MANY THOUSAND LESS THAN 1915

ing Dry Law, \$1,500

The county commissioners' court met Tuesday and made up the annual budget of proposed expenditures for the year 1916. The sum total of expenses for the county alone, in all its divisions, is estimated at \$325,590. 27, as against \$347,491, last year, or a saving of \$21,900.73. Only for the fact that the general election, with its primary and regular election day, in 1916, and which will cost at least \$8,000; for enforcing the dry law, estimated expense, \$1,500, and the 11 registrars under state law, \$150, the budget would have been \$32,550.73 less than for 1915.

This, of course, does not in clude the state tax, which is always fixed by the state board, and which will be in the neighborhood of \$90,000.

Last year's budget, as above referred to, did not include the state tax, so there is the clear

gain as noted.

state taxation.

The estimated budget, as su mitted by the court, appears in another place in this issue. Taxpayers can see where money is expended, and will have an accurate idea of what is proposed. Many of the things in the estimate are fixed by law, and can not be touched, while others can be raised or lowered as the court
