Complete Lamp and Tool Equipment, including Jack and Pump

The Model "FOUR NINETY," price \$650.00 at Hillsboro, is equipped with electric lighting and starting system with dimming attachment and electric tail lamp. We strongly recommend the purchase of the Model "FOUR-NINETY" with electric lighting and starting equipment, as no car today is complete without it. If you buy a car without electric lights and starter you will make a mistake. An attempt to correct the error by attaching a "make-shift" device is usually a costly and unsatisfactory experiment. Besides, this "make-shift" device or "after thought" does not carry the car makers warranty. With our construction it is built as part of the car and guaranteed. The electric lighting and starting system used on this Model is not the single unit, motor generator type used on nearly every low or medium priced car on the market, but is the reliable two-unit Auto-Lite system with Bendix drive, of the same grade and type used on the highest priced cars built. Come and see this beautiful car.

When the Argus said a few weeks ago that Roosevelt was likely to be a big factor in the coming presidential campaign many laughed, and looked upon the statement as born of foolishness. Sam G. Blythe, the celebrated political writer, now comes out in an article and says that it looks that way. He intimates that Theodore is going to be at bat if strategy will get him on the team, and he says the conservatives will fight him. This may be true, but Roosevelt's Gary dinner episode does not convey the impression that he will be so strenuously opposed.

Oregon lumbermen have been chafing over the bad weather which has prevailed the past six weeks. They have orders which will take all year to fill, and a local timberman, who has big investments in timber, says that this is to be the biggest year for timber cut that Oregon has ever known.
