The school directors have hired the following corps of teachers for the term to begin this fall: B. W. Barnes and C. Heavy rain fell Tuesday night and early Wednesday morning, and the greatest precipitation was in the Scholls-Sherwood section, where the moisture did much benefit to onions and vegetables. Up on the bench lands of the Tualatin plains the rains caught some clover hay in the swath, some in the windrow, and some shocked up, and there will be some damage—but nothing serious if the weather clears. That the moisture did much good to grain of all kinds goes without saying.

COUNTY BOARD GRANTS FRANCHISE FOR WATER

Washington-Oregon Corporation Gets Privilege to Use Roads

COURT HOUSE TO GET CONCESSIONS

Awarded 50,000 Gallons Water Monthly After Jan. 1, 1913

The Washington-Oregon Corporation was unanimously granted a franchise to lay their pipes from Sain Creek to Hillsboro, in and across county roads, the grant being given at a session of the board yesterday. The company's first offer was for a maximum of thirty-five thousand gallons, but the board held for fifty thousand, and this was accepted on the part of the water people.

The county highways will be utilized to a considerable extent, and private right of way purchased where it is necessary, only. There were many farmers—the most of their houses are along the main roads—asking that the grant be given the company, the same as telephone companies, as there will be no damage to the thoroughfares.

The company yesterday started its survey for the pipe line between Hillsboro and Forest Grove, and laying pipe will start in a very short time, and Gales Creek water will be the first to fill the mains. And then comes Sain Creek, later.

District Attorney E. B. Tongue was home Monday, after several days of arduous duties prosecuting Pinder, accused of murdering Mrs. Wehrman and son, near Seapooose, last Falls. The jury disagreed, six to six and the deliberative body was discharged. The case will have another trial. Tongue made a hard fight to convict Pinder, but circumstantial evidence is a hard peg, sometimes, on which to hang a verdict of guilty. As a rule you, yourself, would rather some other man would do it. It is reported at St. Helens that all jurors were voting "guilty," but could not agree upon the degree of the crime.

Just received—a new car of 15 per cent. stump powder; 20 per cent. stump powder; 30 per cent. rock powder. Our prices are right. Give us a call.—The Turner Mercantile Co. Banks. 12-5

Speaking of the age of the world—the workmen at the court house have chiseled out perfectly formed clams from the solid rock from the Boos Quarry. Some of this stone is taken at an elevation of several hundred feet, and were blasted out over 100 feet in the wall, showing that it has taken several million years for the cooling process and accumulation of alluvial deposit. This is also evidence that at one time the rich Tualatin Valley was nothing but a large lake, several hundred feet in depth.

Do not forget that Dave Corwin will do your plumbing and give you estimates. Satisfactory work always, and prices that can't be given by others. Chenette Row, Second Street.
