Over fifty per cent. of Hillsboro's financial support in trade comes from the German and Swiss settlements. This is not an exaggeration. They are good citizens, and are the backbone of our county. They are trust-worthy as a rule, industrious, and you can depend on them to attend to their own business. They have good homes, and they like their glass of beer. They naturally resent an attack on their personal liberties. They teach their children that true temperance is in being temperate. If you value your town as a trade center you will not vote prohibition. Again, as a matter of fact, the business backbone of the city is not for a Puritan town. We are just getting out of our swaddling clothes. Owners of property in the city should not be subjected to freak legisla-tion. It will be time enough to talk of prohibition when the state can vote as a unit—but with Portland wet at our doors Hillsboro will be foolish to vote dry and send hundreds of our best citizens to Portland to trade. This will mean loss in property values; loss in trade, and an invita-tion to the German home

The funeral will be held over un-till Monday next provided the sun can arrive from the East.
