The legislative session has closed and until things shape themselves it will be hard to determine just what results will be. The Washington County delegation has voted for economy consistently, and if they have made errors it is not yet visible. Later on one can better judge.

Canada is kicking because American lumber is being shipped into Alberta, while Canadian mills are closed—and the American millmen are kicking because trade is not brisk.

JUST LIKE THE LITTLE CHEW OF REAL TOBACCO I ASKED FOR

THE SMALLER THEY ARE THE SWEETER THEY TASTE

THE GOOD JUDGE AND THE FISHERMANS LUCK

THE new chew that everybody likes is "Right-Cut," the Real Tobacco Chew.

Tastes better, lasts longer, satisfies you better. Made of pure, rich, sappy tobacco—seasoned and sweetened just enough.

Take a very small chew—less than one-quarter the old size. It will be more satisfying than a mouthful of ordinary tobacco. Just nibble on it until you find the strength chew that suits you. Tuck it away. Then let it rest. See how easily and evenly the real tobacco taste comes, how it satisfies without grinding, how the tobacco taste comes. That's why it is the Real Tobacco Chew. That's why it costs less in the end.

It is a ready chew, cut fine and short ahead so that you won't have to grind on it with your teeth. Grinding ordinary tobacco makes you spit too much.

The taste of pure, rich tobacco does not need to be covered up with gaudy and horrid. Notice how the salt brings out the rich tobacco taste in "Right-Cut."

One small chew takes the place of two big chews of the old kind.
