COUNTY WORK GOING ALONG AT GOOD RATE

Washington Steel Span Now Complete and Road Open to Traffic

IS EIGHTY FEET IN LENGTH

Work is Progressing Finely— Rex-Tigard Re-dressed

County road and bridge work has been progressing finely the past few days, and by the end of August many miles of macadam road and several hundred feet of new bridges will have been completed.

The Rex-Tigard road has been re-dressed with rock, much to the gratification of travel, and the Farmington steel span is now open to travel. The span is 80 feet long, with steel piers, filled with cement. This is a road of great deal of travel, and the bridge is a needed improvement.

The big wooden bridge near Nyberg place, Tualatin, has been completed by Contractor Franz, and is now open to travel.

Grant Mann, in district 37, has finished 2800 feet on the road from Honzak's place; and 100 feet on the Sustaber place— good, substantial macadam.

The Newton stretch of rock road on the poor farm corner to the creek bridge, will be finished inside of 3 weeks, and the road will then go over to the city.

Supervisor Heesacker started work in the Verboort district today, and John Herb started work Tuesday on the same section.

District 29, above Mountain, started work today. Supervisor Alfred Pieren, of Helvetia, laying off until a 4500 pound axle can be repaired.

Cedar Mill has completed its stretch of rock road—a trifle over a mile, and the Taylor stretch will be completed inside of two weeks.

E. L. Brown, of Laurel, will complete the season's work near Laurel, inside of the coming week.

The county court will do more macadam on the Withycombe lane and the residents of that section hope that arrangements can be made to have the road built far enough to cover the place that was almost a closed highway during the winter, on account of the depth of the mud.

Silas Christofferson, a son-in-law of the Bissners, of South Tualatin, now has the American record for altitude aviation. He recently flew over Mt. Whitney, in California. Christofferson will soon pass through Portland, enroute for the Seattle country.

Mrs. Percy Long and sons, Creagh and Carroll, were Lebanon visitors Saturday and Sunday, making the trip in their machine.

Glen Payne, of the Pharmacy, returned Friday evening from a week at Newport.

Chas. Norris, of Cornelius, was in the city Friday. Mr. Norris is an oldtime Umatilla County man, but he says that he likes the Willamette Valley better than the dry region. He reports that Umatilla has a fine wheat crop this year—but says that he is very much surprised at the grain yield down this way. He had always supposed that the Eastern Oregon country had the edge on 40-bushel per acre wheat, but finds that Washington County can equal that production when it has to make a record.

For sale or trade for small place—80-acre coast farm; 75 river bottom; 12 acres in grass; the balance woods pasture. One mile from Siletz Bay and ocean beach; one mile from cheese factory; road and water to place; also 5 head registered Holstein cattle and other stock; have sick wife and must get away from the coast. Come and make me offer. Liberal terms.—James Farris, Taft, Lincoln Co., Ore.

Oregon merchants will be entertained by the jobbers and manufacturers of Portland, Aug. 10-15 during Buyers' Week when the buyers of merchandise and supplies from all over the Pacific Northwest will be gathered in Portland to make their annual purchases. Banquets, luncheons, receptions, a smoker, and automobile rides about the city are on the program. The underlying purpose of Buyers' Week is to develop the buy-at-home spirit, not only as it applies to Portland, but to every community of the Pacific Northwest.

To arouse greater interest in their plans, the officials of the land show to be held in Portland next Fall will offer a first prize of \$200 and a second prize of \$75 for the best special exhibit by counties. By arrangements with the state fair officials, exhibits from Douglas, Lane, Polk, Washington, Marion, Multnomah, Tillamook, Clackamas, Umatilla, Wasco, Walla, Wheeler and Morrow counties have already been arranged for.

State Labor Commissioner Hoff, of Salem, received notice last week of the following injuries received by persons employed in Washington County—Roy Benefield, Manning, working in a sawmill, finger crushed; J. Calvich, working on railroad construction at Enright, above the P. R. & N. summit, leg broken; A. Kirkoran, Tualatin, working on the section, chest bruised.

J. T. Fletcher, the pioneer school master and surveyor, was down from Forest Grove, Saturday morning. Notwithstanding his 74 years of age the Argus will wager that Mr. Fletcher can outwalk any man of 45 in the county, for he can ramble along like a schoolboy.

