Stallion Registration Board, State of Oregon.
License Certificate of Pure Bred Stallion No. 1379.

Dated at Corvallis, Oregon, March 10, 1913.

The pedigree of the stallion Partisan, No. 42619 (60008) registered in the studbook of The American Percheron Horse Breeders and Importers Association. Owned by Joe Otto, of Hillsboro, Washington County, Oregon. Bred by M. Barbe, of Department of Sarthe, France. Described as follows, Black; Star, Pedigree; Brutus (34739) sire; Suzon (23041) Dam; Germanicus (7825) Sire of Sire; Lisette (25008) Dam of Sire; Sultan (1400) Sire of Dam; Suzon (5774) Dam of Dam. Bred, Percheron; Foaled in the year 1903, on May 8, and has been examined by the Stallion Registration Board of Oregon, and it is hereby certified that the said stallion is of Pure Breeding, is registered in the studbook that is recognized by the associations named in section nine of an Act of the Legislative Assembly of the State of Oregon providing for the licensing of stallions, etc., filed in the office of the Secretary of State, February 23, 1911, and that the above named stallion has been examined by the veterinarian appointed by the Stallion Registration Board and is hereby reported free from infectious, contagious or transmissible diseases or unsoundness and is hereby licensed to stand for public service in the State of Oregon.

Ermine L. Potter,
Secretary Stallion Registration Board

Note:—This license must be recorded in the office of the Recorder of Conveyances of the County in which such stallion is to be used for public service, and must be renewed March 10, 1914.

FREE CANADIAN HOMESTEADS

Why pay \$50 to be located? We give you full information where the best lands are in Western Canada and British Columbia that are close to railroad and town; name of guide on the ground; full directions to get maps and plats free; how to get homeseekers' tickets; everything you need to know and locate yourself, all for \$3.00. Remit amount by P. O. money order, and we will send you the complete information at once.—The Canadian Homestead Company, 73-6th Street, Portland, Ore. For reference, The Farm Magazine Company, 411 Panama Bldg., Portland, Ore.

Mrs. Verna Woerner, of Portland, whose husband has an office in the Journal Building, has sued Paul Woerner for divorce. They were married in Portland in June, 1910, and Mrs. Woerner says the marriage was ill-advised, as they are not at all compatible. She avers that she is domestic, and wants her husband to come home evenings, but that he constantly remains at his office until after midnight, and then comes home and refuses to talk with her. She wants \$30 per month permanent alimony, and says he is well able to pay it, as he is a professional man, and makes \$250 per month.

Everybody should attend the big lawn social and band concert at Orengo, Thursday evening, July 30, on the beautiful lawn of the Oregon Nursery. Ice cream, cake, lemonade, home-made candy and other refreshments will be served. A big time is assured. Everybody invited.

The McCredie team went South this week, after beating the leaders, Los Angeles, and taking first place away from the Southrons. The Portlanders won five out of the six games, and lost the sixth only on some bad errors by Rogers, Bancroft and Doane. Only for these Hig would have won the game.

John Schechla and family and Mr. and B. Schechla and son, of Tigard, recently motored to the Peter Herman place, near Minter Bridge. They complimented the good roads near Hillsboro, because of no dust, and being oiled.

Now is a good time to have some good photos taken at Johnson's Studio, so come at your earliest convenience and bring your tickets with you, if you happen to have any.

There will be no German Lutheran services in Hillsboro next Sunday, because of the Mission-festival in Sherwood.—E. W. Luecke, pastor.

A fine musical program at the big lawn social, at Orengo, Thursday evening, July 30. Refreshments served. 18-19

Miss Mamie Herman, of near Minter Bridge, visited at Tigard last Tuesday.

SIRE AND SON.

Finer English of English has this carried the "plus" for the soft hat. William Nut of Milwaukee dances and boxes, though he is ninety-four years of age.

Dr. Wickliffe Rose, secretary of the Rockefeller sanitary commission, has started for Egypt, Ceylon and the Malay states on a campaign against the hookworm.

John L. de Saules, who will represent this country as envoy extraordinary and minister plenipotentiary to Uruguay, is a native of Pennsylvania and a Yale graduate who in his college days was noted as an athlete.

Vice Admiral Tsurutaro Matsuo, Japanese inspector general of the reserve who was recently arrested charged with complicity in alleged graft in naval expenses, is fifty years of age and a graduate of the engineers' department of Tokyo university in 1896.

Captain Charles Polack, who recently completed 100 round trips on the Atlantic as a captain, has established a record which is gained by few men of his rank. He is in command of the Kronprinzessin Cecilie of the North German Lloyd line and has been in that company's service since 1886 when he began his sea life as a lad of fifteen.

The Writers.

Jennette Lee, besides being the author of several novels and professor of English literature in Smith college, is the wife of Gerald Stanley Lee, the author.

Sewell Ford, the author, lives in Florida in the winter. In fact, he owns a place down there. Also he owns a summer place in Maine. Between times he plays golf at Hackensack, where he also owns a house.

Professor Karl Florenz, after spending a quarter of a century in Japan, is returning to Germany. He has long been connected with the Imperial university and is one of the recognized authorities on Japan, having written extensively on religious and dramatic subjects. He was created a doctor in Japanese literature fifteen years ago.

Four Reels.

Chicago has about 600 moving picture theaters, with a daily attendance of 500,000 persons.

The moving picture craze has spread almost over the entire world. The Chinese are eager for the pictures.

Motion picture photographers from the United States have proved that it is possible to produce clear films in regions in England where it had been thought impossible because of foggy atmosphere.

In the first year of their existence the British board of film censors dealt with 7,628,913 feet of film, which included 7,488 subjects. Only twenty-two films were entirely rejected as unfit for public exhibition.

A Few Questions.

"Marry a bright woman for success and a pretty woman for happiness," says a Kansas editor. But who wants to go to jail for bigamy, we would like to know?—New Orleans States.

The kaiser has made a rule that diners shall not last longer than forty-five minutes. Why can't this banquet address cursed country have an emperor?—Cleveland Plain Dealer.

Would you rather be the man who spent five years coloring a meerschaum pipe and then lost it or the chap who smoked one brand of cigarettes until he got enough coupons to win a grand piano and then had them stolen?—Washington Herald.

Aviation Notes.

A new type of tailless aeroplane which is meeting with success in France was invented by a British army officer and rejected by his government officials as impractical.

For signaling between aeroplanes there has been invented apparatus for blowing fine black dust from a reservoir by the exhaust from the motor in such a way as to form dots and dashes.

In a French aeroplane factory wings are tested by turning machines upside down and loading them with sand, evenly distributed, until a weight exceeding the pressure the wings must withstand is reached.

Aerial Flights.

A new altitude mark has been set by a German aviator. An aerial Columbus will yet penetrate to distant shores.—Portland Oregonian.

Aviation has cost the life of another British army officer. Military flying is now recognized as the one branch of the service which is on a war footing in time of peace.—New York World.

In the light of the fact that thirty-eight aviators were killed in the first quarter of this year we suggest to Mr. Wright that he work night shifts perfecting his foolproof machine.—St. Louis Republic.

Science Siftings.

In the electric furnace gold boils at 2,400 degrees C. twenty-four times the temperature of boiling water.

A process of hardening steel with compressed air is said to be in successful use by a German firm in cases where only certain parts of the metal require hardening.

Although there are no instruments capable of measuring it, by scientific calculation of the effect it has been estimated that the wind has blown as rapidly as 600 miles an hour.
