While a leaf of gold is so thin that it is impossible to measure its thickness, scales have been made which weigh it accurately. One leaf weighs one-fifth of a grain. It is so light that a breath will blow it away. Held to the light, it is translucent and greenish.
- Thick Skinned. The hide of the hippopotamus in some parts is fully two inches thick.
