

LO WORKER MARIS WRITES BOYS & GIRLS

Then How to Get Busy and Win Prizes
ON LED ALL STATES IN 1912
Fair Will Give Substantial School Prizes This Year

Last week I reminded you of near approach of the State and your Home Fair. I you have gotten busy with gardens, your bird houses, tables, your poultry, your pig, your baking, etc. If do not have a copy of the Fair Price list, call on your Fair Price list, call on your School Superintendent, or to State Superintendent, Churchill, Salem, Oregon. He will send you one. Read prize list through carefully to see what you can do best, if have not already done so, select the classes you are to compete in. Do not over the special prizes in the part of the book. You will some very attractive prizes them, including the Shetland pig for the best livestock, a cream separator for best two pounds of butter, a collier for the best fat an incubator for the largest best poultry exhibit, etc. If you are going to enter the being content it is time you get your pig on fat feed, are two valuable prizes of in the pig feeding contest, the boys who enter this contest can gain valuable experience, making good money out their pigs. With pigs selling a hundred, you are almost a retailer's class, if you own three pigs. There are nice prizes for the best and litter of pigs, the first a hundred dollar Jersey. We hope to see a large exhibit of pigs and poultry at the Fair this year, as well as local fairs. In keeping of your pig feeding, and having a statement of the as required in the rules, will get an idea of keeping it, and of what it costs to be a pound of pork. The contest is open to girls as well as boys; to look out, boys, the girls are good pig feed. At some of the local school in Oregon last year the boys with their fat was "fit for fat," for the boys sometimes with their butter and jelly. The boys and girls led state in the Union with school fairs last year, and expecting them to keep record this year. I am are too patriotic to discuss.

The county court will doubtless buy two big auto trucks next year, for the purpose of rock hauling. Two big trucks would haul a big lot of rock in a day, and there would be a big saving. As a matter of fact, the cost of rock haul this year would have paid for a machine and the help to get the crushed material from the railways to the roads. The court is doing some figuring on the situation and that it would be a good business stroke goes without saying.

MOOSE MAY BUILD ON SECOND & WASHINGTON
Trustees Ordered to Accept Offer of Owners of 66 Ft. Frontage
TWO STORY & BASEMENT PROJECTED
Bonds Are to be floated by Finance Committee for Structure

The order of Moose has appointed a finance committee to float bonds for the purchase of the corner lot, formerly occupied by the Commercial Hotel, and for the construction of a building, the lower portion for rental and the upper story for a lodge room with club room accommodations. The building committee has not yet formulated plans, and the matter of the size of the structure is yet undetermined. It is not improbable, however, that a big basement will be built, to afford room for a big natatorium, as well as a heating plant for the building.
Many Moose have signified a willingness to take bonds sufficient to pay for the real estate, and if this is accomplished there will be no trouble in floating the building bonds.
This is one of the best corners in the city, and has a 66 foot frontage. Over nine thousand dollars is the price asked by the owners, and it is said that the value is held at \$150 per front foot. The Moose are more than determined to build, and every effort will be made to finance the affair, and have a home inside of six months, or a year, at the most.
The order, now numbering over 300, met in the Crescent Theatre, Tuesday night, and arrangements have been made to occupy the K. of P. Hall for a term of months.

A traveling man who personally knew Harry K. Thaw, the escaped prisoner from Matteawan, N. Y., was in town Monday. He said to an Argus reporter that he hoped Thaw would get away and never be captured. He said that while Thaw was in the asylum, and that they were waging a big fight to keep him in the asylum for life. "I'm glad he made his escape and I'll wager he will go to Europe, and on the continent will settle down to right living. He may be insane, and may do some devilment, but I do not believe it."

He says that he and Mrs. McNutt are enjoying themselves immensely, and that the hot sea baths are doing them a world of good. Tramps about the country to sawmills, dairies and ranches have brought back his appetite, and he is eating like a schoolboy. The Col. says that the settlers there find ready sale for thousands of chickens at good prices, through the vacation season.

"When the women get to voting, and have all the rights of men, I don't see where they are going to get a foothold for all-moony, unless it is a matter of the care of minor children. And if the man can show that he is as capable as she is in their care, where is the court going to draw the line?" said a Portland attorney, last week. This equal suffrage business is getting the women in some deep water. Some invalid husband may some of these days get a decree from a wife who has a good business head, and wouldn't that reverse things a little?
