

BEER MERCHANT DIES AT CORNELIUS

McNutt, Well Known Citizen, Dead at Advanced Age

REMARKABLE CAREER IN COUNTY

Time Conducted Stage Line Into Vernonia From Cornelius

McNutt, pioneer merchant, veteran of the Civil War, and well known citizen, passed away at his home in Cornelius, Tuesday, March 2, 1915, after an illness covering several years.

When McNutt first came to Cornelius he settled on a small place near the town and started selling merchandise, making excursions to the homes in the farm districts. He soon had a horse and wagon to carry his stock, and later he started a general store at his home, this afterward being moved to Cornelius.

He was prominent as a Knight Pythian, and was one of the charter members of Simonides lodge, Cornelius.

McNutt was born at Springville, Nova Scotia, April 28, 1836. He married Martha Jane Foster, April 17, 1859, six children having been born to the union.

He moved to Minnesota, when a young man, and in August, 1862 enlisted in Company E, Sixth Minnesota Inf. Volunteers.

The funeral took place at two o'clock this afternoon, and a large number of the G. A. R. and relief corps from Hillsboro and Forest Grove, were in attendance.

FOOD AND DAIRY LAW WELL LIKED

Commissioner Mickle Says it Gives Officer a Chance

SAYS BAD PRODUCTS MUST GO

Butter Must not Contain Over 16 Per Cent. Acqua

J. D. Mickle, state dairy and food commissioner, is well pleased with the new dairy and food law enacted by the legislature.

"The old law was a joke," he said. "The new law gives the dairy and food commissioner something to work with in eliminating unsanitary conditions in connection with dairy and food products, and in seeing that impure food-stuffs are not offered for sale."

The new law definitely defines standards of purity for many kinds of food products and in addition gives the dairy and food commissioner authority to prescribe certain rules and regulations, and to adopt standards of quality, purity and strength of articles of food and drink.

Commissioner Mickle said the rules and regulations provided by the federal authorities will probably be adopted, so the federal and state laws may operate in harmony.

"The new law is in line with the position taken by the most advanced states," declared Mr. Mickle. "It will mean much to the people of this state."

It is provided that an article of food shall be deemed to be adulterated within the meaning of the act if any substance has been mixed with it so as to lower or depreciate, or injuriously affect its quality, strength or purity; if any inferior substance has been substituted wholly or in part for it; if it is an imitation or sold under the name of another article; if it consists wholly or in part of the filthy, diseased or decomposed animal or vegetable substance, whether manufactured or not, or in the case of milk, if it is the product of a diseased animal; if it is colored, coated, polished or powdered, whereby a damaged or inferior article is sold for an article of greater value than it really is; if it contains any added substance that is injurious to the health.

Butter will be considered to be adulterated if it contains more than 16 per cent. water, or less than 80 per cent. milk fat. Milk will come under the ban if it has less than 3.2 per cent. butter fat, or more than 88 per cent. water, or less than 8.5 per cent. solids other than butterfat, or milk drawn from cows for 15 days next before and five days after parturition or from cows fed on unwholesome foods.

Commissioner Mickle said the rules and regulations provided by the federal authorities will probably be adopted, so the federal and state laws may operate in harmony.

She claims that he did not leave Seattle until last Thursday morning, and if that is the case he must have started out from Portland very late in the evening. There were no cartridges about the place, and the lad must have picked one up some where. He was playing in the yard when the accident took place.
