

BUICK

When You Pay What A Thing Is Worth You Get The Worth Of Your Money
This is the experience of many Buick Owners in Washington County.

A good buy means more than getting something at a cheap price. After all it's nothing more than getting your money's worth.

Quality means cost, but everybody knows the better the quality the greater the durability, and it is durability that finally decides the net cost of a purchase.

We have experts continually on guard in our shops to see that you get your money's worth. They inspect ever nut, every screw, every single part that goes into Buick manufacture. If the quality is off grade, they scrap it. If the workmanship is off a hair's breadth, they scrap it. It costs us thousands of dollars a year in salaries alone, to say nothing of the loss represented in material discarded. That's the money we spend for the Buick O. K.

The famous Buick overhead valve motor is guaranteed to have more power and more speed than any other type of motor on the market. It will pull stronger on low grade gasoline than any other type of motor ever built and the fuel consumption is less.

CHRISTIAN CONFERENCE

The Executive Committee of the National Reform Association, which is arranging for the Second World's Christian Citizenship Conference, Portland, June 29 to July 6, 1913, reports a rapidly developing interest in this world assembly. Already the interest is such as to make necessary the holding of simultaneous sectional conferences the forenoon of each day. Ten such conferences have to date been decided upon, on the following themes: The Family, (including marriage and divorce) Mormonism, Social Purity, Intemperance, Prison Reform, Capital and Labor, Immigration and Emigration, Peace, The Sabbath, Christianity and Public Education. At least two, possibly three or four, such conferences are to be held each day. Governor West is to be in charge of the conference on Prison Reform, Dr. Thos. Addison, of San Francisco, in charge of that on Capital and Labor; Dr. T. W. Cochran, of Philadelphia, on Public Education; Dr. S. A. Stewart, Seattle, on Social Purity; Bishop Charles Scadding, Portland, on Intemperance. Others, specially qualified, have been chosen to have in charge the other conferences.

Addresses on subjects of public interest with which government is constantly dealing will be given each afternoon and evening in the auditorium by eminent speakers from this and other counties. Those listed to speak from abroad are Dr. Robert J. (Catch-my-Pal) Patterson, Belfast, Ireland; Dr. John Lamond of Edinburgh, Scotland; Dr. Charles Merle d'Aubigne, of Paris, France; Prof. Theophil Mann, of Germany; Prof. F. De Rougemont, of Switzerland; Prof. Signor Davide Bosio, of Rome, Italy; Dr. Armenag Haigazian, of Turkey; Ng Poon Chew, of China; and Drs. K. Ibuka and S. Motoda, of Tokio, Japan. Among the Canadian speakers are Dr. T. Albert Moore and Editor James A. McDonald, of Toronto. Heading the list of speakers in this country are President Woodrow Wilson and Ex. United States Vice President Charles W. Fairbanks. A total of fifty or more speakers are listed for addresses. Christian, moral reform and patriotic organizations generally are appointing delegates to attend the conference. Thousands have already been appointed and the number is being constantly increased.

Railway companies generally are granting concessions in fare to all who desire to attend the conference. Self-explanatory literature may be had upon application to the National Reform Association, 603-604 Publication Building, Pittsburgh, Pa.

HERMAN PRAHL HOME

Herman Prahl arrived home from Germany, Saturday evening. Mr. Prahl went to the Fatherland to see his mother, aged 80 years, and had been there but a few days when he received the cablegram announcing the death of his wife. The body was held until his return, and the funeral took place Tuesday.

He found his mother hale and hearty notwithstanding her great age.

The old corrugated iron shack just south of the Bank Annex Building, on Second, caught fire from some unknown cause Sunday morning, about two o'clock. The department soon had the structure out of danger. The Wiley saloon was in chancery for a short time, but a stream of water soon had it cooled. Some one probably carelessly threw a match into the old building, earlier in the evening.

Dr. Holman, of Willamette University, will preach the Baccalaureate sermon next Sunday, for the commencement exercises of the Hillsboro High School. The graduating exercises will take place at the new school building, on the evening of May 29. Prof. Wallace, of McMinnville, will be in attendance and make the principal address. There will be eight graduates.

The Garden Tracts excursion was another boost for Hillsboro, Sunday, about 400 making the trip. The day was neither very good nor very bad, but the rain subsided early in the morning, so the big crowd was not dampened. All expressed themselves favorably over the visit.

M. M. Mead, the Tillamook county contractor, was in town Monday, arriving in on the P. R. & N. from the Mead ranch, near Buxton. He says that A. A. Mead changed for the better, Sunday, and there is a chance of his recovery from his attack of pneumonia.

Farmers report a great prospect for a hay crop this year. While the backward spring has been rather hard on farmers, yet the cool and damp weather has been just what Fall sown grain and grass wanted.

John Klink, of Virginia Place, was an Argus caller Monday afternoon.

Henry Ford has built more automobiles than any man who has ever lived. He knows how. That's the reason he can build "The Universal Car at the wonderfully low price. Better get yours now—if you want a Ford this season.

Our great factory has produced nearly a quarter of a million Model T's. Prices: Runabout, \$525; Touring Car, \$690; Town Car \$800—f. o. b. Detroit with all equipment. For particulars get "Ford Times"—an interesting automobile magazine. It's free—from Detroit factory. Wilke's Auto & Garage Co., Hillsboro, Oregon.

Scythes and Hooks
Reliability is one of the first things we look for when we buy scythes and hooks. The steel of which the blades are made is tested by us, next we see that the handles have that hefty feel that makes the sythe or hook a good tool. You are sure of them being good when you buy here.
