UNION STOCK YARDS

The receipts for Monday are—Cattle, 752; hogs, 2322; sheep, 4026.

Cattle—For the last three Mondays steers have reached the 7c mark. The market seems to show steady on good stuff. Of course this class of cattle is not coming in freely. Out of the 800 head on the market only two or three loads could show in this class. Most of the offerings were mediocre, the usual number of second rate cattle being in evidence. For ordinary cows and heifers the market seems at an early date fairly steady.

Hogs—Only a few hundred head over two thousand were registered over Sunday, outside of a few loads that were able to spring the close of last week's price at \$7.15, all lines ruled steady, the bulk going at 7.00 to 7.10. Trade was active.

Sheep—The largest receipts for a single day in the last few months were in this morning, over 4000 head being totaled. Good lambs are selling at 6.25, with all lines steady at last week's prices.
