TENS OF THOUSANDS OF PEOPLE COMMENCED MONDAY IN EARNEST IN ALL SECTIONS

MONETARY BENEFIT AS WELL AS HEATFUL OUTING

Thousands of people, old and young, started picking hops in Washington County, Monday morning, scores of yards starting their harvest on that date. Harvesting commenced Saturday and Tuesday, and the 1914 crop will soon be housed and marketed. The usual price for one dollar per hundred is being paid everywhere, and the net for the product does not lag, even though a war in Europe is confronting the season.

The annual hop harvest means an outpouring of thousands upon thousands of dollars in this section, and it is estimated that 5,000 people are interested in the work. Many go for the heat of the outing, but the monetary benefit is always dominant, as it should be in harvests. It means clothing money; pin money for others; means outing where people do take their work too seriously and it also means school books for youngsters. It teaches children the value of a dollar, gives an idea of economics, and makes them more or less self-reliant and makes an annual outing for the young that is always welcome.

The price of hops appears to be falling off very well this season and 18 and 20 cents have been offered for choice product, not thought that the foreign will mean hindrance to shipping, but this, of course, remains to be seen.

With any kind of decent weather, the harvest should be finished in two weeks or eighteen days.

Christ Wuest, the Second Street tailor, was last Thursday granted a divorce from Mrs. Wuest. A Geo. Fisher, who was a witness, testified that he and Mrs. Wuest had agreed, prior to her marriage with the tailor, that she was to marry him and get his property, and then leave him. Judge McGinn warned the man not to marry Mrs. Wuest after the decree was granted, and had that made a part of the decree. Fisher told this story under hard pressing, as he had told it to others, who were reliable, and who were ready to go on the stand.

Los Angeles Paper Says he is in the Toils of the Law in the South

Gerhard Tholen, who worked at Timber a year or so ago, and who was convicted of cashing a bad check, Frank Jensen, of this city being the complaining witness, is again in the toils of the law—this time down at Los Angeles. Tholen was jailed here last Spring, and when his case came to trial, pleaded guilty. He was fortunate in having his relatives come to his relief, and they promised all kinds of reform. The money welched from Washington County people was repaid in part, and on condition that he lead an upright life Judge Campbell gave him a parole.

Tholen went out into the world and went straight as long as he could—which was several months. He first went to San Diego, where he cashed some bad checks. Drifting to Los Angeles he again went into the bad paper business, and issued two checks on a bank wherein he had no funds.

District Attorney Frederichs issued a warrant for him and he was lodged in jail. He will have his trial in a week's time, and that he will plead guilty goes without saying. If his Oregon record is investigated, young Tholen will get but little leniency, and it looks as though a term in San Quentin is coming to him, and that he will certainly draw his home.

COUNTY SATISFIED ON OIL ROAD EXPERIMENT

Court Thinks of Putting in Appropriation in Annual Budget

WANT TO OIL IN EARLY SPRING

Experiment This Year Shows that Money is Wisely Expended

The experiment of oiling the roads of Washington County this season has satisfied all who know anything about it that it is a factor in road building and the county court is seriously thinking of putting an appropriation in the annual budget. Wherever the dirt roads have been oiled, after grading, the roadbed has been smooth and free from dust, and much less likely to cut up into ratholes. Where the oil has been spread on roads already laid with rock the experiment has more than met expectations, and the wear of the rock has been practically nothing, the bed of the road being in as good a condition as it was before the oil was sprinkled.

Judge Reasoner says that it is economy in every way, and the court feels that the money can be expended in no better way. The time for oiling for the best results is in the Spring, when roads have been graded, and if the dressing is then applied it means a hard, dustless road for the rest of the Summer, and, with proper grading beforehand, a much better road in the Winter, during the wet season.

Heretofore the county has divided the expense of oiling with the districts where it has been applied, and both sides of the transaction appear to be well satisfied with results.
