BIG CLAY WORKS FOR BEAVERTON

Plant to Cost \$100,000 now Under Way on Oswego Cutoff

BIG INDUSTRY NOW BEING BUILT

Expect to be in Operation by at Least the 1st of July

Victor Randles, one of the incorporators of the Beaverton Clay Manufacturing Company, was in the city Tuesday. His company has purchased 25 acres of clay on the T. J. Allen and A. V. Denny ranches, on the Oswego cut-off, three quarters of a mile out of Beaverton, and construction is now rapidly being pushed on the plant, which is to cost, when completed, \$100,000. It is expected that the plant will be operating by July 1. They are to manufacture white and red brick, building blocks of all kinds, and drain tile of all dimensions. Ten big kilns are to be erected, and it will take an immense amount of lumber to construct all their dry kilns and their houses.

Mr. Randles and his partners have had a great deal of experience in clay work, and they say there is a great field in Washington County alone for drain tile, as soon as farmers are educated up to the value of under draining.
