Forest Grove Music Store

THE BAZAAR K. N. STAEHR, Prop.
Forest Grove, Ore.

The oldest and most reliable place in Washington county to buy musical instruments from. Why? Because we understand the business. When a watchmaker, a groceryman or a furniture dealer all at once decided to handle pianos or any other musical instruments they have something to learn, and the experience may be very expensive to them as well as to their customers. If a dealer does not know

how to buy right, he can not sell right. If he does not know a good instrument from a bad one his customer is liable to get the worst of the bargain. We sell pianos from \$175.00 and up and give our customers the benefit of our experience. In no case do we allow our salesmen or representatives to misrepresent anything checks or piano certificates the country is flooded with. Our prices in pianos are from \$50.00 to \$100.00 less than Portland prices owing to our expenses are so much smaller. On organs and sewing machines, of which we only handle the standard makes, our prices range from \$15.00 to \$40.00 less. We handle Victor and Edison's talking machines and records. We have the largest line of sheet music in the state outside of Portland.

Mail orders for same promptly attended to. String instruments and strings of all kinds. Sewing machine needles for any machine made. Send us the name of your machine and enclose 25 cents in stamps, and we will mail you one dozen needles to fit your machines.

Grafted Walnut Trees

As I have made a careful study of the Walnut Industry in California, Oregon and Washington for the last six years and have great confidence in the future of the industry, especially in the Willamette Valley, we are planting 250 acres of our own.

As we are growing and grafting the trees for this tract to insure reliability and uniformity we decided to graft some for sale of the same quality. In offering these trees to the public we believe we are offering the very best that can be produced at any price—Vrooman Franquettes grafted on Royal Hybrids and California Black Root.

Washington County has a bigger area of land suitable for walnut culture than most any other county in the valley, yet very few first-class trees of the late-blooming varieties that are adapted to our climatic conditions are being planted.

Order early, as our supply has never been equal to the demand.

SAVING TIME by TELEPHONE

When a man feels the necessity of being in two places at the same time, he goes to the nearest telephone and sends his voice.

It is not exactly the same thing, but when a man talks hundred of miles in opposite directions from the same Bell Telephone, it is about as good.

In the daily use of the telephone a man travels all over town by wire in a few minutes. It is just as easy to travel all over the state and other states by means of the universal Long Distance Bell System.
