Uncle Sam has recognized Caranza, in conformity with the suggestions of the A. R. C. convention. The rest should be E. Z.

New Jersey went against woman suffrage notwithstanding Wilson came out for the measure. It is whispered that Wilson's bride-to-be is against suffrage. This may explain the situation.

The county fair at Forest Grove was well attended, and the fact that it was the best yet held in the county, as indicative of what we can do in the way of agriculture, horticulture and stock raising, makes it more than worth while.

Now that Washington County has a state road—and did not know it—we should make the most of it and see that we have one good thoroughfare through the county. It costs us \$6,000 per year taxation to the state, and let us at least try to get it back.

SCHOLLS FAIR A SUCCESS

Weather made to order added greatly to the success of the Scholls Grange Fair. Although the exhibits were fewer in number than preceding years, the quality ranked very well on the score card.

Perhaps the greatest attractions in the exhibit building were the school booths, each of which was praised very highly by N. C. Maris, who judged.

Prof. Ralph Reynolds, of the O. A. C., judged all the live stock; Prof. Larsen judged farm products; Mrs. Dahlman, of the O. A. C., judged canned fruits and needlework, and R. H. Greer, of Hillsboro, judged poultry.

Mrs. Dahlman lectured to the ladies Friday afternoon, and was very interesting as well as helpful and educational. She demonstrated to the audience the proper care of the sick in the home, and was very well received. Mr. Maris talked on Grange work and its scope. Several musical numbers added to the delight of the hearers. Prof. Beck in his lecture on phases of Rural Landscape Gardening, delighted his audience. The illustrations shown on the screen were beautiful and greatly appreciated. Special mention is deserved by Rev. M. M. Reid, of Scholls, and his chorus choir, which rendered two beautiful selections during the evening.

Saturday morning was devoted to the discussion of vegetables, especially the potato, by Prof. Larsen, of O. A. C., and a short address by M. S. Schrook, Chief Deputy Dairy & Food Commissioner. The afternoon program was given over to a study of corn by Prof. Larsen; a talk to the boys and girls on "The Beauties of the Farm," by Mr. Schrook; and an address on "War and Peace," by Dr. W. T. Foster, of Reed College, Portland. The Ladies Aid was there with the proverbial "Scholls Dinner," which was enjoyed by many visitors, as well as home folks. No prizes were given, except to the juveniles.

UNION STOCK YARDS

Receipts for Monday are: Cattle, 1628; calves, 21; hogs, 3346; sheep, 1045. With the large run of 1600 head of cattle in the yards Monday, top steers sprung the market 16c. There was no radical change in the sheep division this morning, only a handful coming in the market. Prime lambs are quoted at 7 to 7 1/8, ewes 4 to 5, and wethers 5 to 5 8/8.

If all old canes have not already been removed from the loganberry vines this should be done as soon as the grower can get around to it, says Professor V. R. Gardner, pomologist of the Agricultural College Horticultural department. The old stock should be gathered up as completely as possible and burned. The old canes are of no value to the new vines but are a source of possible infection and infestation of diseases and insects as long as they are left standing. Fall spraying with Bordeaux, 5-5-50, is also a good practice. It is not certain that this treatment will entirely prevent anthracnose but it certainly should reduce the damage in cases of attack.—O.
