

MAX LEAGUE MEETS AT COURT HOUSE

Resolutions to Encourage Legislature to Economize

STATEMENT AS TO CHANGE

Reasoner Sends in Letter, Figures of Which Give Ideas

The tax league meeting at the court house, Saturday, passed resolutions encouraging the legislature to economize on administration, and praised them for abolishing some of the commissions. Taking up the matter of the proposed judicial legislation, the letter of Judge Reasoner, which follows, gave them some idea of the expense of the old proposed systems. The letter:

Increase in expense to Washington County which would result from the adoption of Senate Bill No. 73. This bill proposes to abolish the County Judge and make him a County Commissioner, and to create a Circuit Judge for this County. It will result in 30 circuit judges for the state where there are but 22 now.

Salary Cost Old System. Judge, 22, at \$4000 each per year, costs state \$88,000.00 Washington County on a basis of \$20,000.00 valuation pays for 1 yr 1,944.80 circuit court was in session 110 days in Washington County during 1914.

Proposed System. Circuit judges, 30, at \$4,000 each per year, \$120,000.00 Wash Co will pay for circuit judge's salary per yr. 2,651.40 10 days session of court which will inevitably result in the year; 306 1,174.25 clerk of ct, rate as above 1,174.25 sheriff, rate as above 915.00

Total \$4,740.65 actual cost of commissioner for 1 year, based on actual cost for yr 1914 882.62 Difference \$3,858.03 The foregoing are the bare figures, but there are other matters to be considered. The court judge's time under the present system is almost entirely occupied in the transaction of county business other than probate and juvenile matters. County business is the main volume of his business, and it exacts his full time at the court house. There must be some head to direct road and bridge building affairs, and be there to attend to large financial losses will accrue if matters are not attended at once. It almost goes without saying that someone will have to devote all his time or on hand to attend to county business. Will it be one of the commissioners, or all of them? The number of days served by commissioners in attendance court at \$3 per day each (most counties \$4) is greatly shortened by the fact that the County Judge keeps track of the facts involved in all transactions, and is then ready for the commissioners so they can dispose of them in a much shorter time. This bill evidently leaves this matter up to the Commissioners. Would the commissioners decide to have one of their number (as they will almost be forced to do) in full time, that man will have to be paid, viz. 305 days at \$3, or \$915 and expenses. Would they not do so, there is a bad chance for their collective to be doubled or tripled, or more.

Three of them at \$3 per day, or \$90 and expenses. So by this process, no one is eliminated, and means provided for a great expense in conducting the probate matter involved. Furthermore, how about the result Court and the Clerk's office? The county clerk or his deputy is required to attend the sessions of the circuit court according to the provisions of this act and to keep a record of the proceedings. He cannot be in two places at once. The new system will undoubtedly result in circuit court being in session every working day, about three times as many days as before which means more expense. Joe Roberto, of Portland, has filed suit in this county against P. Piluso, of near Beaverton, asking for \$5,000 damages, for injuries sustained in May, 1913, while the two were working at the O. W. R. & N. shops. Roberto says that Piluso, assisted by one G. Roberto, (he does not say whether this Roberto is a relative, and the presumption is that he is not) attacked him, and that Roberto held plaintiff's arms behind his back, while Piluso proceeded to belabor him with a club. He was struck on the head and also on another portion of his anatomy, which later on meant a surgical operation, for which he paid \$50. Roberto asks for \$5,000 damages besides his expenditures. Piluso is down in the Beaverton section somewhere. After reading the complaint one is constrained to feel Roberto has a kick coming, if he can prove his case.

TAX MONEY ROLLS IN THE MORNING

County Clerk Luce Attached Court Warrant to Roll Today

OVER 300 INQUIRIES NOW IN

Roll Has Greatest Number of Tracts in History of the County

Tax collection will open tomorrow morning in County Treasurer E. B. Sappington's office with the largest roll in point of numerical strength the county has ever had in its history.

The rolls were turned into the county clerk this morning, and Clerk Luce this afternoon attached the warrant of the county court authorizing the treasurer to proceed with the collection of the tax.

Treasurer E. B. Sappington already has over 300 inquiries from outside parties, wanting to know the amount of their taxes.

He will keep one man busy all the time, answering correspondence, and even at that more help will be needed to keep this feature of collection out of the way. The legislature as yet has done nothing to change the collection laws, and the probability is that collection in the future will not revert back to the sheriff as thought at the first of the session.

GRANGE BODY SAYS SHIPPING SHOULD STOP

Object to the Tubermoth, a California Parasite

ASK GOV. WITHYCOMBE TO ACT

Considered the Pest a Menace to the Oregon Producers

Washington County Pomona Grange, in session at Beaverton, last week, passed the following resolution, self explanatory:

Whereas; the Tubermoth is a most dangerous pest, and is a serious menace to the agricultural interests of any state; and, whereas; many localities in the state of California are badly infected therewith, and through the inefficiency of inspection and the selfish desire of disposing of the potato crops, have been, and doubtless will be, shipped into the state of Oregon, thus jeopardizing the potato industry of our state; and, whereas; inspection is in our opinion inadequate to properly deal with the seriousness of the situation. Now therefore,

Be it resolved by Washington County Pomona Grange, in session at Beaverton, Ore., January 27, 1915, that we request the President of the State Board of Horticulture, acting with the Governor of the State, to prohibit the importation of potatoes from California into this state, until such danger is abated; and, be it further resolved, that a copy of these resolutions be sent to the governor and the president of state board of horticulture, and a copy be furnished the county papers.

A committee, consisting of C. B. Stokes, J. W. Shute and S. B. Lawrence, submitted a resolution, which was carried, asking the defeat of the proposed horticultural law, but asked for the elimination of the "Commissioner-at-large" in the present statute. The resolution was sent to the Senate and House at Salem.
