Late Testimonial: To whom it may concern: I beg to advise that I have taken Chiropractic treatments from the best operators in Portland, Tacoma, and Seattle, but I have yet to meet a Chiropractor who gives as satisfactory adjustments as Dr. McMahon, although one and all did not fail to charge higher rates or much less proficient and specific work. Dr. McMahon's skill has prevented the necessity of a surgical operation in my case.

# Guardian's Sale

**IN THE COUNTY COURT OF THE STATE OF OREGON FOR WASHINGTON COUNTY.**  
Notice is hereby given, that the undersigned, guardian of the estate of Alex Balmrohr, an insane person, pursuant to an order, decree and license of the County Court of the State of Oregon, for Washington County, made and returned on the 10th day of May, 1915, in the above entitled cause, authorizing, licensing and empowering the undersigned to make sale of the real property hereinafter described will on Monday, the 11th day of June, 1915, at the south door of the Court House in the City of Hillsboro, Wash-ington County, Oregon, at the hour of ten o'clock A. M. of said day, sell at public auction to the highest bidder for cash in hand, the following described real property, to-wit:

Situate in the County of Washing-ton and State of Oregon, to-wit: The right to construct and maintain and operate a water ditch and flume (each 6 feet wide) as hereinafter described, along the following center line, to-wit: Beginning at a point 18.33 chains south and 2.99 chains east of the quarter section corner on the north line of Section 7, T. 1 N., R. 4 W., W. 1/2 Mer., said beginning point being the center of the head of the said ditch, as now constructed, running thence along the center of said ditch by the following courses and distances: S. 74 1/2 degrees, E. 2.96 chains; thence S. 85 1/2 degrees, E. 2.59 chains; thence N. 34 degrees, E. 6.19 chains; thence S. 33 degrees, E. 1.24 chains; thence N. 85 1/2 degrees, E. 1.20 chains; thence S. 85 1/2 degrees, E. 1.59 chains; thence N. 72 1/2 degrees, E. 2.46 chains; thence S. 45 minutes, E. 9.25 chains; thence S. 62 1/2 degrees, E. 5.09 chains; thence S. 54 1/2 degrees, E. 3.20 chains to present head of flume; thence along center line of flume S. 75 1/2 degrees, E. 2.95 chains; thence N. 41 1/2 degrees, E. 4.15 chains; thence S. 45 degrees, E. 5.62 chains to a point on the east line of my land distant N. 74 degrees, E. 9.82 chains from a stone set in re-entrant angle on north line of a tract of two acres conveyed to J. F. Allen by deed recorded on page 27 of Book 22, Records of Deeds of Washington County, Oregon.

Also to construct, maintain and use a dam at the head of the above de-scribed head of ditch across the stream commonly known as Her Creek, also to construct, maintain and use stor-age dams above the aforesaid dam on same creek, but not to flood any land higher than the present level of water in said creek, at any west line; also the right to divert all or any portion of the water of said Her Creek through the above described ditch and flume, and also the right to ingress to and egress from said ditch or flume or dam at any time over any premises for the purpose of repairing or building the same, together with the right to use such earth, gravel, or stone from the land adjoining the same, not exceeding 25 feet on either side of said creek, as may be necessary for such purposes, doing as little damage as is possible; sub-ject to reverse, however, the right to construct bridges across said ditch and passageways under said flume, pro-vided they are so constructed as not to damage said ditch or flume.

An equity in the following: A small tract or parcel of land in Sec-tions seven (7) and eight (8), T. 1 N., R. 4 W., beginning at a stone which bears north 40 degrees 30 minutes East of the N. W. Cor. of the line of the Union Church Lot, a white fir 10 inches in diameter bearing S. 1 degree 30 minutes E. 23 links direct of the begin-ning point; thence S. 89 degrees 30 min-utes W. 21.42 degrees E. along W. line of said church lot, 234 chs. to the N. line of James Loving's lot to a stone at the quarter Sec. corner between Sec. 7 and 8, bearing south 21 degrees 30 minutes west about 1.66 chains; thence S. 88 degrees 45 minutes W. on Loving's north line 2.61 chs. to Loving's N. W. corner, set an iron post; thence S. on Loving's W. line 1.40 chs. to Loving's S. corner, approximated N. line of John Hardin's D. L. Claim, set a stone; thence W. on approximated N. line of Hardin's D. L. C., 3.06 chs. set an iron post; thence N. 4 east 3.72 chs. to center of Her Creek, set a stone for witness corner 20 links east of corner which is in center of creek from which a white fir 30 inches in diameter bears N. 46 degrees 30 minutes E. 86 links from said witness corner; thence E. 3.04 chs. set a stone; thence N. 7 degrees 15 minutes E. 1.95 chs. set iron post; thence S. 56 degrees E. 2.52 chs. to the place of beginning, enclosing two (2) acres, in Willamette Meridian.