The Grand Marca is the most wholesome "two for a quarter" smoke on market—made in Oregon, by E. Schiller. When you indulge in a good smoke buy a Grand Marca.

Constable McQuillan returned from California this week, with Roy Mullin, charged with issuing four checks for \$25 each, and for which he had no funds in the bank.

Dr. C. J. Smith, the democratic candidate for governor, is not asleep these days, and evidently intends keeping the trial warm in support of his candidacy. He left Portland, Monday morning, at five o'clock, in his auto, and was at the home of Chas. Norris, of Cornelius, for breakfast. By eight o'clock he was back in Hillsboro with Mr. Norris, and in company with Commissioner C. A. Hanley, made a tour of the North of the county. He tells the Argus that he intends making an auto tour of every part of the state, beginning in early August.

John Vanderwal thinks he has the record for fast work in payment of insurance loss. The Hayes Building loss of \$500, caused by fire near the school building, was adjusted Thursday, went to Portland that evening, and the check came back Saturday. This is record work in adjustment.

John Wunderlich, of Banks, was down to the county seat Monday, on business. While here he talked up the matter of the proposed series of five games of baseball between Hillsboro and Banks. John says the teams are nicely balanced and the quintet of games should draw crowds that will be record breakers.

E. B. Tongue returned from St. Helens the last of the week, after getting Mrs. Hugh Lieferman a \$7,500 verdict for the death of her husband, who was killed on a logging train operated by the St. Helens Milling Company. The jury was out but a few minutes when a verdict was reached.

MILK PRODUCTION RAPIDLY GROWING

More Shipped to Condensers and More Shipped to Portland

THIS TO BE THE BANNER DAIRY YEAR

While Milk Flow is Now Decreasing, Receipts Were Much Larger

This promises to be the banner year for milk production in Washington County, notwithstanding the receipts at the two condensers here and at Forest Grove are at the present time decreasing somewhat, owing to the dry spell. Shortage in delivery is always noted in July and August, but the wagons have hauled more of the product so far than any preceding year.

This speaks well for the dairy business of the county, which has been holding first place in the state, leading all other counties.

The shipments of cream and milk to Portland have also increased, showing that the herds are gradually swelling in volume.

The Hillsboro condenser has all Spring been crowded to capacity, and the plant is contemplating installing new machinery, and if the increase keeps up by next year the company will have to enlarge its buildings and capacity, or else refuse milk offerings. The condensers have been of immense value to the county. Not only have farmers been placed in a position to get monthly paychecks, but dairying has rejuvenated the soil so that 40 bushels of Winter wheat per acre is no longer an uncommon thing—reaching the old times in the fifties and sixties, before the land had been "grained" to death.

W. F. Simms, of near Reedville, was ordered committed to the asylum Monday, upon examination by Dr. W. D. Wood. Simms is a native of Iowa, and has been in Oregon 15 years. He fell from a rock wagon, one day last week after suffering a stroke of epilepsy. The morning he was examined he threatened to kill his wife, and gave other symptoms of dementia. Simms is only 39 years of age and has never used liquor in any form, but until a year ago was a user of tobacco. He and his wife have no children. Mrs. Simms testified that she feared him, as his temper, since his stroke of last week, has been ungovernable. The guard arrived late Monday afternoon and conveyed the patient to Salem. Simms still thinks he was run over by the wagon from which he fell while hauling rock near Newton and this cannot be put out of his mind. He is partially paralyzed, and strangles easily.

J. J. Johnson, living on the Tualatin river, between Sherwood and Tigard, was arrested Saturday by Sheriff Reeves, who searched his house for a lot of things taken from the house of a Mr. Kane, who lives just across the river from Johnson. Kane, who has a tea and coffee route in Portland, came home and found his couch, his saw, his windows and doors and other articles gone, and procured a search warrant. Johnson admits the theft, and went before Smith, Monday morning. He was bound over in the sum of \$600 to answer to the July term of circuit court.

I have just bought a fine lot of diamonds of a jeweler who was compelled to raise money for his creditors, at a considerable discount from the market price. His loss will be your gain if you buy now, for I shall close them out for the same reduction that I bought them for.

Remember that diamonds are steadily advancing in value and are as good an investment as real estate. Come in and see them.
