

NOW ROCKING STRETCH NORTHWEST OF TOWN

Teams Commenced Hauling For Macadam Last of Week

GOOD WEATHER 2 WEEKS TO FINISH

With Bad Weather May Take 30 Days to Complete

Wolf Brothers, of Cornelius, commenced hauling rock for the macadamizing of the road leading from the Northwestern portion of the town, the last of the week, and with fair weather and a good rock supply from the quarry it will take about two weeks to finish to the first bridge, a mile from the center of the town. Hauling started at the bridge, and by Monday night the foundation had been laid to the top of the hill.

With bad weather and shortage of rock supply it may take 30 days to wind up the work. As soon as this is done the teams will begin to haul for the strip between the trestle on Jackson Bottom, and the bridge across the Tualatin river.

CHARLIE LEE LOSES HOP HOUSE AND HOPS

Burned Last Thursday Night and Cause of Fire is Mystery

TWENTY FIVE THOUSAND LBS. BURNED

Some Insurance on the Product, but Not Enough to Cover

One of the hop houses at the former Salzgeber yards, this side of West Union, burned last Thursday night and hop house and about 25,000 pounds of dried hops were lost. There had been no fire in or around the building for about a week, and the origin of the blaze is a mystery.

The fire caught in the night and had a big headway before discovery. As these buildings are generally as dry as tinder the fire always spreads rapidly. There was some insurance on the product—probably enough to repay the picking and drying. Charlie Lee, who owned the hops, is a progressive Chinese. He still has another hophouse full of the harvest. The loss is a severe one to him, as the yard was not a heavy producer this season, and his rental has been very high.

Perry Ellis, of this side of Sylvan, was up to the city Monday. He says that in a well, 40 feet in depth, on his sister's place, on the old Pointer claim, there is every evidence of an oil deposit. The well was unused for several months, and this Fall, when it was cleaned out, the surface of the water was covered with a crude oil, which contains paraffine. A good oil strike would mean something, as close as it is to Portland.

Persons living in the country and wishing to take the Daily and Sunday Oregonian for one year can, by paying a year in advance, get the Argus and an Oregonian map, or chart, for the one price. This offer will not last long—so get in your order soon.

Brice Wilson, who lived at Timber, above Buxton, for many years, where he owned timber lands and manufactured decoy ducks for sale, bought a \$7,000 home in Irvington, last week. The home is of the colonial type and Mr. Wilson and family have taken possession. Just how Brice will get along without taking a daily look at the big timber is a matter of much conjecture to his friends out in Washington County.

For sale: Good hop bales, Krebs' pattern; 50 hop baskets, and some hop sacks in good repair. Will sell at a bargain.—Ralph Imbrie, Hillsboro, Route 1, West Union.

The Hillsboro Fair visitors who were camping at Salem John Sewell and family; J. A. Imbrie and family; F. J. Williams and family, all returned the last and first of the week, and are to a unit that they had a fine time. Friday the rain spoiled the outdoor enjoyment, but on Saturday, they say, no rain fell at the capital city.

For rent: 355 acre ranch in Lane County, 140 acres cleared and in cultivation. Good hay, stock and grain ranch. Inquire of Geo. Schulmerich, at Commercial Bank.

As the fellow from Arkansas would say, "Hogs is hogs." Chas. Meacham brought in a porker Monday, for Emmott Bros., that he sold for thirteen cents on foot. As the porker weighed about 250 pounds he brought the modest sum of \$32.50.

Store building, dwelling house and barn, for rent, at Laurel. One of the best trading points in Washington county for general merchandise store.—E. C. Mulley, Laurel, Oregon. 28-30.

H. Taylor Hill, of near Banks, was in town Monday. Taylor says that a few years ago they needed a railroad up in his section, and that now they are getting so thick that a fellow has to jump sideways to keep away from the "keers."

Will trade my nearly new piano for a good horse, or horse and buggy. Address by letter A. B., care of the Argus.

E. Wenstrom, of Scholls, and who is in the sawmill business, was in Monday, enroute to Portland.

Thos. W. Sain, of Gaston, was down to the city the first of the week.

O. Westcott, of Shady Brook, was transacting business in town Monday afternoon.

Geo. Bantz Sr., of Shady Brook, was in the city Monday afternoon.

Albert Friday, of near Banks, was down to the city Monday.

ONION CROP WILL BE ABOUT 350 CARS

Associated Onion Growers of Oregon Make Annual Estimate

SIXTY ACRES GROWN FOR SEED

Washington County will Produce Over 250 Carloads

The Oregon Onion Growers Association, A. J. Fanno, Portland, president, and J. N. Miller, of Hillsboro secretary, have made up their annual onion production estimate, and they figure that the Oregon output this year, for sale will be 303 cars. They figure that 348 cars is the harvest, but that 303 cars only will enter the market, as the balance will enter the seed world. Sixty acres were contracted for the seed supply, as California and Puget Sound both get their seed from Oregon.

This year's crop is of excellent quality, and the dry weather has caused a fine coloring. The sixes are good in all sections. The price so far, is \$1 per hundredweight, f. o. b., Sherwood, which section produces over one-third of the Oregon crop.

The 1910 acreage and estimated production, as given out by the association:

THERE IS A RIGHT AND A WRONG WAY TO DO EVERYTHING

You might as well have your jewelry repaired properly when the cost is no greater.

A good many think that a simple job like putting a new pin in a brooch can only be done in one way, and that it makes no difference where the work is done.

Next time you have some jewelry to repair bring it here and you will see the difference. I take just as much pains with a ten-cent cent job as I would with one costing as many dollars.

Every article of jewelry left here to repair is polished and refinished like new, and you will be surprised at the transformation of some of the old pieces of jewelry that you are about to throw away.
