Says Some of His Friends Have Been Paying Him a Compliment HAS NO IDEA OF ENTERING THE LISTS

Hon. W. H. Hollis, state senator, of Forest Grove, was seen by an Argus representative, yesterday, and the Senator declared that he had no idea of entering the lists as a primary candidate on the republican, or any other ticket, for the position of governor of the state of Oregon.

"I have never had any idea of becoming a candidate. While I appreciate the fact that to be governor would be a great honor, I have never given the subject serious or even passing consideration. Some of my friends have simply paid me a compliment without discussing the subject with me. I have represented Washington County as joint-senator, and have endeavored to give them my best services, but higher honors I have not sought."

WORKMEN PUTTING IN OVERHEAD AT HILLTOWN

Poles Delivered and Being Placed in Position on Sixth Street

A crew of overhead men started to work Monday, setting poles on Sixth Street, and in a short time the steel poles will be set on Main, and overhead wiring will follow. It is expected that in side of two weeks the cars will be running on Main Street, and when this is accomplished Hillsboro will have a better trolley service than many of the suburban districts of Portland.

The new cars are running smoothly, and as soon as the Hillsboro business district is tied into the service it is expected that a change will be made in the schedule. Conductor Cline, for years conductor on the steam run between Sheridan, McMinnville and Portland, makes the Forest Grove-Hillsboro-Portland run, as well as the early and late McMinnville-Portland runs. He says it keeps him busy, and gives him plenty of hours, but he is still young and hearty enough to stand a lot of work.

The Main street office building is about completed, and will be ready for Agent Shinnaberger as soon as the overhead is completed. 42-6

CHRISTENER & HIRSCHHEY ARE FOUND NOT GUILTY

Celebrated Prosecution for Offending Unwholesome Meat on Block DOCTORS DISAGREE ON SUBJECT Case of Christener & Hirschey Appeared From J. P. Court Conviction

The case of State versus Anton Christener and S. Hirschey, butchers of North Plains, had the gallery in circuit court, Tuesday and yesterday, the jury bringing in a verdict of not guilty.

This was the celebrated case wherein J. D. Mickle, state food and dairy officer, made reprisal on a carcass of a cow at North Plains, contending that the animal was about to increase the bovine population. The calf in question, which was about ten days or two younger than a day old, was brought into Judge Smith's court, and at the trial, which was by jury, the dealers were found guilty. They appealed, and Bagley & Hare defended the present case in court. Mr. Bagley called several physicians who testified that the meat of the cow, under such physiological condition, would not be unwholesome, while the state, represented by Tongue & Tongue, called physicians who testified that it would be unwholesome. The question of percentages of water in the flesh, and in the blood, was dwelt upon to a nicety, and while witnesses admitted that they would not care to eat the meat knowing of the conditions, would not admit that they would want to eat it if they did not.

One physician, however, testified that he might relish the meat. The calf had been preserved and was on exhibition, but it did not occupy a prominent position in the court room.

The defense claimed there was no exterior symptomatology of calving, and that they did not know the condition at the time of butchering, and alleged, anyway, that the meat was not unwholesome.

Attorney Bagley made a spirited and able defense and overlooked no point or technicality. The case has caused widespread interest.

They engaged in dairying, built a co-operative creamery and are far out along the highway to success.
