WHY HOPS DROPPED Prohibition Agitation Responsible, Shown by Big Oregon Hop Grower Business Generally Stagnated by Reason of Fanatical Campaign—Orders Are Few Pending Election Results

The following letter has been received from Mr. C. A. McLaughlin, one of the largest hop growers of the State of Oregon, and who has suffered with others through the present condition of the hop market.

His letter is most instructive at this time and we herewith submit it to you for your consideration.

Yours very truly, HOP GROWERS' & DEALERS' ASSOCIATION OF OREGON. PUBLICITY BUREAU.

Independence, Oregon, Oct. 10, 1914.

Hop Growers' & Dealers' Association, Portland, Oregon.

Gentlemen:— I have been greatly interested in the view held by a few of my neighbor hop farmers on the present price of hops. I have heard a number of them blaming dealers, short sellers, and manufacturers, giving reasons entirely wild and far from the real cause.

I think the Hop Growers' & Dealers' Association should send out a letter to the hop growers showing them the facts in contradiction to the malicious misrepresentations of those directing the campaign for the prohibitionists. They would have us believe that conniving dealers and manufacturers or the war are responsible, thereby hoping to cause discontent among the members of the organization.

As in every other case, the prohibitionists are holding up the "effect" instead of the "cause." I hope you will see the truth after reasoning out present market conditions and resultant prices.

At present, prohibition agitation is being spread in California, Washington, Oregon, Colorado, Idaho, Arizona, Texas, Virginia, Ohio and several other states. In other words the manufacturers in those states cannot be expected to place orders for hops until the prohibition question is settled after elections are held. Manufacturers who also ship into these states cannot be expected to buy hops until the same question is settled, for these states represent 20 to 25 per cent of their market.

From these statements of logical facts, the hop farmer should be able to place the blame where it belongs, on the everlasting agitating prohibition "reformer" whose record has always reflected unrest and a general cheapening of everything everywhere.

The prohibition agitators are responsible for the low price of hops. They agitate in other states, shutting down industrial progress until they have been rejected at the polls. Business in general comes to a standstill before elections. Normal conditions are rendered abnormal. Yet they say prohibition in Oregon will not injure the future of the hop industry.

Misrepresentation, playing upon known sympathies and fanaticism will continue to cause discontent, business unrest, galloping taxes and a ruined Oregon industry, unless the voters arise in their might and crush these "reformers" by voting 333 X No on November 3rd.

Very sincerely, I am, C. A. McLAUGHLIN
