

RICHARD E. BRYAN DIES IN PORTLAND

Former Hillsboro Merchant Stricken With Heart Failure in Home

GENERAL MERCHANDISE HERE

Interested in Oregon City Paper Mills, and Was Timber Land Dealer

Richard E. Bryan, who in the latter part of the nineties was engaged in the general merchandising business in Hillsboro, occupying the Shute Block, died suddenly at his Portland home, No. 816 Lovejoy Street, Wednesday, September 1, 1915, from an attack of heart failure.

Mr. Bryan was aged 74 years, and was a veteran of the Civil War. He was in business for many years in Union County, where he was at one time the proprietor of A. B. Conley, the big heat king of that section. From Hillsboro, Mr. Bryan went to Dallas, where he engaged in mercantile pursuits. He was the last few years interested in the paper mills at Oregon City, and later opened a timber office at the Wilcox Building, Portland. His widow and two children survive—Lieutenant Edgar J. Bryan and Mrs. Adelina Willis, both of Portland.

Mr. Bryan was a positivist in opinion, and was one of the best informed men of the day. The Bryans made many friends while residing in Hillsboro, all of whom tender the family their sympathy.

UNION STOCK YARDS

The receipts for Monday are—cattle 1187; hogs 2799; sheep 304.

Cattle—Trade opened rather sluggish with a little less than 300 head on hand. All lines show a steady outlook. Top steers are again selling at 7c. Cows sold at 5.50 and other lines on the former basis.

Hogs Twenty seven hundred hogs entered for the early morning trading. The feature of the shipping was one consignment of nearly 500 from near Pasco, Wash. These were received on the steamer "Twin Cities." River shipments have increased many times in the past year or two and are fair to become a very popular means of transporting livestock. Top price for hogs today 7.25 with other grades in proportion. Bulk of sales 7c to 7.10. Sheep Over twenty two hundred sheep were in but went to a packer contract. Sheep prices are steady with lambs in excellent demand at 6.50 to an extreme top of 6.75. Many breeding sheep are going through the yards.

Mr. Bird, of the Benj. E. Boone Co., reports that the firm has sold in the neighborhood of 150 Fords this year. He says that the automobile purchases are doing more to create a sentiment in favor of good roads than all other agencies combined. The fact that farmers are buying machines, he says, means a convert every time a machine is taken out to the farm districts. When a man gets an auto he naturally notices the poor condition of roads—and he will be an almost certain voter for better highways.

L. G. Wiedewitsch, of Cornelius, has opened a machine shop and auto garage at that point. Acetylene welding of castings, steel and aluminum high grade babbitt metal and all kinds of supplies always in stock. Give him a call.—L. G. Wiedewitsch, Cornelius, Phone, City 105. 19-28

The Gaston Gardens Co. has finished harvesting nearly 100 acres of flax, the state sending down a number of convicts to do the work. All of the convicts were pleased to get out and work on the farm, and they gave the guards no trouble.

WARREN CONST CO. WANTS TO SETTLE

Tillamook Takes up Their Proposal, and Gets Big Saving

THROW OFF 25 CENTS PER YARD

Company Allows \$27,000 for Litigation, and Lesses \$40,000 Interest

The big Warren Construction Co.—Tillamook litigation, suit by Messrs. Geo. R. Bagley, now circuit judge, E. B. Tongue, district attorney, the two assisted by Ex. Senator C. W. Fulton, which was successful, is now being settled upon a proposal by the paving company. They offered a reduction of 25 cents on each yard of paving; \$27,000 for the expense of those who started the litigation; discounting of nearly \$40,000 in interest; and the putting up of a fidelity bond to keep up the paving for a period of ten years instead of five years—and the city of Tillamook is accepting the proposition. The Beala brothers, well known citizens of the city of Tillamook, were instrumental in starting the successful litigation. Messrs. Bagley and Tongue were secured as counsel and they gave the case a great deal of attention, fighting it successfully clear through the Supreme Court. The city has voted to give those who started the litigation the sum of \$1,500 to each of the three active members of the committee.

Messrs. Bagley and Tongue, along with Senator Fulton, feel highly pleased over the result. The property owners of Tillamook have been saved practically \$100,000, if not more, over and above expenses of the litigation.

HERMAN DANNEEL

Herman Danneel, a resident of this city since 1904, died at his home in West Hillsboro, at 3:30 a. m., September 2, 1915, after several months of illness. Mr. Danneel had been night watchman at the Condenser for several years. He was born in Germany, October 12, 1853, and was married to Mrs. Emma Schilling 23 years ago, at Hamburg, Germany. They emigrated to the Alberta, Canada, in 1902, and two years later moved to Hillsboro. He leaves a widow, now in Germany, and one son, Henry, a student at the Oregon Agricultural College. Deceased was a member of the German Lutheran Church. The funeral will take place Friday, at ten o'clock, from the Donelson Undertaking parlor.

Mr. Danneel was a well read man, and a thorough believer in higher education. He made many friends in his eleven years of residence here—all of whom extend the mother and son their condolences.

