Harvest is here—and Washington County will have another of its good crops. Traveling men from all over the state say that Washington County has them all beaten when it comes to yield.

Again the rock road work is under way in Washington County, and if the people want good roads it will be well for them to vote special taxes—and get them. Waiting for bond issues, and a popular vote for such conveniences will mean delay. Keep up the good work, with a few miles each year, and it will not be long until we shall have decent thoroughfares.

Nearly all great legislation is a compromise between conflicting opinion, and the idealist rarely gets what he wishes. The reciprocity measure, passed by a majority of the democrats, with a minority of republicans, and having the sanction of a republican president, is more or less a compromise—but it is the best that can be accomplished at present. It is a sign of National cohesion, and bids a brighter day in American economics. It is but a question of time until the people will come into their own—and it takes but a great national election to point the way. The election of a democratic house of representatives last Fall was the only channel through which a Canadian reciprocity bill could pass. Every argument by the ultra-protectionists was used to kill the measure, but it finally passed both House and Senate, and becomes law. There are Americans good and true, with every hope for a better country, who for years have earnestly fought for such a measure, but it ever has been blocked by the special interests.

J. A. MADDING

J. A. Madding died at his home two miles West of Hillsboro, July 26, 1911. Mr. Madding had been in ill health for several years. He was born in Cedar County, Missouri, June 26, 1845, and was married to Lucinda Moore in 1846. They came to Oregon in 1898, and first settled on the Columbia River. The next year they moved to Hillsboro. The widow and the following children survive: John Madding, of Hillsboro; Mrs. Mary Hannah, and Mrs. Melissa Berry, of Estacada. The funeral takes place tomorrow, at 1:30, from the house, and burial will be in the Odd Fellows' new cemetery.

A. E. Peat, who bought the Varley place a couple of years ago, has sold the nine acre orchard on the tract to Earl Sanderson, of Portland, for \$4,500. This is at the rate of \$500 per acre—probably the highest price paid for apple land in Washington County, as far out from the county seat. The orchard is a young one, and will soon bear heavily, and the price paid is but the forerunner of orchard values in this district. Within a few years it is doubtful if \$1,000 per acre would get the property.

H. W. Scott, of Forest Grove, was in the city Tuesday, and says that the forest fires above Gaston are as yet confined to the burnt districts, and that no merchantable timber has been destroyed. The Blodgett Co. and Hammond-Winton Timber Co. have from 50 to 75 men up in the district, keeping the fire under control, and every effort is being made to keep the flames from spreading to valuable timber.

Yesterday, while trying to stop a team, which was starting to run away with a binder, Robert Jenne, working on the Schlottman place, near Elmonica, sustained a serious puncture of one of his thighs, and severe internal injuries. While turning out for noon one of the horses slipped his bridle, and started to run away, causing the accident. Dr. Tammiesie attended the injured man.

Councilman Boscow, chairman of one of the city council committees, has Mr. Reese, business manager for City Engineer Kelsay working on a plan for a public fountain. It will most likely be located at the intersection of the two principal business streets.

SWEENEY COMPANY BUYS ELEVEN ACRES

Secure Tract Close to Milne Mill, West of P. R. & N. for Quarters

WILL BUILD A LARGE REPAIR CAMP

Lumber Already Ordered for Construction of Buildings

J. W. Sweeney, of the Sweeney & Blumauer Construction Co., has arranged for the purchase of the J. W. Shute tract of about 11 acres, north of the Southern Pacific track, and west of the Pacific Railway & Navigation Co.'s line, to the westward of the Milne mill, and has ordered lumber for building sheds and stables, and repair shops for the construction outfit.

Mr. Sweeney will have possession in a short time, and will bring to Hillsboro his teams and construction outfit, for the winter, and workmen will begin to put the big outfit into shape as soon as it is brought in from the mountains. The grading is practically completed on the Tillamook line, and Sweeney picked out Hillsboro as one of the best places to make a permanent headquarters for his outfit.

The price paid is in the neighborhood of \$500 per acre, and the deal was effected through N. H. Alexander, of the Imbrie Company.

KINTON PICNIC

The Kinton Sunday School picnic was a great success and many strangers were in attendance to swell the big crowd of local people. There was a short program in the forenoon, opened by an invocation by Rev. Conklin. The Kinton band furnished a musical program, and in the afternoon, young and old participated in the sports and games. The winners of the various events were:

Harold Gates, Boys' race; Hazel Danford, Girls' race; Emery VanKleeck, Young men's race; Ruth Cadwell, Young ladies' race; Emery VanKleeck and William Anderson, Three-legged race; Mrs. H. L. Flint, Lemon race; Clarence Snider, potato race; Harry Richards Sr., fat man's and sack races. The Kinton Cubs defeated the Cooper Mountain Wildcats in a five inning ball game, by a score of 8 to 3. The feature of the game was the pitching of Fred VanKleeck, who struck out 10 of the 15 men at bat.
