Henry Knittel, of Middleton, died at his home, Sunday night, July 26, 1914. He was born in Germany, April 20, 1854, and when a young man came to the United States. He lived at Chicago a number of years, and came West to Oregon in 1888, and settled at Middleton, where he soon started raising hops. Twelve years ago he was wedded to Mrs. Anna Fischer, who survives. The funeral took place Tuesday. Mr. Knittel was highly respected, and had a large circle of friends in that section of Washington county.

It is more than likely that many tanks of oil will be spread on the roads of Washington County, next year, after the first work of Spring is completed. The oil works wonders, even on dirt roads, where they are graded, ditched and nicely rounded.

The Everfresh people are enlarging their plant at Sutherlin, Southern Oregon, and have a fine field for output. The Sutherlin Sun recently had a fine mention of the Hillsboro plant.

Homer Emmott and Ray Emmott and wives and Peter Loring departed this week for a trip to the Siletz and Beaver Creek, and expect to go in as far as Jump-Off Joe.

Be Nice.
On fetching gowns I do not frown,
But have a care, Charlie,
And don't wear such a fetching gown
That you'll fetch the police.
—Cincinnati Enquirer.

Upon slit skirts I never frown—
In fact, I like them, Nettie—
But I don't believe that I'd wear one
If I had your spaghetti.
—Birmingham Age-Herald.

Don't let them kid you so about
Your scanty skirts, Leon.
If you were luckier no doubt
They'd talk of macaroni.
—Indianapolis Star.

On slender folks like you, Marie,
Each fresh and clever youth picks,
But were I you he'd never see
My pipestem or my toothpicks.
—Detroit Free Press.

Was Hard to Convince.
"I don't care much for moving picture shows," said the grouch. "The films they show are too improbable."
"Whaddy ya mean improbable?" asked the boob.
"Why, I saw one last night that showed a daughter helping her mother to wash the dishes," replied the grouch.
—Cincinnati Enquirer.

Modern.
When Enoch Arden, after years
Upon the desert isle,
To find his wife and home again
Tramped many a weary mile
And, stoking in the garden gate
Through twilight shadows gray,
Before the cottage window stood,
He started in dismay.
"I recognize the room," he said,
"The carpet worse for wear,
The cuckoo clock that never went,
The same old rocking chair,
The worsted motto on the wall—
These things I oft have seen—
But that is not my wife, because
That woman's hair is green."
—Life.

Only Complaints.
"I s'pose John is still taking life easy?" said the woman in the train.
"Yes," answered the woman who was carrying a bundle of clothes, "John has only got two regrets in life. One is that he has to wake up and eat, and the other is that he has to give up eatin' to sleep."

THE MOUNT VERNON CREAM CO.

IS PAYING \$1.55 FOR JULY MILK

Testing From 3.7 to 4 Percent

Did the Pacific Coast Condensed Milk Co. (Carnation Condenser) give you a side check of about ten cents per hundred for your June milk? Their Mount Vernon shippers got \$1.35 per hundred pounds for June milk and a side check of 10 cents per hundred extra. Isn't your milk worth as much as the Mount Vernon Dairymen's? If so, demand \$1.45 for June and \$1.55 for July.

Do you want some clean legitimate COMPETITION at Forest Grove or Hillsboro? If you do we would be pleased to start a factory in your territory, providing you will agree to give us a reasonable amount of milk.

We pay all of our patrons the same price, no side checks.

The keen competition of the Mount Vernon Cream Co., at Mount Vernon, has forced the MILK TRUST to betray their Forest Grove, Hillsboro, Monroe, Kent, Chehalis, Everson and Stanwood dairymen by paying these factories 10 cents less per hundred pounds than they do at Mount Vernon.

Think what better treatment and price you would get if the Mount Vernon Cream Co. were buying milk in your territory.

We agree and guarantee that the Mount Vernon Cream Company will pay more for milk for twelve months than any condenser in the state or on the Pacific Coast.

We have recently signed a contract for a \$100,000.00 factory at Ferndale, and are looking for other good locations.

MOUNT VERNON CREAM COMPANY

Read the Law of the State of Wisconsin protecting the Dairymen against Trusts and Illegitimate methods. It is time for the dairymen to have protection in this State in like manner.

"Any person, firm or corporation (Foreign or Domestic) engaged in the business of buying milk, cream or butterfat, for the purpose of manufacturing, that shall intentionally, for the purpose of creating a monopoly, or destroying the business of a competitor in a locality, discriminate between different sections, communities, towns, villages or cities of this state, by buying such commodities at a higher rate in one section, community, town, village or city than is paid for the same commodity by said person, firm or corporation in another section, community town, village or city, after making due allowance for the difference, if any, in the actual cost of transportation from the point of purchase to the locality of manufacture, shall be deemed guilty of unfair discrimination, which is hereby prohibited and is declared unlawful."

The States of Iowa and Minnesota have similar laws to protect the Dairymen.

Senator Chamberlain has taken care of the Columbia and other Pacific Coast waters in the river and harbor bill, but it appears as though the partisans against the administration want to kill off improvements of harbors and streams. Senator Borah, of Idaho, is incidentally trying to cripple Idaho industries along the Snake. Deep water to the sea and an open stream mean much to the intermountain states. But Borah is setting into the standpatter column as rapidly as possible—even losing his dignity.

The European trouble—Austria after the scalp of Serbia—may yet involve continental Europe as well as England. With trouble in John Bull's domain, and with the scrap on across the channel, the Mexican turmoil has shrunk like a burnt boot.

August Tews writes from Nertsarts, and says that he caught 16 large crabs, Tuesday morning, and wound up the day with digging 75 razor clams. He says the weather is fine, and that his head is not whirling from seeing so many toads, but that it did make him dizzy to see George Stevens try to run a rowboat. August reports 55 tents pitched at Happy Camp, and many Hillsboro people on the ground. The other day August says a Studebaker auto came near being washed out to sea, a team being requisitioned just in time to pull it back from the waves. Mr. Tews and family expect to return to this city about the middle of the month.
