JNO. HAZELWOOD KILLED BY ELECTRIC AT MULLOY

Struck by Salem Limited at 9:55 and Instantly Killed

DEAFNESS CAUSE OF FATALITY

Dead Man was Resident of Damascus, Clackamas County

John Hazelwood, of Damascus, Clackamas County, was struck by an Oregon Electric train at Mulloy Station, in the southeast end of the county, last Thursday morning, at 9:55, and instantly killed. There were three witnesses to the tragedy. J. D. Thornbrue and son, Harry, were on a load of wood not over 100 feet from the place, and saw the car strike Hazelwood. They stated to the coroner's jury that the car must have been running fifty miles an hour, and that the motorman repeatedly sounded the whistle. Hazelwood threw up his hands when the car was within ten feet of him, and was then unable to get off the track. The dead man was extremely deaf, according to the evidence of some of his children.

The train which struck Hazelwood was the Salem limited, which makes but three or four stops between Portland and the capitol, and was Salem-bound. O. T. Tenney, the ticket agent at Mulloy, says that the train gave ample warning to Hazelwood.

Coroner E. C. Brown went to Mulloy and impaneled the following jury: Wm. Beckstead, A. B. Mulloy, John Roberts, A. Hartman, and Clarence and Jas. McConnell. A. B. Mulloy was made foreman, and they brought in the following verdict: "We, the jury in the above entitled case, after hearing the testimony of the sworn witnesses, examining the surroundings, and inspecting the body, do find that John Hazelwood came to his death at Mulloy, Washington County, Oregon, on this 31st day of August, 1911, at 10 o'clock a. m., and find the cause of death to have been accidental—struck by the Oregon Electric limited, going south to Salem, while going past Mulloy station."

The Groner & Rowell Co. have a large stock of drain tile, from 3 to 14 inch; also building blocks and brick. It will pay you to place your orders with us, as we burn our tile to a better color than our competitors, as our wood only costs us a trifle. We also have a good stock of rough and dressed lumber, which we invite the public to inspect, before purchasing elsewhere. Our flooring is made from red fir timber and will wear much better than flooring made from the soft yellow fir timber. 51f

Funny how a story will become current, even though there is nothing to it. The last of the week it was whispered and halloed all over town that there had been discovered two dead canines in the new city well. This started by some one remarking that the water tasted bad; the next man said it tasted like a dead thing "lived" in the well; the next man said that he had heard that there was something dead in the well; it then followed with a carom to the cushion, and was repeated to the effect that a dead canine had been found in the water supply, and then came the final growth, that two dead ones had been found—and there was panic by water users. And all this because some soda had been put in the filter. Nothing larger than a gnat could get into the water supply—but it is remarkably ludicrous how things grow when they get started.

P. prize last year, and also was awarded the prize for the most artistic display. Can we do it again? You bet!

GALBREATH FENCE IS AGAIN BUILT

Enclosure Torn Down at Tualatin Erected During Night

HUSBAND AND WIFE UNDER BONDS

County Will Claim Roadway by Right of Adverse Possession

The end is not yet in the famous Galbreath fence episode at Tualatin. It will be remembered that the fence built by Mrs. Janie McE. Galbreath in front of her place near Tualatin, and which is claimed to be in the established county road, was torn down one day last week by Supervisor Casteel, after a charge of shot had been fired out of the upstairs window of the residence, and after Samuel Galbreath had been arrested and given bail to keep the peace. The obstruction was taken down while Galbreath was enroute to the county seat, and during the absence of Mrs. Galbreath. Later in the week the fence was again built.

Mrs. Galbreath came to Hillsboro Friday, and was placed under \$2,500 bonds, and returned to Tualatin determined to maintain the fence if there is any law that will sustain her.

The authorities as yet have nothing but circumstantial evidence to fasten the shooting on Mrs. Galbreath. Inasmuch as no one was struck by any shot no great damage was inflicted, except the throwing of a big scare into the workmen who were tearing down the fence. Mrs. Galbreath is under bond to appear before the next session of the grand jury.
