HAINES' FRANCHISE IS CONTINUED

Council Will Take it up at the June Meeting

PROMISES A REGULAR DAY SERVICE

City Fathers Against Noisy Fourth in Business District

The city council met last night and listened to E. W. Haines and his proposition to string wires to this city and install an electric light and power service. Mr. Haines said he was in no hurry to force the matter, and stated he was perfectly willing that the council should take all the time it wanted before granting the franchise. The matter will therefore be taken up by the council at its June meeting. Mr. Haines said he would install a day service for lights and power in the city if the franchise were granted, no matter what the patronage might be. He intends to run his wires to the brickyard beyond Oak Park, and says he has two large dynamoes, in case one should go to the bad.

Mr. Lytle, interested in the local power plant, said he would just as soon the council would act that same evening, one way or the other, so he would know where he was at. The matter, however, was laid over.

The council expressed itself as to a sane Fourth of July especially in the business district, and asked the city attorney to see if an ordinance covered this section of this city, and if not to prepare one.

It was ordered that \$600 be transferred from the general fund to the water and light fund that some outstanding warrants under that head might be paid off.
