of Portland, Ore.

HIGHLY SUCCESSFUL—SIXTH YEAR
Now with Dr. F. R. Sizer, D. C. offices in Donelson Bldg., Hillsboro. Portland office 121 1/2 St.

Late Testimonial: To whom it may concern:

I beg to advise that I have taken Chiropractic treatments from the best operators in Portland, Tacoma, and Seattle, but I have yet to meet a Chiropractor who gives as satisfactory adjustments as Dr. McMahon, although one and all did not fail to charge higher rates for much less proficient and specific work.

Dr. McMahon's skill has prevented the necessity of a surgical operation in my case.

NOBODY wants to put a big, bulgy wad of tobacco in his cheek.

All around you, men are using the Real Tobacco Chew. And telling their friends how good it is; that it satisfies their tobacco hunger.

A little chew of pure, rich, mellow tobacco—seasoned and sweetened just enough—cuts out so much of the grinding and spitting.

THE REAL TOBACCO CHEW IS NOW CUT TWO WAYS!
W-B CUT IS LONG SHED. RIGHT-CUT IS SHORT SHED!

Take less than one-quarter the old size chew. It will be more satisfying than a mouthful of ordinary tobacco. Just take a nibble of it until you find the strength chew that suits you, then see how easily and how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is the Real Tobacco Chew. That's why it costs less in the end.

The taste of pure, rich tobacco does not need to be covered up. An excess of licorice and sweetening makes you spit too much. One small chew takes the place of two big chews of the old kind.

Notice how the salt brings out the rich tobacco taste!
