#### Damon and Pythin How Two Old Burn Wested a Crowd

By M. QUAD Copyright, 1915, by McChare paper Syndicate.

Just after breakfast the other m city parks. He wasn't a tremp. He wasn't a vag. He wasn't a boba

Soon a younger bum came sneeking eross the park and sat down on the nto vacancy. He also heaved a dees sigh. They had not even looked at each other when the old bum mum-

"Did you git anything?" "Not a red. I was giving the old go a fine song and dance about my dying wife when a cop appeared and about

ne till my teeth rattled." "There's an old gent coming way," said the big bum. He looks an Uncle Rube walking out to me sights of the city. Let's work the old

gag on him." Whereupon the big bum whirled half around so as to stretch out on his back and lay his head in the lap of the

younger one and close his eyes.
Yes, Uncle Rube had come to town he day before. He had put up at a notel near the park and was out at an early hour to see if the town had grown any since his jast visit of twenty years ago. As his walk brought him near the bums his curiosity was excited. Here was a case that demanded investigation, and Uncle Rube advanced and called out:

"Say, now, but what's the matter

"Sick, eh? What kind of sickn "Weak beart. It allus goes back on him when he's been without food for

"Good Lord! But you don't tell me bat's the case now?

"Damon, how long is it since you had a meal?" tenderly asked the fittle bum as he bent over the head on his

"Mebbe a week," was the faint reply "I can't believe it." said Uncle Rube Nothing to eat for a week right been in this big town, where they throw away enough every day to feed a huned hogs. What's his name?"

"His name is Damon and mine to Pythias. We are comrades. You've read about Damon and Pythias of old, "I guess I have," replied Uncle Ruba with a doubtful look, "but I've forgot

ten. But what are we going to de about this case?" "You are a good man," said Pythias "but you have come too late. Damon he has come too late, hasn't be?"

"I think be has. Pythias, but m there is just one chance yet. If I could sit down to a full meal once more I

wise there is no hope for me."
"Does he think that food will mave
him?" anxiously asked Uncle Rube. At this moment half a dozen me crossing the park stopped to inquire what had happened, and Pythias an-swered their questions by saying: "Poor Damon's heart has given out

"Neighbors, the case is this," added Uncle Rube, with a flourish of his arm.

"This here dying man has been without food in your midst for a buil week while you have been trotting around with leaded street. with loaded stomachs."

More men came up until the crowd numbered thirty or forty. Most of them took a look at Damon, whose hands were clinched and eyeballs turned up, and then smiled at each other. It was an old gag, and many of the had seen it worked before.

Uncle Rube took a dollar bill from his pocket and dropped it in his bat and passed the hat around among the crowd, saying:

"If I ever met with a worthy cause, this is the one of all. I should be ashamed to go home and face Hannah if that man died on the beach with me looking on. You look like men with hearts. Come down!"

There wasn't a man in that crowd of fifty who didn't believe he was being guiled, but they were a good natured lot, and almost every one contributed from a dime to a quarter. The change was wrapped in the bill and the whole handed over to Pythias, who said:

"Gentlemen, you have done a merciful act, and I thank you, and Damor thanks you. And you thank these gendemen, don't you, Damon?"

"And you will never forget this no ble hearted old man who has spoken so well of us?"

"Never, Pythlas, never!" "And you have resolved to live on, Damou?

"I have!" "Do you bear that, gentlemen?" said Uncle ftube as a smile came to his face and the moisture to his eyes. They are both going to live on and lead nobler and purer lives. I feel like giving three cheers!"

But before he could give them Pyth-ias stood up and interrupted with: "And it only remains, gentlemen—it

only remains to"—
"Police, policer" yelled a small boy in rear of the crows.

It only remained for Damon to roll off the bench and scramble to his feet, and in five minutes the pair were half a mile away. The crowd laughed and cheered kood naturedly, although it had been "worked," and Uncle Rube took off his hat and scratched his head and exclaimed:

"By George, when I tell Hannah she won't believe it. I guess I've been kinder made a fool off"

# THE IRON MAIDEN.

Her Dread Embrace Meant Cruel and Certain Death.

In an ancient tower at Nuremberg a strange figure is shown to visitors. It is called the Elserne Jungfrau (Iron faiden) because it looks fike a woman bressed in rusty iron. At about the make are two handles by means of the die front of the figure is opened to later, like two doors, from the case down, leaving the face unsep-

The beavy and massive doors bristle

wen spikes as sharp as dag-bout twenty of which point in-toward the chest and two of longer than the others, are fixed the face behind the eyes.

The Eiserne Jungfrau was an instru at of execution reserved for shamewomen. When one of these was demned to death she was placed inde the figure, and the doors were losed. This forced the spikes into her tal organs and through her eyes into brain. Death was quick or slow, ing to the speed with which the

The base of the figure is a trapdoor. When the doors were opened and the rictim freed from the spikes the traphoor was aprung and her body dropped brough a deep hole into a torrent that dill flows under the castle. A tip of a few pfennigs will have the hole lighted with electric lamps, and the visitor can look down and see the dark water, thus completing the tragedy in his imagination.—New York World.

#### SMAILS AS FOOD.

"All snails are edible and nutritio says Canon Horsley in a book on Brit-ha land and fresh water moliusks. He goes on to say that even the com mon or garden snall, though insipld, is as nourishing as call's foot jelly.

as nourishing as call's foot jelly.

There is a large white shelled snall called Hellx pomatia that is common ly eaten by connoisseurs in the south of England, while all over France, Italy and Spain several species are used as food. In France there are many snail farms which yield a good profit to their owners. In the French and Italian quarters of New York smalls may be brought either alive or cooked, and at most of the French restaurants they are served, "escargots farcis" being the most usual form of the dish.

Spails are easy to raise in large quan thise. They need lime for making their shells, but they do not have to be fed, as they can find their own food which is exclusively the leaves of many plants. They are most delicious when properly prepared and cooked and, as Canon Horsley says, as nour ishing as caif's foot jelly.

Roz Beach tells how in the early days of the gold excitement in Alaska there came a young German from Illi sole who, after prospecting for awhile settled in Sitka.

His name was Heary F. Almondin ger, and, wishing to Americanize him self as much as possible, he applied to the proper authority for permissi change bis name to Henry F. Almond. A few days inter a man named John Smith applied to the same authority, and, after reciting a long catalogue of be ills to which be was subject owing to his unfortunately common name, he

Collapsible Stage Scenery Preumatic scenery and stage settings are now used in an endeavor to make them more realistic and at the same time conserve the possibleness and convenience of the present type of flat and built up paper and wood forms. This is made of a rubberized fabric quickly and moved about with ease. The idea has been worked out in re-producing trees upon the stage, with the result that they appear very real from a short distance. A very large oak tree may be collapsed and packed in a small space for shipment.
