# Sheriff Reeves, in speaking of the Gardner and Blucher boys breaking from jail, at Asotin, Wash., says that they took out a window weight, and with the aid of a negro, pried out a cement block. The three then tried to make their getaway with a preacher's auto, but the machine wouldn't work. They then took a boat and went down the river a couple of miles, beached it, and by night traveled to Lewiston. The sheriff notified all avenues, and a farmer saw a white man and negro coming down the road. The rancher said Gardner soon joined them, and when they tried to stop them the trio made a run for the timber along the river. They were soon overhauled. The Asotin sheriff says that "the boys used an old caseknife to make a fissure in the mortar between the cement blocks. Mr. Reeves says the jail is a poor one, and that the boys would have had a night's start only for a negro who was locked in the cell. The Ethiopian yelled his throat hoarse raising the alarm, saying that the others had gone and left him locked up.

# For the benefit of the timber resources of the county, now that the camping season will soon be here, the Argus wishes to caution those going into the mountains about the possibility of fires. Fires are easily started when everything is dry, and July and August are always dry in the hills of Oregon. There are millions of dollars worth of timber in the rim of mountains to the north and west of the county, and fires are disastrous. Flames in a day or so can destroy thousands of dollars worth of merchantable timber. The laws are very strict about the careless starting of fires. Extinguish your camp fire when you leave your camping place, so that the breeze will not blow a chance spark and start a big fire loss.

# The Hunger Bros. Lumber Co., of near Manning, are about to move their mill, and have a fine lot of dry, clear lumber, and No. 1 common on hand, and it must go.—Hunger Bros. Co., Manning, phone Buxton, 4-5. 14-26

# Uncle Sam was enriched \$100 the other day, according to a deed from the Pacific Railway & Navigation Co. to the Southern Pacific Co., of the Tillamook railway. The deed was signed by D. W. Campbell, superintendent, and the government was paid \$100 revenue, which goes to the war tax fund. So far this is the largest revenue stamp attached to any instrument offered for filing. The deed was set in type and printed in pamphlet form, like a book, a not uncommon method where the text of the paper in question is voluminous.

Miss Bellish says that Hillsboro celebrations are losing charm for her, as she was very close to being run down by an auto last year, while attending the day's observances.

# K. OF P. BALL TEAM LOSES RABBIT FOOT

## Scholls Beats the Champions in Hot Game, Sunday Afternoon

### CORNELIUS BEATS THE VERBOORTERS

#### Farmington Took Hillsboro Grays Into Camp, Last Saturday

The Hillsboro Pythian ball team lost its rabbit foot and its horse shoes, Sunday, or left them at home, for they were defeated by Scholls, in an exciting game. The game was replete with errors, and at one time it looked as though the Pythians would come up from behind and take the game. Scholls took an early lead and when the local team took a spurt and nearly caught them it looked as though a swatface were coming, and there would be nothing but another victory. Some dropped flies, however, put the quietus on the prospects, and the first defeat of the season laid the lucky nine low. Scholls' pitcher had nothing much on Phelps, but luck broke for Scholls at all times. Cornelius played great ball Monday, when the team beat Verboort, 5 to 0. VanBiaricom pitched for Cornelius, and he had the Verboorters guessing all the time. The Hillsboro Grays, in the Saturday game with Farmington, were all to the good until in the sixth, when Farmington ran up scores and took the lead. Ralph Williams pitched for the Grays, and Edgar Rehse for Farmington. The Ben Hurs will play Verboort next Sunday at 2:30 in the afternoon, both teams being strengthened for the occasion.

# UNION STOCK YARDS

Receipts for the week have been cattle, 1707; hogs, 6313; sheep, 3404. The Fourth of July let pleasure interfere with the receipts in all lines. Monday's and Tuesday's gathering being much below normal. Quality continues mediocre. Six seventy-five was the high spot for steers of fair quality. Cows and heifers in proportion. Hog trade started this week's session at not far from steady compared with last week's close. Tops sold at 7 60 and bulk at close to that figure. Trade appears to be on a steady basis at around prevailing prices. Sheep receipts appear to be on an unsteady footing. Not enough coming forward to really test the market. Lambs naturally, unless they show quality, have a downward tendency.

Mrs. Mary Brown and daughter, Miss Velma Alice, of East St. Louis, were here the last of the week, guests of W. R. Montgomery and family. They went over to Barview, Sunday, accompanied by Frank Montgomery. They have been at the Fair, and started home the first of the week, via Seattle, where they will also visit relatives.

Senator Wood, of this city, thinks that the matter of settling the O. & C. land case is up to the Congressional delegation, and that there should be no necessity of a call for an extra session of the legislature unless the delegation shall call for it after they have outlined a method of procedure. The Senator is now looking over the county list of lands, taxation, etc., on lands unsold, and will then take up the matter.

The City of Sherwood has filed a suit against Washington County, asking for \$912.47, cash, for road tax collected for the years 1909 to 1912, inclusive, alleging that under their charter the city should get the money, instead of the county road fund. The case probably will get to trial late this term, or at the next term. The 1909 tax asked for is \$115.43; the 1910 tax is \$121.68; the 1911 tax, \$375.80; the 1912 tax, \$299.56. The matter has been on the table as between the court and town for some time.

Thos. Williams confidentially called the Argus reporter to one side the other day, and, referring to a man who was close by, said: "Say, what is the matter with ———? Is he going crazy? I just asked him where his nephew was, and he said he did not know him at all. I tried to make it plain to him which relative I meant, and he still said he didn't know him. I then asked him how his crop was and he said he didn't have any crop. The darn fool has got in quite a crop. He must be getting buggy." The Argus reporter looked at the man under discussion—he wasn't the man Tom thought he was, but an entire stranger. The funny part of it is Tom sees the man who was and wasn't, every day, and he lays the confusion to his recent fire.