KIBOSH ON ROUGH-NECKS

The new liquor law, taking effect next January 1, will put the "kibosh" on the practice of carrying liquor to dances. This business has given the sheriff's office more trouble than any other features of disturbance.

Whiskey and dances do not mix, and of all the petty assaults the "whiskey-and-dance" cause appears to be the most numerous. The other night there was a nasty lot of fighting after a dance closed at Dilley, with the result that Jas. Hill, of Portland, was arrested and gave \$500 bond to appear and answer. Seven or eight others were in the mixup, and the end is not yet.

The new law is stringent, and reads as follows:

"It shall be unlawful for any person to carry intoxicating liquor to any dance or dance-hall or other public gathering or to have intoxicating liquors in his possession at such dance or dance-hall or other public gathering, and any person who shall thus carry intoxicating liquor to, or have the same on his possession, at such dance or dance-hall or other public gathering shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a fine of not more than \$200, or by imprisonment in the county jail not more than 100 days.

HILLSBORO SCHOOLS TO OPEN SEPTEMBER 13TH

Twenty-Two Teachers to Assist Superintendent G. N. McKay

SOME NEW TEACHERS IN CORPS

Board Hopes Hop Picking Will be Completed by Date of Opening

Supt. G. N. McKay, of the Hillsboro Schools, arrived here the first of the week to make arrangements for the opening of the public schools, Monday, September 13. The board hopes that hop picking will have been completed by that date, and it is more than likely that the small yards will have harvested, and that there will be but few yards still picking when the bells announce the beginning of the 1915-6 term.

The corps of teachers to assist Prof. McKay will number twenty-two—eight in the High and Domestic Science and Manual training, and fourteen in the grades and primary work.

The corps, as it now stands, is as follows: Supt., G. N. McKay, Portland. High School—F. L. Sleeper, principal; Margaret Rickert, Ethel E. Griffith, Viola Sheffield, Grace Thomas, Lowell Bradford, teachers; Mrs. Kenneth Robb, nee Purves, Domestic Science, and Roy Heater, Manual training.

Grades—Mrs. Josephine Case, principal; Tennessee Weatherred, Susan Berg, Ethel Joy, Leonora Isaacson, Margaret Mann, Edith Brozden, Blanche Bride, Miss Crimm, Leonora Traylor, Mrs. H. A. Ball, Mrs. Minerva Brown, Emily Young and Julia Johnson.

But for the fact that a delay of a week would run the nine months into warm weather, opening would have been postponed a week. However, as it takes a week for organization proper, the early starting has no disadvantages.

NIMRODS RETURN

Three Nimrods, in the hills since August 6, returned to Hillsboro, Tuesday, bearded like "pards," and looking the parts of buccaners, or pirates of the Spanish Main, and at first glance they might have fallen under suspicion of the peace officers. They were Circuit Judge Geo. R. Bagley, District Attorney E. B. Tongue, and Court Reporter C. E. Runyon. They have been up in the McKenzie country, 60 miles beyond the McKenzie Bridge, and neither had shaven since he left this city early in the month.

They report a splendid time, a walk of 120 miles, following their pack train of five horses. Trout galore were caught, and the boys bagged enough venison to nourish them while there, and to give each a quarter on his return.

Runyon looked like some philosopher of old, while Judge Bagley had a whisker like unto Constantine in his campaigns in the North hundreds of years ago. Tongue had a facial adornment like Sallust, the Roman historian—and the trio would have been locked up on suspicion, in any city of incorporation, as undesirable, only for credentials in the forms of hunting and fishing licenses.

Raleigh Runyon and Walter Dimick, the other members of the party rolled through town Tuesday afternoon.

Anton Camenzind and Miss Alma Cool, of Beaverton, were united in marriage, Sept. 1, 1915, at the court parlors, Hillsboro, Judge D. B. Reasoner officiating.

Gabe Essner, of above Mountaine, is suffering from injuries received in a feeder to a threshing machine, one day last week, but he is also mighty glad that he is alive and able to navigate. The threshing machine was just starting at the Thompson farm, and Gabe was going to the top of a stack. In so doing he climbed up a pole, which was fastened at the top of a shed loft. The pole became unfastened and Essner was dropped, on his back, in the bundle conveyor, which at once started him toward the knives. The separator man saw the situation, and jumped to his relief. He held him away from the knives until the engineer stopped the engine, and threw the belt. The belt caught in the gears and brought the separator to a sudden stop, or Essner might have been sliced up considerably. It was a very narrow call and the patient doesn't want any more rides in a separator conveyor.

For Sale—Three head of milk cows; one a grade Jersey-Durham, six years old, has been giving better than 40 lbs. of milk daily—due to freshen at once. Will be fresh few days later than her dam.—J. D. Koeh, Cornelius, Oregon; Rt. 2, Box 71. 24-6

The city authorities played havoc with the Oregon Electric's proposed warehouse, yesterday, the company being notified that the location was within the fire limits, and that a frame structure could not be built without violation of the ordinance. The city council met last night, however, and passed an ordinance excepting the building site from the fire limits, and building operations resumed this morning.
