LONG & McKINNEY

From all appearances Hillsboro is to some more paving this year. Residence streets are agitating hard surface, and some of the outlying districts are talking of putting down a macadam. Every little helps.

The reason for gloom among the big machine men in Oregon has been located. No longer can the cuckoo press, Republican or Democratic, yell their heads off about "the first gun is to be fired in June, and Oregon is on trial." We now vote in November.

Oregon bettered itself when a tax commission was voted, and the initiative legislation has forced this condition. A few years ago the big transportation companies paid fifty per cent. less taxes than their holdings warranted. Today, thanks to progressive government, the big fellows are paying a just portion of taxation. A time was when the big companies were in politics, and were busy electing U. S. Senators, but today it is different. Is there any reason why the people do not want a return to old political ideals? Certain, there is, and present conditions warrant that reason.

Mrs. F. Glascoe returned Tuesday, from a visit at Clark, Wash.

Wm. Ridgely, the Forest Grove veteran, was down to the city the other day, paying his tithe-ing.

Robt. Simpson, of Buxton, and Austin Purdin, of Portland, were in town this morning. Purdin went on out to Banks.

Dr. Tamiesie contemplates adding another story over the bakery and garage, in the near future, on Third Street.

Emil Crop, Mountaindale, S E Graf, Phillips, and A Kaufman, of Beaverton, were in the city today.

Janey McE. Galbreath waived examination, and gave bonds to appear before the grand jury to answer the charge of obstructing the highway.

I. P. Dorsey, of Portland, is in the bastile awaiting the outcome of a charge of defrauding a landlord. Geo. M. Hunter, of North Plains, is the complainant. Judge Smith will hear the case.

Mrs. Sarah Laughlin, mention of whose death at Carlton was made in last week's issue, was a daughter of Jas. Sappington, who died in the early day on the Freeman place. She was a relative of County Treasurer Sappington.

Jas. A. Coos, of South Tualatin, is to be tried on a charge of larceny, one Chas. Stringfellow claiming the defendant sold a team and other property and failed to turn over the proceeds. The defense claims that authority was given to dispose of the property. Judge Smith will hear the case later.

No new filings for nominations have been made with Clerk Bailey since the following: Rodell Matteson, Gaston, County Commissioner; John R. Bailey, Buxton, County Commissioner; Geo. McGee, Surveyor, and E. L. Perkins, Recorder. The county commissioner billet seems to be in the running, John McClaran being the first to file.

The Peoples' Store Co., with capital stock of $75,000 has been incorporated with E. C. Allen, W. J. Cook and E. L. Clark as incorporators, and the company will conduct the former Allen & Wright store, The company wants more floor space, and will put in groceries. Directors are the incorporators and O. C. Notice Of Street Improvements

Notice is hereby given that the City Council of Hillsboro, Washington county, Oregon, did, on February 13, 1912, pass a resolution declaring its intention to improve Washington Street, from the east line of North Range Street to the West line of Second Street, all in the City of Hillsboro, Oregon, in the following manner, to-wit: By bringing the surface of the same to the proper subgrade, paving the roadway with Bitulithic pavement, laying and constructing bitulithic headers, constructing concrete curb, combination concrete curb and gutter and aprons to approaches, concrete corner stones at driveways; and by doing such other improvement work as will make a proper an appropriate improvement.

Said improvement to be made in accordance with the charter and ordinances of the City of Hillsboro, Oregon, but if the owners of seventy five per cent. of the property to be affected by this improvement, and upon which assessments will be levied to pay for the same, shall, by petition presented to the City Council before the adoption of an ordinance declaring the same, agree upon a different kind of an improvement, the estimates of the costs thereof, and the specifications of the same, shall be made upon the basis of the character of improvement so selected, and the council reserves the right to designate a different kind of pavement if the property owners shall so direct, as above specified.

That written objections and remonstrances to such proposed improvement may be made and filed with the Recorder of said city at any time before 7 o'clock P. M. on March 5, 1912.

This notice is published by order of the City Council of Hillsboro, Oregon.

GRAVITY SYSTEM

When asked about the projected gravity system for Hillsboro, Fred R. Waters, of the Washington-Oregon Corporation, who was in town yesterday, stated that matters were progressing very satisfactorily looking toward an early installation of a gravity water plant. The field engineers have concluded their physicial examination of the supply and are finishing their report to the company. A brief summary already on file with the company will enable it to reach a definite conclusion in the near future as to the availablity of the projected supply. That the city of Hillsboro will have a new gravity system is assured.

While waiting the final determination of the questions involved in the gravity system, the Washington-Oregon Corporation is preparing to immediately install an additional well which will increase the general efficiency of the present system by about fifty per cent. The new proposed shaft will mean an expenditure of about $4,000, and will raise the present quantity, as shown by tests, to about 160,000 gallons for daily use.

This well, in connection with the other wells in operation, will amply serve to tide over the time pending installation of a gravity system.

Referring to the comparative statement of the Hillsboro plant with the Dallas gravity system, Mr. Waters said: "We, of course, do not intend entering into a newspaper controversy because of this statement printed in one of your local papers, but we feel that the city might suffer from that rather calamitous advertisement, coming as it does just when every effort is being made to induce new home-seekers to locate here and on the eve of a second electric system by the Southern Pacific Company.

While the Company is prepared to admit that the city has somewhat outgrown its present system, although more than twice the capacity under former ownership, yet the truth is that the city has always had sufficient water for daily consumption. If the city only uses 48 gallons per capita, the company cannot be blamed for not having a higher consumption; it gives all that is required. As to fire pressure, it is well known that the present system is capable of 100 pounds in case of emergency. To publically advertise Hillsboro as being without fire pressure is a blow at public policy, doing an injury to both the company and Hillsboro.

When you compare the general efficiency of the local battery of wells at Hillsboro with the efficiency shown at Dallas with a modern gravity system, the home plant gives a superior showing of general results to consumers. That statement proved nothing worth while, but might injure the interests of the city.

However, we are going ahead with the installation of our new well, and will start our gravity system just as soon as possible. While a gravity system means an expenditure of nearly $150,000, yet we have confidence in the future of Hillsboro, and are glad to lend a hand in the general upbuilding of the city."