Also the following pieces of real property situate in said County of Washington and State of Oregon, and described as follows: An undivided half interest in the north half of the north-west quarter and the northwest quarter of the northeast quarter of Section Twelve, Township One North, Range Five West, of Willamette Meridian, containing 120 acres of land. One strip of land seventy-nine (79) rods long and thirty (30) feet, more or less, wide for a roadway, beginning at the Tillamook County Road at the northwest corner of William A. Britton's land and running south past the section cor-ner of Sections six and seven.

Said sale will be subject to confirmation by the County Court of Washington County.  
Dated this May 10, 1915

# Saving a Gunboat.

When the United States gunboat Princeton struck an uncharted sub-merged rock in the harbor at Pago-pago, Samoa, a very unusual engineer-ing feat was employed to save the craft. A pinnacle of the rock which was struck entered the hold of the ship, filling the rent torn in the hull and preventing any progress being made. It was possible to keep the wa-ter out by means of canvas and plank sheathing. Then the projection of rock which led out into the boat was cut from its base and by re-enforcing and cementing made fast so that it plugged the hole it had made. This accomplish-ment the Princeton was able to pro-ceed to drydock for repairs.—Exchange.

# Understanding.

The visitor claimed to be a good pi-anist, with unusual ability in reading music at sight. Seeing a sheet of mu-sic on the piano rack, she sat down and began playing, pounding the keys with little regard for correctness or time. Observing the small daughter of the household watching her earnestly, the would be admired player pressed harder on the loud pedal, lifted her hands higher and ended with a flour-ish.  
Whirling around on the stool, she be-stowed a patronizing smile upon the child, who looked up and naively re-marked, "I can't play that either."—Woman's Home Companion.

# Walking on Slippery Places.

A letter carrier explains why he and the other members of his calling rarely if ever fall when walking on slippery sidewalks and climbing ice coated steps. He says:  
"When passing over slippery places we don't walk erect, but bend forward, taking short steps and never letting one foot get far away from the other. Then, when we step, the foot is put down solidly, all of it at once, on the ground, with no heel and toe movement, which leads to slips and falls. It's not grace-ful, this way of walking, but it's safe, and I can pass any ordinary pedestrian on a slippery day and be in no danger of falling, while he is constantly slip-ping."—New York World.

# Russian or Greek.

Bismarck was in favor of boys learn-ing Russian rather than Greek. "I have quite forgotten my Greek," he told Busch. "I cannot understand why peo-ple take so much trouble with the dead languages. It must be merely because learned men do not wish to lessen the value of what they have themselves so laboriously acquired. The Russian lan-guage is far better than Greek as a dis-ciplina mentis. It might well be intro-duced instead of Greek, for it has a practical value."

# Color Blindness.

It is known that color blind people cannot distinguish colors, but the rea-son for this is not generally known. They cannot distinguish many colors, and most of them usually give the ap-pearance of being gray. The cause lies in the constitution of the retina, which microscopically consists of rods and cones. If a certain part of the cones is wanting the sensation they arouse is also wanting. Even the normal eye has not cones fine enough to detect ultra violet rays and electric rays.

# The House of Lords.

Britain's house of lords has now and has had in times past many nick-names. Some modern Englishmen call it the "chamber of horrors" and the "lethal chamber." When William Pitt "fell upstairs," as Lord Chesterfield put it, and became Earl of Chatham, Chesterfield spoke of it as that "hos-pital of incurables." Chatham himself used to call it "the tapestry," in allu-sion to its usual splendid lifelessness. Disraeli had the same thought in his mind when, shortly after he had be-come Lord Beaconsfield, Lord Aberdeen asked him, "How do you like this place?" "Well, I feel that I am dead," said the new peer, adding, with second thought tact, "but in the Elysian Fields."

# Cool Presence of Mind.

Debtor (to shopgirl)—It's an outrage for your employer to have you present this bill here at the railroad station in the presence of all these people. Tell him I'll attend to the matter as soon as I get home. And now give me a kiss, so the people will think that you are a relative and have come to bid me good-by.—Pilesgade Blatter.
