Through scientific, up-to-date designing and motor refinements, these cars have power in excess of all requirements. emember, while you are making your inspection or taking your demonstration ride, that these cars are manufactured entirely—except tires, electrical equipment and a few minor items—by Studebaker, in Studebaker plants, and that no plant in the world is better equipped.

Remember also that their prices represent only one profit—the profit of the legitimate manufacturer who has eliminated the parts middleman from his business.

the parts middleman from his business.

A motor car, to the farmer, is an economic pocessity; not a luxury, as to the city man.

It raves his money; it saves his time; it helps him to get higher efficiency out of hisself, his men and his land.

And it when out of his family forever the isolation and loneliness that are the dread of many farmers' wives, and that drive the boys and grist into the cities and towns early in life.

Just as the motor car is a good investment, so the Studebaker stands first in value among motor cars and we will tell you why.

For 65 years Studebaker has studied the farmers needs, as a specialist in farm transportation, and the best way to supply them.

How well we have succeeded you can judge when you know that more than 40 per cent. of Studebaker cars are sold annually to farmers. Studebaker owners have found our care peculiarly free from the necessity of repairs and frequent adjustment; all parts readily accessible and cared for with the least time and effort.
