Will Bellinger and Ed. Ward, of Forest Grove, were down to the county seat, Monday afternoon.

Adrian W. Dant, with the Roe & Apperson auto people, Portland, was in town Monday, with one of his machines. A. W. is well known in the Reedville section, where in olden days he knew every cow-path in the township.

For Sale—Registered Jersey bull calf, out of a fine daughter of the champion milk and butter cow, who won the silver cup and prize for four years at the Oregon and Washington State Fairs. Dam of sire made 2 1/2 lbs of butter in one day, and 500 lbs in one year. Price \$35.—E. E. Watts, Hillsboro, Or., R. 2, near Farmington.

Funny how things happen—a man who went through all kinds of stunts in getting out of handcuffs etc., at the Crescent, a few days ago, is now in jail in San Francisco, charged with larceny. When the Frisco "dumbies" were put on the artist he did not get out of them at all, and the cell lock was altogether to many for him. Peculiar how these little accomplishments wither when a man gets up against the majesty of the law.

Closing out sale of plants.—Will sell at sacrifice to those wishing to fix up their yards—and they will do well to call and see what we have—house plants, roses, shrubbery, lilies, peonies, bleeding hearts, and other things too numerous to mention. Cabbage and tomato plants in their season. We also have some fine cemetery plants and shrubbery.

—Mrs. Agnes Campbell, Corner of Seventh & Fir Streets, Phone City 153.

Bitulithic Pavement Satisfactory

Officials and Property owners alike recommend it

There is no more satisfactory way of judging of the merits of any particular kind of pavement than to compare the amount laid year after year in various cities where the pavement is subjected to all kinds of conditions. The varying climatic conditions of the United States and Canada, from El Paso, Texas, on the South, to Edmonton, Alberta, on the North, and from Atlantic City on the East to Portland, Ore., on the West, afford a severe test.

Officials and citizens, alike, in over 250 cities of the United States and Canada recommend Bitulithic pavement, where this class of pavement has been in use and the number of yards laid and contracted for has increased at a phenomenal rate during a period of ten years. Cambridge, Mass., an extreme city, shows an increase of approximately 110,000 yards since the year 1901, and Portland, Oregon, an extreme western city shows an increase of 1,500,000 sq. yards in a like period.

Throughout the United States the progression of a city can almost be determined by the use of Bitulithic pavement. Information gathered from city officials and unprejudiced business men in the various cities concerning Bitulithic pavement, entitled it to first consideration because of its many admirable qualities.
