MASS MEETING HELD FOR PIANO FACTORY

Fifty Citizens Confer Together in the Court House

APPOINT COMMITTEE TO INVESTIGATE

To Report and Again Meet on Tomorrow Night, March 17th

About fifty citizens convened in the court house Friday evening to talk over the proposition of financing the proposed Coops piano manufacturing plant. Hon. W. H. Wehrung was elected to the chair, and J. B. Wilkes was chosen secretary. Short talks were indulged in by N. H. Alexander, W. H. Wehrung, Mr. Coops and J. P. Tamiesie. After considerable discussion a committee of L. F. Emmott, H. V. Gates, Dr. J. P. Tamiesie, J. B. Trullinger and Geo. R. Bagley was appointed to go to Tacoma and investigate the plant there, and report back to the next mass meeting, which was voted to be held tomorrow evening, Friday, March 17.

The committee was instructed to go to Tacoma on Tuesday, and Dr. Tamiesie, J. W. Connell and C. H. Jacobs offered to contribute to the expenses of the body making the trip. It was also voted that a delegate could appoint a person in his place, providing he found it impossible to make the trip. This committee is to report on the standing and financial backing of the Coops proposition.

The discussion waxed warm at times and pyrotechnics were indulged in several instances. The committee is expected to have a report in full tomorrow night.

Ralph Imbrie was out from Portland, the last of the week.

Mrs. M. L. King and daughter, of near Gaston, were in the city Friday.

Mrs. A. G. Jenkins, of Beaverton, was an Argus caller, the last of the week.

Mrs. A. H. Spraner, of Beaverton, was in the city Friday, and called on the Argus.

J. H. Haase, of South Tualatin, was over to the city Monday. J. H. is getting into the dairy business on the increase all the time.

Anyone interested in instructions on hand China painting may inquire of Mrs. H. Bagley, who will inform instructor.

Houseowner Hewitt has moved the old Tongue building, which since in the sixties has graced the corner opposite the city hall, to the Jacob Whitmore lot, on Baseline Street.

Jacob Dahinden, of above Banks, was down to the county seat the first of the week, paying taxes. While down he made a business trip to Portland.

Albert Friday and wife, of near Banks, were in the city Monday. Mr. Friday was down to pay his tax. Friday says the roads were fine, and that Banks is booming right along.

Judge J. U. Campbell came out Monday morning on circuit court business, making the trip with Mr. and Mrs. C. E. Runyon, in their car. Mr. Runyon says they had a fine road all the way out excepting on the Walker hill, where the frost gave them a little trouble.

The house of Swan Nelson, near Beaverton, was entered Sunday, during his absence, and a watch worth \$25 was stolen. The officers are watching for the culprit and they expect soon to land him, and put a stop to the numerous little burglaries which have been perpetrated in that section.

John J. Weik has placed the Imbrie frame in position on Third Street, south of the proposed new American National bank building. The big frame will be occupied by Blacksmith Kerr, on the ground floor—of course, they couldn't very well take the equines upstairs—and the upper story will be rented to housekeepers.

According to Front street reports the first of the week there were but 25 cars of Oregon onions yet unsold. Seventeen cars were sold last week, and the sales were as follows, by car lots: Beaverton, 2 cars; Sherwood, 8 cars; Cedar Mill, 3 cars; Scholls, 1 car; Middleton, 3 cars. These were sold to Seattle, Spokane and San Francisco.

Agent S. Cooper, of the Oregon Electric, has adopted a very pleasing and (to the traveller) very appreciative plan. He has been all over the Great Northern and North Pacific roads and is familiar with all the scenery, and to all who purchase tickets of him enroute East, he gives a written description of the territory through which the passenger will travel, giving the details of lakes, mountain streams, old abandoned mines, Indian villages. Its just like having a person sitting beside you telling you which side to look out of the car, and what you may next expect.

See the fine stock of "back combs," at Libby, the jeweler's place. No back numbers—all new and fresh goods, direct from the factory; and Gee Whiz!—see the fine clocks and jewelry of all kinds, which he is almost giving away.

