

## Wonderful Exhibits From All Lands Show the World's Best Progress

From Beginning to End Magnificent Panama-Pacific International Exposition Will Abound With Superb Educational and Entertainment Features.

By HAMILTON WRIGHT.

**T**HIE construction of the vast Panama Pacific International Exposition at San Francisco was 95 per cent completed three months before the opening day, on Feb. 20, 1915. The early installation of thousands of tons of rare and costly exhibits from all parts of the globe and the participation of forty of the world's great courts have assured a celebration that will be unrivaled in its splendor, magnitude, interest and comprehensiveness.

From its opening until its close, on Dec. 4, 1915, the Exposition will abound with original features collected at an expenditure of many millions of dollars. It will present a cross section of human achievement. The Pan-

Francisco in a single day, and far in advance of its opening, the Exposition had created an unprecedented interest throughout the world, and its opening was eagerly awaited.

In keen competitive exhibits there will be presented more than 80,000 single exhibits and groups of related exhibits portraying the results of the world's best efforts in recent years.

This wonderful Exposition, presented at an outlay of more than \$200,000,000, celebrates a contemporaneous achievement, the building of the Panama canal, and all exhibits that are entered for competitive award will be those that have been originated or produced since the great Louisiana Purchase Exposition at St. Louis ten years ago. The possible exception to this rule will be where earlier exhibits are

farce work will, for example, see in the Palace of Mines an exhibit three-fourths of an acre in extent, illustrating the manner in which the largest steel corporation in the world is caring for and plans to still further advance the welfare of its employees. In the Palace of Education they will be interested in a great United States government exhibit.

The great war in no way has diminished the prospect of attendance at the Exposition, and thousands of Americans will for the first time enjoy the educational trip across their native land. After the outbreak of the conflict the number of conventions deciding to meet in San Francisco proportionately increased. One of the most important of the assemblies will be the international engineering

**THE MOTHER OF LINCOLN BEACHEY, FROM THE TOWER OF JEWELS, 435 FEET ABOVE THE EARTH, AT THE PANAMA-PACIFIC INTERNATIONAL EXPOSITION, WATCHES HER SON LOOP HIS ONE THOUSAND LOOP.**

When Lincoln Beachey, a son of San Francisco, on the occasion of his homecoming after breaking all world records on a daredevil loop of 900 loops, performed two entirely new and death defying stunts over the completed palaces of the Panama-Pacific International Exposition. It was his aged mother who for the first time waved him on to fresh achievements. Mrs. Beachey held a pillow of honor, 435 feet up in the air, on the tripod of the wonderfule Tower of Jewels. From this aerie she was able to watch every erratic move of her daredevil son. She died out only once. That was when he broke his figures "1000" against the clouds, high above the two miles of completed exhibit palaces, significant of the height of his one thousandth loop.

same canal is today open and doing business on a far vaster scale than was predicted for it, and the Exposition, which celebrates the opening of the canal, is today revealed as the greatest manifestation of national achievement in American history. Here will be a neutral ground where even nations engaged in warfare will display on a scale never before equaled their progress in the arts, industries and sciences of peace.

Within three months before the opening of the Exposition as many as 2,000 tons of consignments had reached San

Diego to indicate the evolution of the processes of manufacture, for example, a copy of a model of the first cotton gin in connection with the various equipment into which it has evolved.

Many of the displays will be especially adapted to study by the delegates to great national and international congresses and conventions, of which more than 300, embracing almost every phase of human activity, have voted to meet in San Francisco in 1915. Delegates to the congresses interested in social progress and wel-

fare will be particularly interested in which its distinguished chairman, Colonel George W. Goethals, will preside.

The foreign participation will be notable. The nations are not attempting to show everything that they produce, but will lay especial emphasis upon those products in which they excel. In the Danish display, for example, will be shown products of the Royal Danish porcelain factory at Copenhagen. Japan in her exhaustive exhibit will display priceless works of art, loaned by direction of the Imperial household and many of which could not be duplicated. From Italy will be shown historic paintings of the old masters, little never exhibited in America in the originals. From China there have reached San Francisco selections of exhibits collected under the supervision of the governors of the Chinese provinces. Rare silks and satins, carvings, inlay work in the precious metals; exhibits of the transportation methods employed in the old China and the modern methods used in the awakening republic will be shown.

New Zealand will make a marvelous exhibit of its rare woods, of its scenes of its superb scenic charms.

A large number of rare giant tree ferns from New Zealand will be found growing on the Exposition grounds.

The Argentine Republic early set aside a larger sum than any ever appropriated by a foreign nation for representation in an American exposition.

The modern cities of Argentina, the schools, churches, libraries, the great live stock and agricultural interests will be extensively portrayed, and the mutual interests of South America and North America will be emphasized in almost every conceivable manner.

From South Africa will be shown diamond exhibits and methods of extraction.

The magnificent Canadian displays will review not only the widely known agricultural wealth, but will illustrate the scenic charms of the great Dominion, snow clad mountain peaks, of farreaching forest, inland lakes in chains of silver and rushing mountain streams.

**"THE END OF THE TRAIL," PANAMA-PACIFIC INTERNATIONAL EXPOSITION, SAN FRANCISCO, 1915.**

This photograph shows James Earle Fraser's superb piece of statuary, "The End of the Trail," at the Panama-Pacific International Exposition. More than 800 beautiful sculptures are shown at the Exposition, the works of famous sculptors of the day. In addition to the sculptures shown out of doors, thousands of beautiful works of art are presented in the great Palace of Fine Arts.

### FARMERS VS. TOWN

### G. A. R. AND CORPS

The Farmers and Town team bowed at the Bentley alleys the other evening, and the latter won by a lone score. They will play again Saturday night. The

Subscription: \$1.00 per annum.

Issued Every Thursday

—BY—

LONG & MCKINNEY

Jim Hill has revolutionized sea travel between Oregon and the Golden Gate, and this will more likely mean the advent of liners to the Pacific Coast in greater numbers. Hill's new steamers will make the trip from Flavel to San Francisco in 26 hours—an unheard of schedule for Pacific waters. The vessel will leave Flavel at 1:30 in the afternoon and arrive at San Francisco at 3:30. Three meals and one night in a birth and you are there! This beats the present Shasta Limited, on the S. P. by two hours. Wonders will never cease, and with the Panama canal completed there should be some great maritime commerce from the Atlantic to the Pacific.

**HILLSBORO WINS**

The Hillsboro High School basketball team defeated everything scheduled last week, beating the Forest Grove All-Stars 18 to 14, and the Newberg team 29 to 28. The Newberg game was the fastest of any of the season's contests. Beaverton was defeated by the High School seconds, 27 to 20. The Juniors defeated the Bishop Scott Academy team, 50 to 3, and the High School girls first team defeated the second team, 14 to 5, in a preliminary. The Newberg game.
