LET steady tobacco satis-J faction-all day, every day, from a clean, small chew.

That's the beauty of the Real Tobacco Chew. It's glad news that a man can't help telling his friends about as soon as he learns the facts himself.

A little chew of pure, rich, mellow tobacco-seasoned and sweetened just enough--cuts out so much of the grinding and spitting.

Take less than one-quarter the old size chew. It will be more satisfying than a mouthful of ordinary tabacco. Just take a nibble of it muil you find the strength chew that suits you, then see how easily and evenly the real tobacco taste comes, how it satisfies, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is The Real Tobacco Chew. That's why it costs less in the end, see of pure, rich tobacco does not need to be covered up. An Heorice and sweetning makes you spit too much.

One small chew takes the place of two big chews of the old kind.