J. D. C. Thomas, special agent of the U. S. General Land Office, is now engaged in investigating and taking testimony in government cases against ten home-steaders in the Gettysburg, S. D., country. It appears, then, that Oregon and Washington are not the only states where the homestead laws are laughed at. Mr. Thomas is a Hillsboro boy, and is advancing rapidly in the service of the interior department.

Single Comb Anconas, Exhibition and Utility. My birds won, 1st cock—1 cockerel, 1 hen, 1st, 2nd and 3rd pullet and 1st pen, at the recent poultry show in Hillsboro. Yours for the best.—H. E. Cameron. 51-10

Saturday was a big day in Hillsboro, and the streets were crowded as though in a town of ten thousand. The most of the people were bent on taxpaying, and this trick did not appear to break them, as there was big trade at all the stores. It was a nice orderly crowd and not a "stewed" party was seen on the streets.

When the kitchen is properly equipped there is sunshine in the house. Come in and see our Champion and Charter Oak ranges. They are the best.—Emrick & Corwin

The business section of the city is already improved by the new poles and wires installed by the electric light and telephone companies, and by the time the old poles are all down the streets will have an appearance that will greet the eye with harmony.

We have just received a dandy lot of new rose bushes, and also a fine assortment of trees, berry vines, grapes, etc., for immediate planting. A first class stock.—Lorton's Greenhouse.

N. P. Oakerman, of below Beaverton, was in town Friday, and says that he is surprised at the way things are moving up here. The old building moved from the corner of Third and Main was built 34 years ago, when Mr. Oakerman first came to this section.

Now is the time to plant rose bushes and other out-door plants and shrubs. Have a fine variety of roses and many other plants.—Mrs. Agnes Campbell, Seventh and Fir street. 50tf

Franklin Thatcher, of Thatcher, was down to the city Saturday, and called on the Argus. His road district is going to expect another five mill tax on rock roads this Summer—and Thatcher is to have paved streets, as well as Hillsboro.

Given away, an enlarged photo, suitable for framing, of the kind you order, with each cash order amounting to \$4.00 or more, at Johnson's Studio, Main St., Hillsboro.

R. F. Peters, of Portland, and who was born in Hillsboro, and went through the measles, whooping cough, and other incident maladies of childhood out this way, was out Friday. R. F. was pleased to see his old home town forging ahead.

Thoroughbred White Leghorn eggs for sale. Setting, \$1.00; two for \$1.75. Call at Bethany. R. Emil Stark, Portland, Oregon. 1-6

George Armentrout, of Forest Grove, and who has brought down many a fine venison in his day, was an Argus caller, Friday. George says he wants one more good hunt in the hills, and he expects to have it this year.

William Ridgely, of Forest Grove, and who is past his three-score-and-ten, was down to the city bright and early Monday morning, and called in on the Argus.

I. H. Maxwell, of above Mountaineale, was down to the city Friday afternoon.

MAN AND FAMILY CUT SIXTY CARS

Turn Out Shingles for Twenty Years in Buxton Hills

MANY THOUSAND DOLLARS WORTH

Would Load Two Trains of Thirty Freight Cars

Fred Greener, of below Rood bridge, has sold his shingle mill, above Buxton, to L. N. Tompkins, of this city. The mill is located on the Greener place, above Buxton, and for over 20 years Mr. Greener and his sons have turned out the product that sheds the Oregon mist. For years and years they cut shingles by hands—in other words, turned out the "shaved" shingle. By this method they turned out 4,000 M., at an average price of \$2.00 per thousand, which netted them \$8,000. They finally were forced to install a shingle mill, and since installation they have turned out 8,000 M., which has also brought them \$2 per thousand. This makes a sum of \$16,000, and with those cut by hand total the neat little sum of \$24,000 received for shingle cutting. And still, Fred looks as hearty as a young bridegroom and can still tell a good anecdote.

The entire product would fill sixty freight cars, and would make two train loads of thirty cars each.
