A letter from Dr. Tamesie, written while they were at sea, on the Canarder, Carmania, was received at the Argus office, Monday evening. They had a very rough voyage, and the Doctor says that they suffered from mal de mer, for two days, but just as they were about to sight land they were again able to relish the menu. They go to the Children's Hospital in London, first, and then go to Paris and Vienna. Dr. Tamesie sends regards to his Hillsboro friends.

To Merchants

The Argus has a bona fide annual circulation of 2,000 in Washington county alone. These papers go to the heads of families in nearly all instances. A circular letter to these people from a business house would cost \$20 in postage alone. Aside from this expense, there would be the expense of printing and the labor of addressing.

Advertising in the Argus will get inside of this.
