

REMINGTON-UMC METALLIC CARTRIDGES
Made by the Foremost Ammunition Concern in America

The largest name in the ammunition and firearms world today is Remington-Union. Whether your arm is a Remington or any other standard make, whatever its calibre and the load you need, you want Remington-Union metallics—because they are necessarily stamped with the same name as your firearm, but because they give more accurate results.

The Company has been making ammunition for fifty years. We produce cartridges for every standard make of arm, and every Remington-Union cartridge is tested in the arm for which it is made.

There is a dealer in this community who can give you Remington-Union Metallics for your rifle or pistol. Find him. Ask him for them. Look for the Red Bull Mark on every box of metallics and shot shells you buy.

Out of town people should not let the Summer pass without securing some good photos of themselves and their loved ones. Perhaps the most convenient place for residents of Washington County to get first-class pictures at a moderate price is at Johnson's Studio, Hillsboro, Ore. If you can't come to Johnson's, call him up and tell your wants, and he will bring his studio to you, with only the added cost of making the trip. 1-tf
