PROHIS SEND OUT NASTY CIRCULAR

Attack County Clerk Bailey, Who Makes Spirited Reply

THE ONLY BEAR THAT HAS DANCED

Probably Made Mr. Bailey a Good Many Votes Here and There

In some way or other A. C. Alexander never filed his acceptance to the nomination of clerk, so that he was not on the ballot. There is no doubt but it was not filed through ignorance of the statute—but when it was discovered, Mr. Alexander sought to have published in the Hillsboro papers insinuations that Clerk Bailey was at fault. The Argus refused his advertisement on the grounds that he must support the allegation. The Independent also refused its publication. Alexander and his Prohi friends then secured some circulars, printed in some shop that did not comply with the corrupt practices act in showing where it was published, and sent them broadcast. Clerk Bailey came out and denied the entire charge, and showed by their own statements that they were at fault themselves. The letter signed by Clerk Bailey was a work of art, and that the incident made many votes go without saying.

The attempt of the Prohis to saddle the thing entirely on Mr. Jim Kerr was not very worthy of the gentlemen in charge of the campaign.

We are now better than ever prepared to supply our customers. We have a good supply of flooring, rustic, ship-lap and finishing lumber and can furnish good house bills on short notice. We also have a good stock of all kinds of common lumber. We have in stock all sizes of tile from 3 to 16 inch that are first quality; also brick and building blocks. Try our building blocks for your fruit or potato house, or foundation for your buildings—better and cheaper than brick or concrete. Parties wanting orders delivered will do well to place them early, while the roads are good, and our teams are not too busy. In the past we find that it is the failing of many people to wait till the roads are almost impassable, and then place their orders for delivery, at a cost of twice what it can be done for now. So don't forget, this year, while our stock is complete. Grover & Rowell Company.

A lady was up from Beaverton, Monday, asking the sheriff's office to look after one Cyrus Taylor, aged 14, and who was sent to live in the country, some weeks ago, by the Boys' & Girls' Aid Society. The P. R. & N. work engine, No. 1355, Al. The tender jumped and turned over. Had the engine tipped over into the cut more than likely both engineer and fireman would have been scalded—perhaps severely. Another engine came out from Portland late that evening, bringing a derrier with it, and the tender was righted and the engine brought in Tuesday evening.

Peter Nelson, of East Portland, and who for years lived a few miles east of this city, was out Saturday. Pete says that is the country for sport and that he expects to make a trip over there annually as long as he keeps his "gun-eye" and trigger-finger.

BAD WEATHER NOW COMING ON OREGON

Splendid Fall, However, and Much Fall Sown Grain is in

LARGEST ACREAGE FOR MANY YEARS

Conservative Estimate Puts Acreage at One-Third of an Increase

Rains broke over Washington County the last of the week after one of the most delightful Fall seasons ever witnessed in this section. The fine weather gave a great impetus to Fall work, and conservative estimates place the acreage of Fall sown grain one-third more than for any season for many years. Grain is above the ground in many places and will attain splendid growth. Rarely have we sufficient cold weather to freeze out wheat if the growth is large enough to give the roots any protection, and the farmers are now looking forward to the next season's crop with hopeful expectations.

The onion harvest is all secure and all Fall work is done—and if there isn't prosperity in Washington county you'll not find it anywhere in the world.
