The people of Hillsboro will be interested in the announcement made by the Portland Women's Club, of the coming of Miss Marie Mayer, of Oberammergau, Bavaria. She is the only player of the Passion Play who has ever appeared before the American public. In 1910 she played the part of Mary Magdalene. She is now in America making a tour of the West, bringing an inspiring message of the far-famed Passion Play, illustrated in costume and with a remarkable set of stereopticon slides. She is to be in Forest Grove, at the College Chapel, Saturday evening, November 6, at 8 o'clock. The officers of the Portland Women's Club are managing her appearance in Oregon and are unselfishly backing her without any motive of special compensation. This is a rare opportunity for the people of the community. The price of admission is 25c with 10c additional for reserved seats. For sale, for \$30: Driving pony, about 10 years, gentle and free, safe for children to drive to school, saddle broke, buggy and harness.—Jas. LOCAL TALENT HELPS IN ORIENTAL PLAY

Given at Crescent Theatre, Hillsboro, Nov. 5 and 6

SYRIAN AUTHOR TAKES THE LEAD Will be Supported by Lee Perkins and Miss Lucy Weathered

The Social Circle of the Congregational Church is planning two elaborate entertainments, to be given Nov. 5th and 6th, at the Crescent Theatre. Both are of an Oriental type, and are produced by the same author, Princess Rahme Haider, the Syrian. "Naaman, the Leper," as the name would imply, is a beautiful Biblical story of Naaman, the leper, and his healing by the prophet Elisha. The leading role will be played

Princess Haider

ed by Princess Rahme Haider, the author of the play, she taking the part of Princess, wife of Naaman; E. L. Perkins takes Naaman's part; and Miss Lucy Weathered, takes the important role of Marian, the little Hebrew captive maid. The whole cast is composed of a very strong company, and the play promises to be not only instructive but entertaining. "The Carnival of Damascus" is more on the pageant order. It is a comedy in character, and contains many scenes from the Palestine country that have never been presented in this country before. Miss Haider presented them. More than seventy-five people will make up the cast. The Syrian school scene requires fifty or more children for its spectacular display. The Syrian Wedding also includes a large number of characters. "Naaman, the Leper" was presented in the First Christian Church in Portland, last Tuesday evening, to a packed auditorium. So delighted were the members of the church that the Christian Endeavor is going to repeat the performance on the first available date. Seats on sale Monday at the Hillsboro Pharmacy, 25c, 35c, 50c. Special matinee, Saturday afternoon, Nov. 6th.

A FOOL, THERE WAS

An open letter by the Grand Theatre, directed to Mr. Fred Kelley, who expresses himself in a recent issue of a local paper, the Independent:

"Dear Sir: We have noted what you have said relative to the editorials in the Independent touching upon the criticisms on a few particular photoplays. We claim you take a poor and unfair way to discuss your attitude toward the play you disliked. Why, man, by all means, if you see anything at the Grand that offends you in any way you should at once inquire for the management who will be glad to meet your criticism—and not take your plaint to a paper that has to scratch and dig for something to publish. I note that your card is from Portland. If you have ever attended 'The Majestic,' which has played return engagements of all the films criticized by the Independent, you would know that all these were censored in Portland, by a high-minded board and one selected for that purpose. None is played there which is not passed by the censor board. We would like to call your attention to one of the many comments received by us on the Independent's criticism on 'A Fool There Was.' A popular woman and an active church worker, who has a daughter old enough to see and appreciate pictures, said: 'When I read the criticism on the photoplay I thought, 'there is another fool,' for I was glad my daughter saw the film.' You understand it would be impossible to publish all the comments favorable to these educational films—educational in more ways than one, for betterment. Of course, one is entitled to his own opinions on this matter, but these films are produced everywhere without protests from censors, and it is amusing to see one or two in a community assume the God-like authority to sit in judgment over the millions who appreciate the moral lessons conveyed by those same films. The Grand Theatre, By A. C. Harrington."

COUNTY TEACHERS ASK FOR SUPERVISION

Unanimous in Asking for Return of That System

CLAIM IS THAT IT IS SUCCESSFUL

Resolution Says That It is One Best School Investment

The annual Teachers' Institute, conducted by Co. Supt. B. W. Barnes, at Hillsboro, last week, was one of the most enthusiastic ever held in the county. The teachers evidenced great interest in the many school problems that were discussed. Almost unanimously they considered the question of county supervision of vital import to this county, and at a special session called by the Washington County Teachers' Association adopted the following resolutions:

"Be it known that the Washington County Teachers' Institute in session at Hillsboro, Ore., Oct. 20, 21 and 22, 1915, in considering questions pertaining to the material advancement and welfare of the schools of this county, and, in this connection with special reference to the question of county school supervision, do carefully weigh and adopt the following resolution:

"Resolved, that we earnestly request the restoration of the supervisory system in the Washington County schools for reasons hereto set forth.

1. Since there are now employed in the county schools of Washington Co. more than 200 teachers it becomes a physical impossibility for any one man to properly supervise these schools.

2. Present conditions due to the absence of the superintendent from his office render impossible personal interviews sought by school directors and other demand immediate attention.

3. Supervision lends aid in unifying and systematizing the schools of the county. It aids the progressive and ambitious young teacher by suggestion, example and advice.

4. Supervision aids in many ways in the solution of questions of discipline, management, and general improvement of the conditions pertaining to individual schools. It has vastly improved the physical equipment of the rural schools by helping to secure proper light, heat and ventilation, and also various forms of apparatus, which have added much to the comfort and progress of both teachers and children.

5. Supervision secures and maintains the standardization of the schools, and promotes their continued improvement and efficiency. It stimulates professional growth and preparation of the rural teachers and helps them to adapt their work to the community and state needs.

Finally, for the foregoing reasons and the additional reason that supervision of the rural schools is the least expensive in dollars and cents of any form of industrial supervision in which so much money is invested and so many laborers are employed, and the possibilities of return from such investment greater than that of any other form of supervision, therefore we, the members of the Washington County Teachers' Institute respectfully request the directors to restore Rural Supervision at once.

Signed: G. N. McKay, Anna Thompson, J. M. Stretcher, H. A. Ball, C. E. Barker, Committee.
